Dear Ms. Hoopes:

I have received the applications for amendment for the above referenced permits along with your letter.

The two amendment forms which you signed, Nos. 22-7181 and 22-7392, required filing fees of \$20 each. We did not receive the fees. Please submit the fees within 20 days.

As for the application for amendment of Permit No. 22-7180 which you refused to sign because of a decrease in acres, I offer the following. Our field examiner inspected the delivery system on June 19, 1979. At that time, he found a total of 478 acres being irrigated under this right.

I have enclosed copies of the examiner's hand-drawn map as well as the aerial photography on which he indicated the irrigated acreage. Any acres put under irrigation **after** the field inspection cannot be included in this license. If after reviewing these documents you still feel an error was made by the department in calculating the acreage, please submit documentation to substantiate the protest. I will withhold action on this right for 20 days to allow you to respond. If you find that you concur with our findings, you can sign the enclosed amendment application form and submit it with it's \$20 filing fee.

If you have any further questions, please give me a call.

Sincerely,

WATERMASTER COMMENTS

I have reviewed Application for Permit No. 22-7392 and have the following comments/objections to the approval of this application for permit:

These late filings on the Teton River are the source of many bad feelings in that area. However aside from certain administrative problems associated with administering these exchanges there are times when water supplies will allow some water to be pumped without need for replacement.
