OF THE

STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 22-7257

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows:

"The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Pursuant to Sec. 63-401, Idaho Code, the board of county commissioners of Teton County meets as a Board of Equalization on the 2nd Monday of each month of the year from January up to the fourth Monday of June, for the purpose of hearing complaints upon valuations of property, and for the purpose of equalizing assessments of property on the real and personal property assessment rolls; and shall meet on the fourth Monday of June to complete the equalization of assessment of all real and personal property which has not yet been equalized. Upon meeting to complete the equalization of assessment, the board shall continue in session from day to day until assessment of such property has been completed, and shall also hear and determine complaints upon allowing or disallowing hardship exemptions under Sec. 63-105BB, Idaho Code. The board may "recess", but not officially adjourn, as a board of equalization until the second Monday of July, at which time it must have completed its business.

Pursuant to Sec. 63-1904, Idaho Code, the board of county commissioners of each county shall meet as a board of equalization on the fourth Monday of November of each year for the purpose of hearing complaints concerning the valuation of property placed on the subsequent assessment roll, for the purpose of equalizing the subsequent property assessment roll and for allowing or disallowing exemptions and rebates complained of under the provisions of this act affecting the assessment of property entered on the subsequent rolls and for the purpose of having settlement with the assessor and tax collector. The board may "recess", but not officially adjourn, as a board of equalization until the first Monday of December, at which time its business must have been completed.

Re: Measuring Device

Permit No. 22-7257

Gentlemen:

This is in response to Mr Tutthill's and Mr. Saxton's letters sent April 30, 1982 regarding changes in the measuring device condition of approval on this permit. Mr. Rudd has requested my assistance, as a professional engineer, in responding to this need for measurement of his diversion systems.

Mr. Rudd holds two permits for surface water rights on his property above Felt in Teton County; one for a holding pond

on Pole Creek, and one for irrigation pumping from Teepee Creek, and he was unsure at this time which of these is covered by permit no. 22-7257. In any case, neither of these permits is presently under active use for irrigation diversion. (from Teepee Cr. & Pole Cr.)

Pole Creek is an intermittent stream which arises on Mr. Budd's property and he has installed an in-line 10-foot earth fill dam, which serves only as a springtime stock water holding pond until the stream dries up in July or so. Since the bottom of the pond is far from impervious, the impounded water below spillway level is gone before it would be useful for irrigation.

An irrigation well, under another permit, has been developed in recent years which now serves as the source for the irrigation sprinkling system, making it unnecessary to pump irrigation water from Teepee Creek. It is, however, desired

to retain the system on Teepee Creek as an alternate source if problems should be encountered with the well. The well permit may also be subject to metering.

No systems are presently operating, since there is about 4 inches of snow on the property, so I can not do any flow measurements at this time. Accordingly, I have advised Mr. Rudd to install access ports in his pump mainlines from both the well and the Teepee Creek mobile pump.

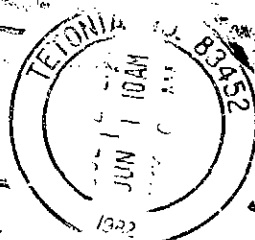

From your letters, no dates for metering are established, nor is any response time for installation of the access ports.

The access port pertaining to permit no 22-7257 will be installed by the end of June and will await metering at your convenience, unless Mr. Rudd or I are otherwise advised.

Sincerely,

Philip G. Ramsey

RE: Application for Permit No. 22-7257

Mr. G. Lynn Rudd
Rt. #2
St. Anthony, ID 83445

Dear Mr. Rudd:

Attached herewith is Departmental receipt No. 8385 and No. 8386 in the amount of \$55.00 and \$10.00 for the above referenced application.

Very truly yours,

RONALD D. CARLSON
Supervisor
Eastern Region

Mr. Carlson:

The S.C.S. men went over the farm with me yesterday, and their thinking is that one well on the high ground on the South side will take care of the land we want to sprinkle.

I thought you said the first permit was less than the second, so am sending two checks one \$10.00 one \$5.00.
Thank H. H. Reed
