CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 01.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.

Dear Mr. Ricks:

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to your Application No. 22-7286. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest.

If this office can be of further assistance, please contact us.

Very truly yours,

NOTICE OF CONFERENCE  
AND/OR HEARING

On October 5, 1978, R. Brent Ricks filed with the Idaho Department of Water Resources an application to appropriate the public waters of the State of Idaho. On October 30, 1978, the Department received a protest from Norman Hillam, Vice-Chairman of the Board of Directors of the Fremont-Madison Irrigation District in behalf of that organization.

The Department has set the matter of protests for conference and/or hearing for Friday, February 9, 1979, at 9:00 a.m., in the Old District Courtroom of the Madison County Courthouse, Rexburg, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or the protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 5<sup>th</sup> day of January, 1979.

Dear Mr. Ricks,

RE: Permit No. 22-7286

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note the special condition requiring you to install and maintain a totalizer measuring device at your point of diversion prior to submitting proof of beneficial use of water. We have enclosed a letter describing the different types of measuring devices accepted by this office.

Please be advised that there is insufficient natural flow available in the Snake River and tributaries to provide water for a new appropriation throughout the entire season of use.

During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your later-in-time permit. As the natural flow diminishes, however, there would be no water available for your right unless you had arranged for an additional source of water as a supplemental supply.

This information is provided so that you will not be misled into thinking that this permit will provide sufficient water through the entire season of use. If you have any questions regarding this matter, please feel free to contact this office.

Sincerely,

DAVID R. TUTHILL, JR.
Supervisor, Water Allocations Section

From Ernest.

Date 8/20/79.

Since our last correspondence Mr. Ricks. has amended permit 22-7247 to be a groundwater exchange on the Feton River for the diversion 5.60 cfs. The place of use on this amended permit is the same land covered under the application. This should provide adequate supplemental water.

I have also added the supplemental source condition to the conditions of approval.

NOTICE OF CONFERENCE
AND/OR HEARING

On October 5, 1978, R. Brent Ricks filed with the Idaho Department of Water Resources an application to appropriate the public waters of the State of Idaho. On October 30, 1978, the Department received a protest from Norman Hillam, Vice-Chairman of the Board of Directors of the Fremont-Madison Irrigation District in behalf of that organization.

The Department has set the matter of protests for conference and/or hearing for Friday, February 9, 1979, at 9:00 a.m., in the Old District Courtroom of the Madison County Courthouse, Rexburg, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or the protestants may allow the Department without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to your Application No. 22-7286. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest.

Dear Ernest:

RE: Applications for Permit 22-7286, 21-7101, and
22-7177

Our files show that R. Brent Ricks, permit No. 22-7286, has no Fremont-Madison storage water on the land as described in the application for water permit. Mr. Ricks has talked to me about transferring storage water to the described land but as yet has not made application to do so.

Our file on George Marotz, permit No. 21-7101, shows that he has 63 acre feet of storage water on land described as follows: N $\frac{1}{2}$ SE $\frac{1}{4}$; SE $\frac{1}{4}$ NE $\frac{1}{4}$; N $\frac{1}{2}$ NE $\frac{1}{4}$ S of Railroad; Section 22, Township 9, Range 43. This description is similar to the description shown on the application for water permit. The 63 acre feet is divided into 43 $\frac{1}{2}$ acre feet in the Marysville Canal and 19 $\frac{1}{2}$ acre feet in Independent Rights in the Henry's Fork.

As for the application for Stevco Inc., No. 22-7177, that we talked about earlier, there is no storage water attached to the land described in the application.

I hope this information will be of some value to you. If I can be of any further assistance please let me know and I'll be happy to help.

RE: Applications for Permit 22-7286 and 21-7101

We have in our files application for permit No. 21-7101 in the named of George Marotz requesting to appropriate 2.00 c.f.s. from Marotz Spring tributary to Henry's Fork, and application for permit No. 22-7286 in the name of R. Brent Ricks requesting to appropriate 6.00 c.f.s. from the Teton River. The Department is concerned that without supplemental storage water, there will not be adequate water to justify approving these applications.

Could you please supply us with a list of the storage rights these two individuals have for the lands indicated on the two enclosed applications. We appreciate your assistance in this matter.
