ENCLOSURE

- a. Quantity to be diverted at new point: 83.7 c.f.s. and/or _____ acre feet
- b. New point of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 19, Township 3
North 46 E., B.M.
North, Range 46 E., B.M.
- c. Description of method of diversion and conveyance from new points of diversion: Water from
creeks drops into diversion structure and flows through buried
steel mainline down mountain slope to valley floor, and through
several branch mainlines to a standpipe on each stockholder's
premises, where stockholder attaches his own lateral line.
- d. Is water to be conveyed to the lands previously irrigated? Yes _____ No _____
Mostly, the same lands, but with some changes.
If not, the place of use should be changed below.
- e. Describe the reasons for applying for a change in the point of diversion:
Heretofore, the water was diverted from the creek channels through
lateral canals and ditches, as the creeks cut through the lands of
the stockholders, resulting in tremendous losses of water through
seepage, and the water would not reach the lower lands long enough
in the year to finish a crop. This system preserves water for a
longer season.
- f. Do you intend to make the transfer permanent? Yes, as to the amount transferred
- g. Do you intend to abandon completely the old point of diversion? No, they shall be used
to divert the balance of the water owned by applicant to the lands
presently irrigated, as shown in paragraph 8.
- h. Indicate on the above plat the new point of diversion and lands to be irrigated.

a. Describe the new lands on which you wish to use your right.

f. Do you intend to make the transfer permanent? Yes, as to the 83.7 c.f.s.

g. Are you completely abandoning the land, previously irrigated by this right? If not, explain your plans:

No, they shall continue to be irrigated from the old points of diversion, with the balance of the water owned by applicant as shown on Exhibit "B". This is necessary, especially for culinary use, high water, and extra water to increase the level of "Sub-water".

h. Describe any other water rights that you claim for the new ground upon which you wish to transfer this right. None

i. Indicate on the above plat the new land to be irrigated and the point of diversion.

I hereby assert that no one will be injured by such transfer and that the change will be made at my own risk. The information contained in this application is true to the best of my knowledge.

TRAIL CREEK SPRINKLER IRRIGATION COMPANY
