9. If applicant was not the original holder of this right explain how it was acquired: Applicant, by several Grant Deeds, dated on various dates on and between 4-11-69 and 7-8-69 acquired all water rights from present owners of water rights (see copy of Grant Deed attached as Exhibit "C") who acquired said rights through their respective predecessors in title from original owners thereof. List of original owners attached hereto as Exhibit "D".

10. CHANGE IN POINT OF DIVERSION

- a. Quantity to be diverted at new point: 83.7 c.f.s. and/or _____ acre feet
- b. New point of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 19 Township 3
North 46 E., B.M.
North Range 46 E., B.M.
- c. Description of method of diversion and conveyance from new points of diversion: Water from creeks drops into diversion structure and flows through buried steel mainline down mountain slope to valley floor, and through several branch mainlines to a standpipe on each stockholder's premises, where stockholder attaches his own lateral line.
- d. Is water to be conveyed to the lands previously irrigated? Yes _____ No _____
Mostly, the same lands, but with some changes.
If not, the place of use should be changed below.
- e. Describe the reasons for applying for a change in the point of diversion:
Heretofore, the water was diverted from the creek channels through lateral canals and ditches, as the creeks cut through the lands of the stockholders, resulting in tremendous losses of water through seepage, and the water would not reach the lower lands long enough in the year to finish a crop. This system preserves water for a longer season.
- f. Do you intend to make the transfer permanent? Yes, as to the amount transferred.
- g. Do you intend to abandon completely the old point of diversion? NO, they shall be used to divert the balance of the water owned by applicant to the lands presently irrigated, as shown in paragraph 8.
- h. Indicate on the above plat the new point of diversion and lands to be irrigated.

11. CHANGE IN PLACE OF USE

- a. Describe the new lands on which you wish to use your right.

b. Do you intend to make the transfer permanent? Yes, as to the 83.7 c.f.s.

c. Are you completely abandoning the lands previously irrigated by this right? If not, explain your plans:

No, they shall continue to be irrigated from the old points of diversion, with the balance of the water owned by applicant as shown on Exhibit "B". This is necessary, especially for culinary use, high water, and extra water to increase the level of "Sub-water".

d. Describe any other water rights that you claim for the new ground upon which you wish to transfer this right. None

e. Indicate on the above plat the new land to be irrigated and the point of diversion.

I hereby assert that no one will be injured by such transfer and that the change will be made at my own risk. The information contained in this application is true to the best of my knowledge.
