RE: Permit 22-7269

Dear Village of Newdale:

On 16 September, 1983 I conducted a field exam with Nathan Stevens for permit 22-7269. Mr. Stevens indicated that only one well supplied water to the city and that well was located behind the church within the village (SE1/4 SE1/4, Sec. 34). Therefore, that was the well that was examined for the permit even though the legal description placed the point of diversion two miles east of the village (SW1/4 SE1/4, Sec. 36, T. 7N, R. 41E). If there is another well that supplies water to Newdale then a new field examination should be conducted; however, if the above information is correct then the village should file another transfer on License 22-2217 to reflect the actual location of the well.

In either case, before the field exam report is forwarded to Boise for licensing I would like to have this information verified.

Please review the above information and respond to this letter within 30 days of the date of this letter.
