ORDER AUTHORIZING  
TEMPORARY CHANGE TC-22-06

TETON PIPELINE ASSOC

WHEREAS, a drought emergency has been declared for Madison  
County to allow administrative actions to lessen the severe impacts of the drought  
conditions in the counties; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a  
drought emergency, the director of the Department of Water Resources ("Department")  
is authorized to allow temporary changes in the point of diversion, the place of use, and  
the purpose of use for valid existing water rights when the director determines that such  
changes can be accomplished in accordance with the provisions of section 42-222A,  
Idaho Code; and

WHEREAS, on 9/3/03, Teton Pipeline Assoc submitted the attached  
Temporary Change Application TC-22-06 to the Department; and

WHEREAS, the Department has reviewed the application and has determined  
the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is APPROVED subject to the  
following conditions:

- 22-7208, 22-7209, 22-7211, 22-7223, 22-7360  
22-7221, 22-7295, 22-7216, 22-7235,  
22-7375 & 22-7504
1. Diversion and use of right no(s). 22-7375 & 22-7504 is authorized only  
at the point of diversion and place of use described on the application.
  2. This temporary change approval does not authorize construction of a new  
well as a new point of diversion.
  3. The applicant assumes all risk of curtailment or mitigation should the  
diversion and use of water under the temporary change approval cause  
injury to other water rights, constitute an enlargement in use of the original  
right, be inconsistent with the conservation of water resources within the  
state of Idaho, or not be in the local public interest.
  4. This temporary change approval may only be used to provide a

*dy*

ORDER AUTHORIZING

replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

- 22-7208, 22-7209, 22-7211, 22-7224, 22-7295,  
22-7216, 22-7223, 22-7235, 22-7360, ~ 7860.4
5. Right(s) 22-7375, 22-7504 are limited to the irrigation of a total of ~ 7860.4 acres in a single irrigation season.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
10. The watermaster of Water District No. 01 is authorized to administer the temporary change approval.
11. This temporary change approval expires on 12/31/03 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

WATER RIGHT NO. 22-07223

CONDITIONS OF APPROVAL AND REMARKS

5. Use of water under this water right will be regulated by the watermaster of State Water District No. 01.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for irrigation of the lands above.
7. No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the redirection pumps and the exchange well will be allowed even if the exchange well is pumping water into the Teton River.
8. Totalizing measuring devices shall be maintained at the exchange well and redirection pumps from the Teton River.
9. The exchange well must inject water into the Teton River whenever water is being diverted from the river under this license, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection.
10. The power supply to the exchange well cannot be contracted under the power company's interruptable rules unless the power company agrees to notify the right holder at least 24 hours prior to the time the power service is terminated.
11. The rate of redirection from the Teton River shall not exceed the rate of injection into the Teton River from the exchange well.
12. Unperforated well casing shall be retained above the first confining layer to prevent interference with shallow wells and recharge to the river.
13. Water is redirected from the Clementsville (North 1 and 2) Project of the Teton Pipeline irrigation system.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code, Witness the seal and signature of the Director, affixed at Boise, this 16<sup>th</sup> day of SEPTEMBER, 1997.

RE: Teton Pipeline Assn. Inc. Water Rights

Roger Hoopes  
PO Box 70  
Rexburg, ID 83440-0070

Dear Roger:

I've had a chance to collect the information we talked about in our meeting last week. I guess the best place to start is with the easiest of explanations.

I've enclosed copies of the original permits and the aerial photos submitted by the field examiner for those permits which are ready to be licensed without amendments. I've also enclosed profile reports which show the parameters of the proposed licenses. In most cases, there is a reduction in acres as we discussed. Keep in mind that the proposed license for Permit 22-07120 may be amended to reflect the acres irrigated up to the highway - I will discuss that later in my letter.

I've enclosed the amendment for Permit 22-07295, which was overlooked previously. This amendment along with those for Permit Nos. 22-07116/07121/071257/07209/07375 need to be signed and returned to me at your earliest convenience.

The amendment for Permit No. 22-07208 falls into the same category as the proposed license for 22-07120 mentioned above. It appears that there is an elevation change from the rest of the lands shown by the examiner as irrigated. I ask that you provide a written statement as to how these additional acres are irrigated. Your statement can be used to document the files as to why additional acres are proposed for licensing from what the examiner recommended. I would estimate the additional acres to be about 19.

Next, you disagreed with the amendment for Permit No. 22-07180; specifically, the amendment shows irrigation of only the SENE and NESE of Section 16 and you stated that most of the entire section is irrigated under this right. I have examined a Landsat photo from July of 1988 and could verify irrigation in the W $\frac{1}{2}$ SW $\frac{1}{4}$ , E $\frac{1}{2}$ NW $\frac{1}{4}$ , SENE and N $\frac{1}{2}$ SE $\frac{1}{4}$ . It is possible for us to include acres in these  $\frac{1}{4}$ 's based upon the Landsat evidence, however, you should be aware

MICROFILMED

OCT 21 1997

Roger Hoopes  
January 19, 1995  
Page 2

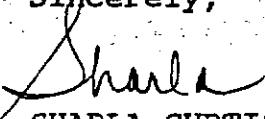

that the previous amendment included 478 acres and the permit originally allowed 640. Therefore, only a maximum of 168 acres can be added. I will wait to hear from you as to your agreement before I prepare another "amended" amendment.

We also talked about the rights originally in the name of J. Clint Hoopes. You stated that the reduction of acres on those rights was caused by the transferring of water to other acres which was never documented. I have discussed this matter with Jim also and I'm glad to say that the door isn't totally closed in this matter. If you can provide evidence that other lands were irrigated under these rights prior to the time proof of beneficial use was submitted, consideration will be given to allowing the addition of those acres. In addition to this evidence, you need to provide documentation as to why the place of use was moved, where the new acres are located and how many acres, as well as provide a system diagram to show how this "amended" place of use relates to these permits. I believe the permit numbers in question are 22-07208, 22-07121 and possibly 22-07375.

Finally, in regards to the new point of diversion we talked about being used for irrigation of lands within your system, the time to reflect the addition of this point of diversion is on the currently pending transfer you have before the department. After this batch of permits are licensed, you will no doubt want to take another complete look at the transfer and make whatever adjustments are necessary with the new licenses in mind and this would be the best opportunity to pick up the other point of diversion.

Well, I think that about wraps it up. We are making progress, really!! After you've had a chance to review all of this, give me a call or drop me a line if I can be of further assistance.

Sincerely,

Re: TETON PIPELINE ASSOCIATION, Inc. Water Rights

Dear Ms. Curtis:

The purpose of this letter is to confirm our telephone conversation earlier this morning. From that telephone conversation I understand that:

1. Your office will extend the deadline until December 15, 1994 to return the Amendments which you sent by cover letter dated November 17, 1994; and
2. That you will be sending me copies of the field examiner's reports for all the Water Rights referred to in your November 17, 1994 letter.

If my understanding is incorrect in any respect, please let me know.

There are a couple of other matters that I would like clarified. Your letter of November 17, 1994 makes reference to twenty one (21) different permits. Our records show that two (2) of these Water Rights (22-07100 & 22-07122) are licenses. Should these even have been made reference to in your letter? You sent us fourteen (14) amendments and one (1) abandonment. If my arithmetic is correct (21 minus 2 minus 14 minus 1) there are four permits that are not dealt with. May we assume that these will go to license without any changes, modifications, or amendments? Please let me know.

RE: Teton Pipeline Assn. Inc. Water Rights

Teton Pipeline Assn. Inc.  
PO Box 272  
Tetonia, ID 83452

Gentlemen:

The following rights have recently been assigned to Teton Pipeline Assn. Inc. and the department's computer records have been modified to reflect this change of ownership:

Application for Permit Nos. 22-07504/07505/07667/07673  
Permit Nos. 22-07108/07111/07116/07119/07120/07121/07122/  
07148/07157/07180/07186/07208/07209/07211/  
07216/07221/07223/07235/07295/07360/07375

The Department is ready to finalize license issuance for a number of the above mentioned rights. Before licenses can be issued on the majority of the permits, the permits must be amended to correspond with the findings of the Department's field examiner.

The enclosed Applications for Amendment contain information that will be included on the licenses when they are issued. The amendments reflect changes in the locations of the place of use descriptions. Please review carefully and if you concur, sign the amendments and return with the filing fees within 14 days (\$50.00 for each amendment). A \$20.00 amendment fee was previously paid for Permit No. 22-07180; this fee can be credited to the amendment fees now sought.

Also enclosed is a relinquishment form for Permit No. 22-07221. Permit Nos. 22-07211 and 22-07295 supply the maximum volume for the acres covered under the three permits, therefore, no additional beneficial use was found under Permit No. 22-07221. In order for us to clear our records of this right, we ask that you sign the relinquishment form and return it with the amendments for the other permits.

**RE: Assignment Fees**

The assignments of numerous "Teton Pipeline" rights were received after July 1, 1994 when fees became required for assignments. These assignments, however, had been solicited by the department prior to July and it was decided that no fees would be charged for the assignments to Teton Pipeline Assoc., Inc.

Correspondence concerning these assignment forms can be found in Right 22-07122.

Dear Mr. Hoopes:

Well, are you ready for the next round? Some time has passed since we last discussed the rights we are trying to license in the name of Teton Pipeline Assn. Inc.

You will recall that one of the last things we had discussed was the reduction under several of the permits of some acres originally owned by J. Clint Hoopes. The reduction was caused by the transferring of water to other acres but this had never been documented with the department. When you, Jack and I had spoke, you both indicated that you would sign off on the reduced amendments if the two applications for permit which had been filed to cover these lands would be approved. Believe it or not, enclosed are the approved permits.

With this new development, I would like to arrange a meeting with you to finalize the licensing process for the remaining permits. Amendment fees still need to be paid, several of the amendments need to be signed, etc. We could hopefully wrap this up so that the licenses can be forwarded for signature. Please give me a call (208)327-7945 at your earliest convenience so we can schedule such a meeting. I look forward to hearing from you.

Sincerely,

SHARLA CURTIS

RE: TETON PIPELINE REVIEW

DATE: 17-JUL-1989

=====

This is the seventeenth in a series of files that I am reviewing prior to licensing. All of the files have become collectively known as the "Teton Pipeline".

This right should be licensed without condition because the capacities have not been exceeded by prior rights.

The field examiner has recommended a complex "splitting" of these rights to indicate ownership of the diversion and redirection works. This is not consistent with previous actions by the Department and I recommend that this idea be rejected.

## WATER RIGHT LICENSE

License of Water Right No. 22-7223 Priority \_\_\_\_\_ Amount 6.68 cfsTHIS IS TO CERTIFY, that Danell and

of 136, S. 1st. West, Rexburg, Id., has complied with the terms and conditions of Permit No. 22-7223 issued pursuant to Application for Permit dated \_\_\_\_\_, and has submitted proof to the Department of Water Resources on \_\_\_\_\_, that he has applied water to a beneficial use; an examination by the Department indicates that the works have a capacity for the diversion of 11.46 cfs of water from a ground water source, tributary to \_\_\_\_\_, and that the permit holder has applied to a beneficial use and established a right to use water as follows:

| Beneficial Use    | Period of Use                  | Rate of Diversion      | Annual Volume       |
|-------------------|--------------------------------|------------------------|---------------------|
| <u>Irrigation</u> | from <u>April 15 to Oct 15</u> | at <u>6.68</u> cfs and | <u>2160 AF/Ann.</u> |

Mr. Darrell Ard  
Star Route  
Newdale, Idaho 83436

Dear Mr. Ard:

We acknowledge receipt of the proof of beneficial use card submitted for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our eastern regional office.

Very truly yours,

COLLEEN WRAY  
Sr. Secretary

Darrell Ard  
136 S. 1st West  
Rexburg, ID 83440

Dear Mr. Ard:

Enclosed is a copy of your approved Application for Permit No. 22-7223. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR  
Chief, Water Rights
