ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. 22-0513 and 22-0514, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

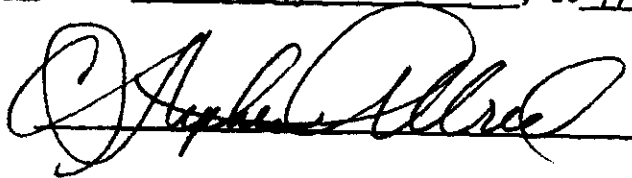

1. This transfer will only be in affect through April 1, 1978, at which time the point of diversion and place of use will revert back to the same locations established prior to the execution of this transfer. An extension of time may be requested by writing to the Department of Water Resources on or before the termination of this transfer.

2. No more than 1,016 acre feet of water may be diverted on any one year.

3. A measuring device of a type approved by this Department shall be permanently installed and maintained as part of the diverting works.

4. This right is and shall remain under the control of the watermaster of Water District 01.

THIS AGREEMENT, made and entered into this 22nd day of December, 1975, by and between TETON IRRIGATING AND MANUFACTURING COMPANY, hereinafter called "Lessor", and TETON PIPE IRRIGATION ASSOCIATION, hereinafter called "Lessee",

WITNESSETH:

1. Property Leased.

Lessor does hereby lease to Lessee and Lessee does hereby lease from Lessor the following described water rights in the Teton River, to-wit:

6 cfs with priority of July 1, 1891 and
7.68 cfs with priority of July 1, 1892.

2. Term of Lease; Option.

The lease shall run for a term of two irrigation seasons, namely, 1976 and 1977.

Lessee is granted the option to renew the lease for an additional term of two irrigation seasons, namely, 1978 and 1979, upon the same annual rental. To exercise the option Lessee must give Lessor notice in writing on or before the end of the initial lease.

3. Rental.

Lessee shall pay to Lessor the sum of \$5,472.00 for each irrigation season. Rent for the first irrigation season has been paid down on execution hereof, receipt of which is hereby acknowledged, and for the subsequent season of the lease, and of any renewal, rent shall be paid on or before the 22nd day of December of the year prior to the irrigation season.

4. Diversion and Expenses.

Lessee shall divert the water from the Teton River at its own expense. Lessor shall have no obligation to divert nor to convey the water.

5. Default.

If Lessee shall fail to pay any rent when due, Lessor

shall not excuse the Lessee from damages for breach of the lease.

Lessee shall pay to Lessor all reasonable attorney's fees that are incurred by Lessor in enforcing the covenants and agreements of this lease or collecting damages for the breach thereof, with or without suit.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed this 22nd day of December, 1975.

TETON PIPELINE

Demar Bott
Newdale,
Idaho 83436

Dear Mr. Bott:

In August of 1978, Teton Pipeline filed an application to transfer the above captioned water rights. At that time, these rights were being leased from James Siddoway and allowed the diversion of water from the Teton River. However, because the Department was not provided with a current copy of the lease, we were unable to proceed with final action on the application. It is my understanding, from discussions with Earl Hoopes, that Teton Pipeline would be willing to withdraw this application since these water rights have not been leased for several years and there is no intent to negotiate a new lease.

For your convenience, to expedite this process, we have enclosed a withdrawal form. Please sign this form in the presence of a notary and return it to our office. Your cooperation in this matter will be appreciated.

Respectfully submitted,

FROM: Ernest Carlsen

As a follow up to the Department's letter, if neither the withdrawal form or a valid lease agreement is received by February 1, 1984, an order should be sent to the applicant requiring they show cause within a ten-day period why the application should not be voided for failure to furnish documentation confirming their authority to transfer this water.

RE: Application for Transfer of Water Rights No. 22-0513/22-0514

Dear Mr. Hoopes:

The above captioned application was filed in August of 1978 by Teton Pipeline to transfer 13.68 cfs of water originally decreed to Siddoway Irrigation. Final administrative action however, is pending because the Department never received documentation confirming the Pipeline's authority to transfer this water. The information is required because the water rights are not appurtenant to lands owned by members of the pipeline.

Failure to provide this information despite numerous requests by this office leads us to believe Teton Pipeline is no longer interested in pursuing this application. Should this be the case, please sign the enclosed withdrawal form and return it for processing.

If Teton Pipeline is still interested in pursuing the application, then a valid long-term lease agreement should be submitted to this office by February 1, 1984.

If you have questions concerning this application, feel free to call or contact me.

Respectfully submitted,

ERNEST CARLSEN

Enclosure

Memo.

1-10-83.

To: File for En R 22-0513 & 22-0514
From: Ernest.

R.K. Siddleway, Pres. of Siddleway Ship Co. Inc. filed an application, in Jan 1975, to transfer 200 cfs of right #22-0513 to different place given and sort of diversion. Mr. Siddleway attempted to verify ownership of this water based on a Stipulation Agreement signed by James Siddleway as President of Siddleway Irrigation & Manufacturing Co.. But according to information obtained from Fremont-Piedra Irrigation District, the canal company had disallowed removing Mr. J. Siddleways authority to grant the transfer. Because no other documentation was provided to verify authorization of the transfer, it was denied by the Dept. on April 19th, 1975.

Then in April 1977 Jeton Pipeline filed an application to transfer all of rights 22-0513 & 22-0514. Their authority for making this transfer was a lease agreement ^{again} signed by James Siddleway, only this time was representing Jeton Irrigation and Manufacturing Co. The lease allowed Jeton Pipeline to use the water until the end of the 1977 irrigation season, with an option

to extend the lease for two additional years. The Dept.
issued the transfer with the condition it would only be
^{identified as #2088}
in effect through April 1, 1978.

The application now being considered was filed after
T#2088 had lapsed. Unfortunately, the applicant ^{has} failed
to provide proof of authorization or ownership and consequently
the transfer has not been issued. ~~Since this authorization~~
~~has not been provided, in spite of repeated requests by~~
~~this office, it has been decided to send the applicant an~~
~~order to show cause why the application should not be~~
~~denied or voided.~~

Should the applicant submit another lease agreement
from ~~John H. Hargrave & Manufacturing Co.~~, then we will need
proof that the co. is the successor to ~~Hedding Hargrave &~~
~~& Manufacturing Co.~~

Dear Mr. Hoopes:

In August of 1978, Teton Pipeline Association applied to the Idaho Department of Water Resources to transfer Rights 22-0513 and 22-0514 which were originally decreed to Saddoway Irrigation in case of Rexburg Irrigation et al. vs Teton Irrigation et al.

Because a valid lease agreement has never been received, the Department has not taken final action on this application.

It is my understanding that the association is paying over \$5000.00 per year for these water rights. You should be aware that to date, because it has not been possible for the State to approve the transfer, these rights have never been recognized in the Association's system.

I would recommend that you get a valid lease agreement to this office as soon as possible in case water again becomes available to fall these rights in 1980.

Very truly yours,

RONALD D. CARLSON

Dear Mr. Parkinson:

Considering the time and effort devoted to providing a copy of the lease agreement with Mr. James Siddoway, I am sorry to inform you the agreement can not be recognized as authorization for transferring Siddoway Irrigation water, since it expired in 1979. In order to recommend final action on the application for transfer, it will be necessary to provide a copy of the new lease agreement, which you indicated was in process of being finalized. To prevent additional delays in processing the application, I would appreciate you relaying this information to the present secretary of Teton Pipeline Association.

Respectfully submitted,

I'm very sorry for the delay in forwarding this lease copy to you. I was the Secretary for the Teton Pipeline Assn. during the first year of the lease tenure, however, after that time all pertinent papers were transferred to succeeding Assn. officers.

After much searching, we've finally found this copy for duplication and forwarding to you. Again, let me apologize to you for the delay. If there is anything further that you require, please let me know. We are in the process of renewing this lease. Will you require copies of that transaction?

Thank you

THIS AGREEMENT, made and entered into this 22nd day of December, 197 . by and between TETON IRRIGATING AND MANUFACTURING COMPANY, hereinafter called "Lessor", and TETON PIPE IRRIGATION ASSOCIATION, hereinafter called "Lessee",

WITNESSETH:

1. Property Leased.

Lessor does hereby lease to Lessee and Lessee does hereby lease from Lessor the following described water rights in the Teton River, to-wit:

6 cfs with priority of July 1, 1891 and
7.68 cfs with priority of July 1, 1892.

2. Term of Lease; Option.

The lease shall run for a term of two irrigation seasons, namely, 1976 and 1977.

Lessee is granted the option to renew the lease for an additional term of two irrigation seasons, namely, 1978 and 1979, upon the same annual rental. To exercise the option Lessee must give Lessor notice in writing on or before the end of the initial lease.

3. Rental.

Lessee shall pay to Lessor the sum of \$5,472.00* for each irrigation season. Rent for the first irrigation season has been paid down on execution hereof, receipt of which is hereby acknowledged, and for the subsequent season of the lease, and of any renewal, rent shall be paid on or before the 22nd day of December of the year prior to the irrigation season.

4. Diversion and Expenses.

Lessee shall divert the water from the Teton River at its own expense. Lessor shall have no obligation to divert nor to convey the water.

5. Default.

If Lessee shall fail to pay any rent when due, Lessor at its option may immediately terminate the lease. Such termination

shall not excuse the Lessee from damages for breach of the lease.

Lessee shall pay to Lessor all reasonable attorney's fees that are incurred by Lessor in enforcing the covenants and agreements of this lease or collecting damages for the breach thereof, with or without suit.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed this 22nd day of December, 1975.

Dear Mr. Hoopes:

Subsequent to our discussion concerning the lease agreement with Siddoway Irrigation relating to the Application for Transfer filed by Teton Irrigation, I forwarded a letter to Mr. Edmond Parkinson on November 6, 1979, explaining that the application could not be approved without a copy of the lease agreement to verify authorization for the transfer. The letter further stated the lease agreement should be provided by December 10, 1979.

We still have not received either the lease agreement or a reply. In the hopes that the lease agreement will be provided we are delaying forwarding the application to Boise until March 3.

Dear Mr. Parkinson:

In August of 1978, Teton Pipeline filed with the Department an application for transfer for Siddoway Irrigation decree water, and although, the initial processing has been completed, further action was delayed pending receipt of the lease agreement with Siddoway Irrigation as verification of authority to make the transfer.

It has now been in excess of one year since the application was filed and we intend on forwarding the application to Boise for final action by December 10, 1979. This should allow sufficient time for providing the lease agreement should Teton Pipeline still wish to have the water transferred. Failure to provide the lease agreement or advise the Department of Teton Pipeline's intent concerning the application by the above date will prevent approval of the application.

Please feel free to contact me should there be questions concerning this matter.

SUBJECT: Teton Pipeline 22-0513/22-1514

A recent visit was made to the Madison County A.S.C.S. to confirm the lands claimed to be irrigated under the transfer filed by Teton Pipeline. The lands shown on the transfer are all under irrigation with the exception of the lands located within the SE $\frac{1}{4}$ of Sec. 31, T. 7N, R. 41E, B.M., which fall within the city limits of Teton.

NOTE: I am sure these lands have been irrigated, the question is have they been irrigated under the sediment right?

In reviewing the application for transfer you recently filed on behalf of Teton Pipeline, it was discovered that right No. 22-0514, with a priority of June 1, 1892 for 7.68 c.f.s. was specifically decreed for use beginning July 1 and for the balance of the irrigation season. In order to prevent any delay in processing of the application for transfer, the period of use for this right has been changed to July 1 through November 1.

If you have any questions concerning this matter, please feel free to contact this office.

RE: Siddoway Application for Transfer and Application for Exchange

James Siddoway filed these applications January 30, 1975. When he first came into the office, he had blank transfer forms signed by R. R. Siddoway, President of Siddoway Sheep Co., Inc. We helped Mr. Siddoway complete the forms, but from the information he gave the correct ownership of this right appeared to be in question. Mr. Siddoway agreed to submit proof of ownership, but failed to do so within a reasonable time. On March 12, 1975, we sent him a letter again requesting this information.

We also contacted Fremont-Madison Irrigation District and they told us that the Siddoway Canal Co. had been dissolved and the rights were to be sold to the highest bidder and James Siddoway has no authority to initiate the transfer.

I recommend that, since Mr. Siddoway has not provided any of the requested information and in view of the comments made by Fremont-Madison Irrigation District, we proceed to void our records of these application. I do not recommend that the Department refund the filing fee.

A handwritten signature, likely "Ron Carlson", is written over a horizontal line.

Dear Mr. Siddoway:

In regard to your application for transfer and exchange of water rights, this office has received information that there is some question as to your authority to make the transfer and exchange. Before we can proceed further with your applications, it will be necessary for you to furnish proof of your authority to transfer and exchange the water rights in question.

For your convenience, we will hold your applications for 30 days. At the end of that time, we will begin voiding procedures. If you have any questions, please contact this office.
