ORDER AUTHORIZING
TEMPORARY CHANGE TC-22-05

WHEREAS, a drought emergency has been declared for Madison & Teton
Countys to allow administrative actions to lessen the severe impacts of the drought
conditions in the counties; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a
drought emergency, the director of the Department of Water Resources ("Department")
is authorized to allow temporary changes in the point of diversion, the place of use, and
the purpose of use for valid existing water rights when the director determines that such
changes can be accomplished in accordance with the provisions of section 42-222A,
Idaho Code; and

WHEREAS, on 8/14/03, Teton Pipeline Assn Inc
C/o Jack Hughes submitted the attached
Temporary Change Application TC-22-05 to the Department; and

WHEREAS, the Department has reviewed the application and has determined
the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is APPROVED subject to the
following conditions:

1. Diversion and use of right no(s). 22-7504 (Ground water)
22-7505 (Teton River) is authorized only
at the point of diversion and place of use described on the application.
2. This temporary change approval does not authorize construction of a new
well as a new point of diversion.
3. The applicant assumes all risk of curtailment or mitigation should the
diversion and use of water under the temporary change approval cause
injury to other water rights, constitute an enlargement in use of the original
right, be inconsistent with the conservation of water resources within the
state of Idaho, or not be in the local public interest.
4. This temporary change approval may only be used to provide a

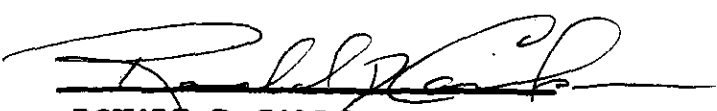

dy

replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

5. Right(s) ²²⁻⁷⁵⁰⁴22-7505 are limited to the irrigation of a total of 315 acres in a single irrigation season.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
10. The watermaster of Water District No. 01 is authorized to administer the temporary change approval.
11. This temporary change approval expires on 12/01/2003 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

BYRON W. O'BRIAN, being first duly sworn deposes and states:

1. That he is a resident of Tetonia, Teton County, Idaho;
2. That since the commencement of the 1979 irrigation season he has functioned as the Water Master for the Teton Pipe Line Association;
3. That J. CLINT HOOPES is a property owner and irrigator who irrigates his farm land with water controlled by the Teton Pipe Line Association;
4. That Mr. Hoopes has informed the affiant that he has irrigated the property known as "The Home Place" since 1976. As Water Master, affiant has personal knowledge that "The Home Place" has been irrigated since the 1979 crop year. From information furnished by Mr. Hoopes, affiant believes the legal description of "The Home Place" is as follows:

The W 1/2 of the SW 1/4 of Section 5, Township 6 North, Range 44 East, Boise Meridian.

The NW 1/4 of the NW 1/4, the S 1/2 of the NW 1/4, and the SW 1/4 of Section 8, Township 6 North, Range 44 East, Boise Meridian.

The NE 1/4, the SE 1/4, the E 1/2 of the SW 1/4, and the SE 1/4 of the NW 1/4 of Section 7, Township 6 North, Range 44 East, Boise Meridian.

Beginning at a point that is 750 feet West of the corner of Section 5, 6, 7, & 8 of Township 6 North, Range 44, E.B.M., Teton County, Idaho, thence West along the Section line of Section 6 & 7 for a distance of 645 feet; thence North 615 feet to the right-of-way of Idaho State Highway 33; thence in the Southeasterly along the highway right-of-way for a distance of

approximately 825 feet to the point of beginning.

EXCEPTING THEREFROM the following described property:

Beginning at the SE corner of the NW 1/4 of the NW 1/4 of Section 8, Township 6 North, Range 44 East, Boise Meridian, and running thence North 3,300 feet; thence West 300 feet; thence South 3,300 feet; thence East 300 feet to the point of beginning.

Beginning on the corner of Sections 5, 6, 7, & 8 of Township 6 North, Range 44, E.B.M., Teton County, Idaho, thence West along the Section line between Section 6 & 7 for a distance of 500 feet to the highway right-of-way of Idaho State Highway 33; thence in a Southeasterly direction along the right-of-way of State Highway 33 for a distance of approximately 700 feet to the Section line between Sections 7 & 8; thence North along the Section line of Sections 7 & 8 for a distance of 500 feet to the point of beginning.

Beginning at a point 2140 West of the corner of Sections 5, 6, 7, & 8 of Township 6 North, Range 44, E.B.M., Teton County, Idaho, thence West along the Section line between Section 6 & 7 a distance of 375 feet; thence South a distance of 375 feet, thence in a Northeasterly direction a distance of approximately 525 feet to the point of beginning.

5. That affiant has been told by Mr. Hoopes that the property known as "The Stoddard Place" has been irrigated since 1976. However, as Water Master for the Teton Pipe Line Association affiant has personal knowledge that the property identified as "The Stoddard Place" has been continuously irrigated since the 1979 crop year. From information furnished by Mr. Hoopes, affiant believes the legal description of "The Stoddard Place" is as follows:

Tract 1: Commencing at the SW corner of Sec. 28, Twp. 7 N., R. 44, E.B.M., and running thence East 82 rods, more or less, to the SW rim of the Teton River Canyon, and thence following said canyon rim in a Northwesterly direction to a point where said canyon rim intersects with the

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed licenses confirming that a water right has been established in accordance with each permit referenced above. The licenses are preliminary orders issued by the Department pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described in the enclosed information sheet.

For your records I have also enclosed copies of your Application for Amendment of Permit forms as they apply to the above referenced water right numbers.

Sincerely,

Shelley W. Keen

Documentation from previous examination of other rights diverting from the Clementsille (North) Project is attached and has been used for determination of capacity, etc. These 2 permits were recently approved even though within the Eastern Snake River Plain aquifer because it could be shown that irrigation occurred prior to 1987.

RE: Permit Nos. 22-07504 and 22-07505

Gentlemen:

Enclosed are copies of your approved applications for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permits.

Please note the special condition requiring totalizing measuring devices on both the well and the pumps at the Clementsville Project.

Enclosed are forms entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop these permits. Also enclosed are forms entitled "Proof of Beneficial Use". These forms can be filled out and submitted immediately since these permits represent an irrigation system which is already in existence.

If you have any questions concerning these documents, give me a call.

Sincerely,

MEMORANDUM

Date: October 26, 1995
From: Jim Johnson
To: Glen Saxton, File
Subject: Applications for Permit 22-07504 and 22-07505

=====

These two applications are being forwarded to you for approval, at this time, because they do not represent a new appropriation of water. These filings were made in 1985 to include lands that were irrigated as part of the Teton Pipeline Development (Teton Pipeline). In total there are approximately 30 water rights associated to this development which the department is in the final processing the rights for licensing.

Approval of these two applications has been delayed until department staff could verify that the lands described on the applications were in fact irrigated prior to 1987. Through reviewing the field examiner's reports completed on the other rights used in the Teton Pipeline, the staff has confirmed that the lands listed under these two applications have been irrigated prior to 1987. The permits now contain a condition that prevents additional appropriation water which could not be assured prior to the measurement of water at the points of diversion listed on the other Teton Pipeline water rights.

Both applications cover the same land, one application (22-07504) is for groundwater and the other (22-07505) is for Teton River when this source is available. The application for groundwater is actually for exchange for the Teton River water diverted at the main diversion facility.

The Department is ready to finalize license issuance for a number of the above mentioned rights. Before licenses can be issued on the majority of the permits, the permits must be amended to correspond with the findings of the Department's field examiner.

The enclosed Applications for Amendment contain information that will be included on the licenses when they are issued. The amendments reflect changes in the locations of the place of use descriptions. Please review carefully and if you concur, sign the amendments and return with the filing fees within 14 days (\$50.00 for each amendment). A \$20.00 amendment fee was previously paid for Permit No. 22-07180; this fee can be credited to the amendment fees now sought.

Also enclosed is a relinquishment form for Permit No. 22-07221. Permit Nos. 22-07211 and 22-07295 supply the maximum volume for the acres covered under the three permits, therefore, no additional beneficial use was found under Permit No. 22-07221. In order for us to clear our records of this right, we ask that you sign the relinquishment form and return it with the amendments for the other permits.

Re: Assignment of Water Rights to
Teton Pipeline Association, Inc.

Dear Mr. Johnson:

Teton Pipeline Association, Inc., has received your letter of August 09, 1994 addressed to J. C. Hoopes concerning the above referenced matter. Jack and I have been working on the matters addressed in your letter, and we believe we have everything taken care of.

Let me address those problems you referred to in your letter permit number by permit number. We have taken the following action:

Permit Numbers 22-07235 and 22-07116: Rex Ard is deceased and Larry Ard is a widower. Thus only Larry Ard needs to sign the assignment. Enclosed please find a fully executed assignment, assigning these two permits to Teton Pipeline Association, Inc.

Permit Number 22-07261: Teton Valley Ranches is a separate entity from Teton Pipeline Association, Inc., and it owns no stock in the corporation nor does it divert any water from any of Teton Pipeline's diversion points. As much as we would like to have that water right, I'm afraid that we will have to leave it to its rightful owner, at least for now.

Permit Number 22-07157: Teton Georgic Inc., is a predecessor in interest to Jim Huskinson, dba Jim Huskinson Farms. Through oversight on our part, this permit was not included in our original filing. It should have been, and we appreciate you bringing this to our attention. Enclosed please find a fully executed assignment, assigning this permit to Teton Pipeline Association, Inc.

Permit Number 22-07178: We were aware that this permit had lapsed and that is why we did not include it in our original application. We appreciate you bringing this to our attention.

Permit Number 22-07119: Thank you for bringing this to our attention. Enclosed please find a fully executed assignment, assigning this permit to Teton Pipeline Association, Inc.

Permit Number 22-07216: Hink Inc., is another corporation associated with Jim Huskinson, dba Jim Huskinson Farms. Enclosed please find a fully executed assignment, assigning this permit to Teton Pipeline Association, Inc.

Permit Number 22-07122: Enclosed please find a fully executed assignment, assigning this permit to Teton Pipeline Association, Inc. Thank you for bringing this to our attention.

Also, enclosed please find a fully executed ASSIGNMENT OF APPLICATION for Application Numbers 22-07514 and 22-07505 wherein J. Clint Hoopes assigns his Applications to Teton Pipeline Association, Inc., and a similar document wherein DeMar Bott assigns Application Numbers 22-37637 and 22-07667 to Teton Pipeline Association, Inc. Even though these Water Rights are only in the Application stage they are important to the Teton Pipeline Association irrigation system, they are personal property, and they need to be assigned to the Pipeline Company. Furthermore, all of these water rights are being NOV 07 1995

the application stage through no fault of the applicant.

We are in hopes that these enclosures will complete the filing necessary to have these rights assigned to Teton Pipeline Association, Inc. Your detailed review and your help and assistance in working through this complicated transfer is greatly appreciated by all of the shareholders in Teton Pipeline Association, Inc. If you have any further questions or if you need any additional information, please do not hesitate to call or write. We will respond as quickly as possible.

In this particular area of the state we are now between grain harvest and potato harvest. As soon as the potato harvest is complete either Jack or myself, or both of us will stop by to discuss these transfers with you. As I am sure you are, we are anxious to have this matter completed.

Thank you very much.

RE: Water Right No. 22-07504 ,22-07505

Dear Mr. Spackman,

Enclosed please find the questionnaire for expemption from the moritorium. As you know all of the protests were dropped from these applications. I am not asking for any additional water, merely clearing up a land description, which has been irrigated since 1979.

Since I am not seeking any additional water, I don't think I fall under the moritorium, since the purpose of the moritorium is to not put any increased burden on the water supply.

I would have no problem on these permits having the limitation put on them, that my total use of water would not exceed what is already under the permits.

If I can provide any additional information, please let me know.

Sincerely,

Jack Hoopes.

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE
COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated
with surface water in the past?

yes

- Do you summer fallow any of your irrigated land? If
so, how many acres?

58 acres, in the corners of the pivots, are laid out on years like
this.

- List the water right(s) you have used to irrigate the
land listed on the application. If you have received
water from a canal company or water district, please
identify the name of canal or water district.

22-7120, 22-7121 22-7208

- During the last ten years, how many years has your

RE: Application for Permit No.s 22-7504 & 22-7505

Dear Mr. Hoopes:

I am writing to inform you about the status of the above applications. I have received the trust water information questionnaire for the groundwater application no. 22-7504. Application no. 22-7505, which is the Teton River application, has been received by the state office in Boise for final processing.

As you may know, the Department has been reviewing a number of Teton River diversion and exchange well filings for final licensing. There are presently over 30 such filings which require licensing, including several held under your name and Echo Ranch. We had hoped to complete licensing of those files by the end of this month. However, a number of questions were raised during the review process which has caused us to look at certain data including past Teton River and exchange well diversions, storage water use, Cross-cut canal diversions and well log records. Some of the questions or concerns raised in our review, along with the content of the hydrologic data, must still be discussed with the watermaster and assistant watermaster of Water District 01. We hope to discuss this matter with them in the next few weeks. We may also need to contact you and other permit holders in the area for certain information regarding your operations. Whether additional information is needed from you will depend on our discussions with District 01.

Since application no.s 22-7504 and 22-7505 are a part of the Teton-Clementsville Pipeline system, we have decided to delay approval of these applications until we can complete licensing of the existing permits.

Sincerely,

Tim Luke

RE: Permit application 22-7505, Hoopes.

Dear Skip:

Pursuant to our meeting on August 14, 1980, with Jack Hoopes, Idaho Department of Fish and Game provides the following written comments.

The Idaho Department of Fish and Game supports the Board of Water Resources' instream flow of 106 cfs, and we believe Mr. Hoopes' water right, based on his application, is junior to the instream flow right. Therefore, our Department withdraws our protest of Permit 22-7505 with the condition the instream flow is referenced in granting this permit.

A long term solution to monitoring the Clementville diversion by individual shareholders needs to be determined. Also, gauging the Teton River to insure instream flows are provided needs to be addressed.

Thank you for your assistance in the resolution meeting.

RE 22-7505

Dear Mr. Jones

In regards to your letter of June 25, 1990 regarding additional information needed to process permit 22-7505, I submit the following:

- 45313 As previously stated, the pipeline to the property was in place in May 1976. Development of this land and pivots took place May 10, 1980. therefore, this is the 10th year the lands have been irrigated. The entire Clementsville project has low pressure systems or flow control nozzles to cut down the amount of water used. The time management of irrigation has allowed us to water all the lands out of the pipeline. Exchange wells are in place to exchange water so that no other water rights are effected. When the wells are not in operation the ground is being watered from high water, or storage water purchased through Fremont Madison.
- 45321 Pursuant to Idaho Code application has been made for 0.02 c.f.s. per acre (See Idaho Code ss.42-202.) The average use period is from May 15 to September 15. With Peak use from June 15 to August 15. Average use would be 1000 gpm or 2.22 cfs.
- 45322 As stated above exchange wells from the Snake River aquifer and storage water are purchased to supplement the water right.

If you have any comments please do not hesitate to call my office.

Sincerely,

Jack Hoopes

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

The applicant must be prepared to present evidence and/or testimony addressing each of the five items. Although representation by legal

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Teton Valley News. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.
