Dear Ms. Fleck:

Melvin Bennion, President of the Rexburg Idaho Stake has investigated the drilling of the well with permit 22-7437 on our property #509-5972 and finds it was drilled in 1978, though he was not sure which month. I hope this is sufficient for you to complete the processing of this permit.

Thanks for your help.

Dear Mr. Johnson:

Re: Permit No. 22-7437

On April 4, 1991, the department received the proof of beneficial use form for the church's property in Rexburg; specifically, Rexburg 7, Wards Recreation property on Burton Road, property #509-5972.

The proof is lacking some information. Please advise me when the well was drilled which services this property. A month and year or year only would be adequate.

I will hold processing the proof until I receive this information from you.

Sincerely,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 22-07437

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON

TO: FILE

FROM: TIM LUKE

RE: APP. NO. 22-7437

DATE: 12-2-90

This application was recently sent to the state office by the region along with other trust water filings. Upon review of the file, it appears that there is sufficient statements attesting to development prior to 1984. Since the application was filed prior to 10/1/1984 and development under the application was completed prior to that date, the application is exempt from trust water review and processing.

I recommend immediate approval of the application. The application does not need to be re-advertised as suggested by the letter of 1/23/1989.

RE: APPLICATION FOR PERMIT NO. 22-7437

Dear Applicant:

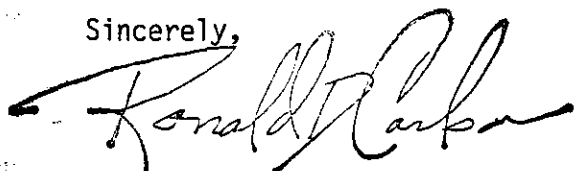

The department is now beginning the processing of applications which have been held as a result of the Swan Falls controversy. In connection with this processing, the department requests the information described below.

From the department's review of the above referenced water right application, it appears the application is only subject to the usual water right processing described in Section 42-203A, Idaho Code, and is not subject to the public interest criteria processing required of some applications in the Swan Falls settlement.

In order to process the application, the application needs to be re-advertised in compliance with Water Appropriation Rule 4,2,2,1. Please submit the readvertisement fee in the amount of \$20 within 30 days or the department will void the application pursuant to Water Appropriation Rule 4,2,2,4.

Please feel free to contact the department if you have any questions.

Sincerely,

Ronald D. Carlson
