Additional points original point of diversion

c. Description of diverting works pump

- d. Describe the reasons for applying for a change in the point(s) of diversion because physical nature of current diversion combined with heavier problem makes it not to impossible to divert water, especially when creek drops to normal flow. Also, porous nature of ditch causes excessive water loss (45-150 inches.)

2. Change in place of use

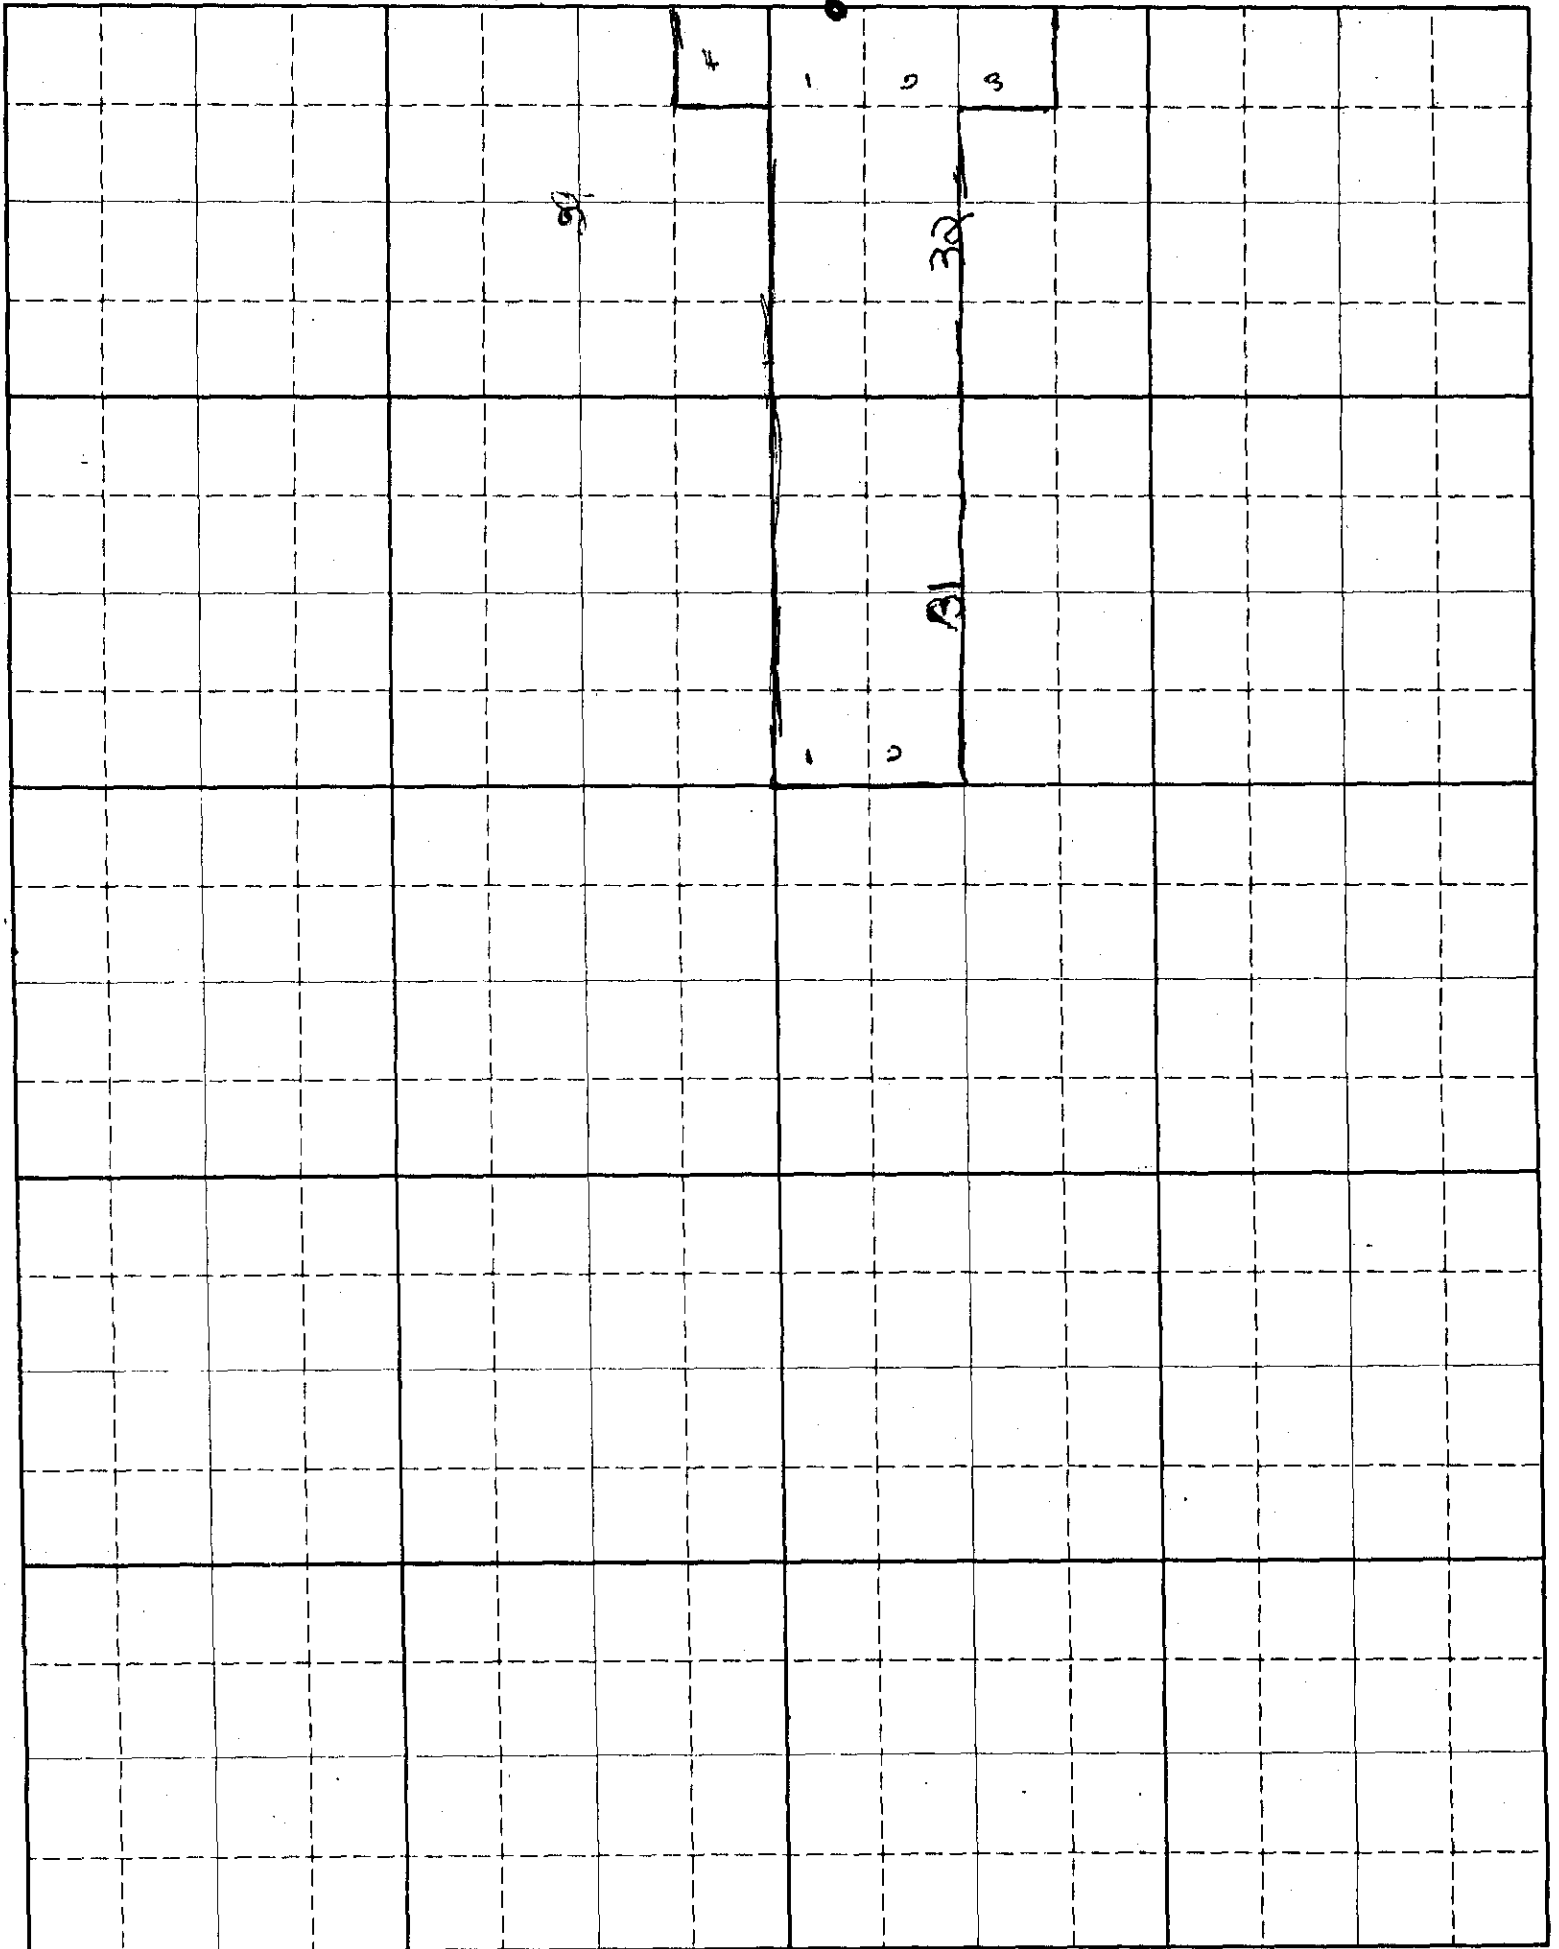

- a. Describe the lands or place of use to which the right will be transferred: same as A. B.
