TEMPORARY CHANGE TC-22-06

WHEREAS, a drought emergency has been declared for Madison
County to allow administrative actions to lessen the severe impacts of the drought
conditions in the counties; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a
drought emergency, the director of the Department of Water Resources ("Department")
is authorized to allow temporary changes in the point of diversion, the place of use, and
the purpose of use for valid existing water rights when the director determines that such
changes can be accomplished in accordance with the provisions of section 42-222A,
Idaho Code; and

WHEREAS, on 9/3/03, Teton Pipeline Assoc submitted the attached
Temporary Change Application TC-22-06 to the Department; and

WHEREAS, the Department has reviewed the application and has determined
the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is APPROVED subject to the
following conditions:

- 22-7208, 22-7209, 22-7211, 22-7223, 22-7360
22-7221, 22-7295, 22-7216, 22-7235,
22-7375, 22-7504
1. Diversion and use of right no(s). 22-7375 ; 22-7504 is authorized only
at the point of diversion and place of use described on the application.
 2. This temporary change approval does not authorize construction of a new
well as a new point of diversion.
 3. The applicant assumes all risk of curtailment or mitigation should the
diversion and use of water under the temporary change approval cause
injury to other water rights, constitute an enlargement in use of the original
right, be inconsistent with the conservation of water resources within the
state of Idaho, or not be in the local public interest.
 4. This temporary change approval may only be used to provide a

replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

- 22-7208, 22-7209, 22-7211, 22-7214, 22-7295,
22-7216, 22-7223, 22-7235, 22-7360, ~ 7860.4
5. Right(s) 22-7375, 22-7504 are limited to the irrigation of a total of ~ 7860.4 acres in a single irrigation season.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
10. The watermaster of Water District No. 01 is authorized to administer the temporary change approval.
11. This temporary change approval expires on 12/31/03 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

Conditions of Approval:

1. Use of water under this water right will be regulated by the watermaster of State Water District No. & DISTRICT.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
3. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
4. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval.
5. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Remarks:

1. General No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the rediversion pumps and the exchange well will be allowed even if the exchange well is pumping water into the Teton River. Totalizing measuring devices shall be maintained at the exchange well and rediversion pumps from the Teton River. The exchange well must inject water into the Teton River whenever water is being diverted from the river under this license, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection. The power supply to the exchange well cannot be contracted under the power company's interruptable rules unless the power company agrees to notify the right holder at least 24 hours prior to the time the power service is terminated. The rate of rediversion from the Teton River shall not exceed the rate of injection into the Teton River from the exchange well. Unperforated well casing shall be retained above the first confining layer to prevent interference with shallow wells and recharge to the river. Water is rediverted from the South Pipe and Clementsville (North 1 and 2) Projects of the Teton Pipeline Irrigation system.

Total Acres: 2089

Conditions of Approval:

1. Use of water under this water right will be regulated by the watermaster of State Water District No. & DISTRICT.
2. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for irrigation of the lands above.

Remarks:

1. General No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the rediversion pumps and the exchange well will be allowed even if the exchange well is pumping water into the Teton River. Totalizing measuring devices shall be maintained at the exchange well and rediversion pumps from the Teton River. The exchange well must inject water into the Teton River whenever water is being diverted from the river under this license, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection. The power supply to the exchange well cannot be contracted under the power company's interruptable rules unless the power company agrees to notify the right holder at least 24 hours prior to the time the power service is terminated. The rate of rediversion from the Teton River shall not exceed the rate of injection into the Teton River from the exchange well. Unperforated well casing shall be retained above the first confining layer to prevent interference with shallow wells and recharge to the river. Water is rediverted from the Central Project of the Teton Pipeline irrigation system for irrigation of lands in Sections 3, 4, 9 and 10; water is rediverted from the South Pipe Project of the Teton Pipeline system for irrigation of the remaining lands listed above.

ORDER AUTHORIZING
 TEMPORARY CHANGE
TC-22-02

WHEREAS, a drought emergency has been declared for Fremont & Teton County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources (A Department) is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights or temporary exchanges of water, as provided in section 42-240, Idaho Code, when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, on 8-16-01 the Applicant submitted the attached Temporary Change Application ("application") to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions; and

WHEREAS, The applicant assumes all risk and is the responsible party if diversion and use of water under the temporary change approval causes injury to other water rights or constitutes an enlargement in use of the original right;

ORDER

IT IS HEREBY ORDERED that the application is APPROVED subject to the following conditions:

1. Diversion and use of right no(s). 22-7616 et al is authorized only at the point of diversion and place of use described on the application or as otherwise approved in this order.
2. This temporary change approval does not authorize construction of a new well as a new point of diversion.
3. This temporary change approval may only be used to provide a

replacement water supply to lands or other uses that normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

4. Right(s) 22-7216 et al are limited to the irrigation of a total of acres ^{lands of Fremont Madison} _{Irrig.} in a single irrigation season.
5. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
6. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
7. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
8. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval. (If this condition or a similar one is used, describe the required frequency of measurement and when and where to report the amount of measured water).
9. The watermaster of Water District No. 01 is authorized to administer the temporary change approval.
10. This temporary change approval expires on 11-01-01 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.

	)	PROPOSED MEMORANDUM
OF APPLICATION FOR AMENDMENT OF PERMIT NO.	)	
	)	DECISION AND ORDER
22-7216 IN THE NAME OF HINK, INC.	)	

On March 4, 1977, Edmond S. Parkinson filed an application and on April 28, 1977 was issued a permit by the Director of the Department of Water Resources to appropriate 4.00 cubic feet per second of groundwater from a well located in the NW1/4SE1/4, Sec. 15, Twp. 7N, Rge. 41E, B.M. Fremont County. Water from this well would be discharged into the Teton River in exchange for water diverted from the Teton River at a point within the NW1/4SE1/4, Sec. 3, Twp. 6N, Rge. 44E, B.M. Teton County.

On April 23, 1981, Edmond S. Parkinson assigned all of his right, title, and interest in Permit 22-7216 to Hink, Inc.

On May 20, 1981, Hink, Inc. applied to the Department of Water Resources to amend permit No. 22-7216 to change the point of diversion from the NW1/4SE1/4, Sec. 15, Twp. 7N, Rge. 41E, B.M., Fremont County, to the SW1/4SW1/4, Sec. 15, Twp. 6N, Rge. 40E, B.M., Madison County. Groundwater from this well would be discharged into the Teton River in exchange for water diverted from the Teton River in the NW1/4SE1/4, Sec. 3, Twp. 6N, Rge. 44E. There is no change proposed in the place of use.

Notice of this application was published in the Rexburg Journal on June 4 and 11, 1981, and in the Teton Valley News on July 9 and 16, 1981. A protest was subsequently received on June 19, 1981, from the Wilford Canal Company signed by J.T. Beech, Fred Trupp, Errol Johnson, Frank Ives, and Alfred Klein. On June 22, 1981, additional protests were received from the Woodmansee-Johnson Canal Company and signed by Dell Palmer, Brent Barrus, Royle S. Thomson, Garry Parkinson, and O. Russell Wilding; and from Fremont Madison Irrigation District.

In accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources, a hearing in the matter was conducted on August 5, 1981 in the Madison County Courthouse, Rexburg, Idaho.

protestant. The remaining protestants, Wilford Canal Company and Woodmansee-Johnson Canal Company were represented by J. T. Beech and Russell Wilding, respectively.

Based upon testimony obtained at the hearing and the hearing examiner's understanding of the law, the following Findings of Fact, Conclusions of Law, and Order are hereby proposed.

REVIEW OF EVIDENCE

Exhibits Submitted at Hearing:

Applicant's Exhibit #1: Well Driller's Report for well in SW1/4SW1/4, Sec. 16, Twp. 6N, Rge. 40E, B.M.

Department Records Considered:

1. Permit No. 22-7216 with a priority of March 4, 1977 in the name of Edmond S. Parkinson.
2. Assignment of permit No. 22-7216 to Hink Inc. received April 28, 1981.
3. Application for amendment of permit No. 22-7216 receipted May 20, 1981.
4. Affidavit of publication from the Teton Valley News for notice of proposed amending of water right received June 22, 1981.
5. Affidavit of publication from the Rexburg Journal for notice of proposed amending of water right received July 6, 1981.
6. Letter of protest from the Directors of Wilford Canal Company dated June 18, 1981.
7. Letters of protest from Woodmansee-Johnson Canal Company and Fremont Madison Irrigation District dated June 22, 1981.
8. Notice of combined hearing and/or conference date July 21, 1981.
9. The sixth Judicial District Court of the State of Idaho decree entitled: Rexburg Irrigation Company, et al, vs. Teton Irrigation Canal Company, et al.

FINDINGS OF FACT

1. The exchange well would inject water into the Teton River above the Rexburg Canal and below the majority of canals on the Teton River.

2. The water rights of the Rexburg Canal are larger than the combined total output of all the exchange wells.

3. Most attempted exchange wells above Hog Hollow which would be above the majority of the canals have been unsuccessful.

4. Well logs from existing wells in the location where applicant proposes to drill the well indicate that water will be encountered in sand formations between 60 and 200 feet below ground surface.

5. Irrigators have, for short periods of time, had difficulty in the past getting enough water through the Crosscut Canal to meet their storage requirements and make up for existing exchanges.

6. Exchange pumps cannot assure replacement of water during a power outage on Utah Power and Light grid or when pumps are under Utah Power and Light Company's interruptable rules.

7. Exchange pumps improperly located or constructed can interfere with flows in the Teton River.

CONCLUSIONS OF LAW

1. Exchange wells do increase the administrative requirements and costs on the Teton River but there appears to normally be water available through the Crosscut and natural flow in the Teton to sustain existing exchanges without adversely affecting prior water rights.

2. There are no data to indicate groundwater or surface water supplies are being adversely affected by present exchange pumping.

3. There is no evidence to justify the department requiring this well be located above the Wilford Canal even though the administrative problems would be less and the potential interference with Teton canals would be reduced.

4. To avoid injury to other water rights the exchange wells must inject water into the river whenever water is being diverted from the river under this permit and the injection must continue after the diversion from the river ceases until the water not diverted reaches the point of injection.

5. The applicant is entitled to a permit from the Idaho Department of Water Resources with certain limitations and conditions.

ORDER

IT IS, THEREFORE, HEREBY ORDERED and Application for Permit No. 22-7216 be and is APPROVED subject to the following conditions:

1. Subject to all prior water rights.

UNRECORDED

2. No demand on upstream prior rights or existing exchanges can be made and no interference with prior rights located between the diversion pump and the exchange well will be allowed even if the exchange well is pumping water into the Teton River.

3. Proof of construction of works and application of water to beneficial use shall be submitted on or before date indicated on the Final Decision and Order.

4. Any well drilled under this permit shall be constructed with unperforated solid casing extending to a depth of 150 feet.

5. The well casing shall be sealed to the required unperforated depth. The seal shall be installed according to sections 3.3.1 and 3.3.2 of the Well Construction Standards of the Department of Water Resources dated February 1981. The well driller shall be required by the applicant to submit to the Department at least five days prior to the drilling of the well his plan for sealing the well casing.

6. A measuring device and lockable controlling works of a type acceptable to the Department shall be installed and maintained as part of the diverting works at both the exchange well and the diversion pumps from the Teton River.

7. Use of water under this permit is subject to the control by the watermaster of State Water District 01, Snake River.

8. The exchange wells must inject water into the river whenever water is being diverted from the river under this permit and the injection must continue after the diversion from the river ceases until the water not diverted reaches the point of injection.

9. The power supply to the exchange well cannot be contracted under the power company's interruptible rules unless the power company agrees to notify the applicant at least 24 hours prior to the time the power service is terminated.

Dated this 10 day of May, 1982.

MEMORANDUM

BEFORE THE DIRECTOR OF THE DEPARTMENT
OF WATER RESOURCES OF THE
STATE OF IDAHO

IN THE MATTER OF PROTESTS AGAINST APPROVAL)
OF APPLICATION FOR AMENDMENT OF PERMIT NO.)
22-7216 IN THE NAME OF HINK, IHC.) ORDER ISSUING
_____) PROPOSED DECISION

A. Kenneth Dunn, Director of the Department of Water Resources, having reviewed the attached proposed decision prepared by his appointee, Bobby D. Fleenor, who conducted the hearing or who has read the record in this case, hereby approves the same as a proposal for decision pursuant to Idaho Code, § 67-5211 and orders that said proposed decision and a copy of this order be served upon each of the parties to these proceedings who appeared at the hearing on August 5, 1981, of this matter or upon their attorneys in accordance with Rule 7.3 of the Rules of Practice and Procedure of this Department.

Each party to these proceedings who appeared at the hearing is hereby afforded the opportunity, pursuant to Idaho Code §§ 42-1701A and 67-5211, to file exceptions to the attached proposed decision and to present briefs and oral arguments in accordance with the provisions of this order. Exceptions may not be filed and briefs and oral arguments may not be presented by parties who did not appear at the hearing of this case. If no timely and proper exceptions are received, an order by the Director will be entered adopting and issuing the proposed decision as his final decision.

I.
EXCEPTIONS

A. To be considered by the Director, exceptions must:

1. be received by the Director on or before the 15th day following the day of service of this Order and the proposed decision, and
2. specifically identify the portions of the proposed decision to which exceptions are made and specifically state the grounds for those exceptions.

B. Exceptions not in compliance with the above stated requirements will not be considered and will be deemed an acceptance of the proposed decision.

II.
BRIEFS

A. Any briefs in support of exceptions to the proposed decision shall be filed with the Director at the same time that party's exceptions are filed with the Director.

B. Any party desiring to file a brief in response to any exceptions filed by any other party may do so by filing such brief with the Director on or before the 15th day following the last day any exceptions by any other party were served upon that party desiring to respond.

MICROFILMED

III.
ORAL ARGUMENTS

A. No oral arguments before the Director on the proposed decision will be held unless specifically requested by a party filing exceptions to the proposed decision and unless that request is filed with the Director concurrently with the filing of that party's exceptions.

B. If oral arguments have been properly requested by a party filing exceptions, any other party, upon reasonable notice to the Director, shall have the right to present oral arguments in response to the exceptions filed.

C. Oral arguments before the Director on exceptions to the proposal for decision shall be heard at the discretion of the Director, pursuant to Idaho Code § 42-1701A. After all exceptions, briefs and requests for oral arguments have been received, the Director will decide whether to hear oral arguments. If oral arguments are to be heard, the Director will, within a reasonable time, set the case for oral arguments and notify each party of the place, date and hour the oral arguments will take place and of the period of time allocated for the arguments of this case. Unless the Director orders otherwise, all oral arguments shall be heard in Boise, Idaho.

IV.
CERTIFICATION OF SERVICE

A. All exceptions, briefs, requests for oral arguments and other matters filed with the Director in connection with the proposed decision shall be served on all other parties to these proceedings in accordance with Rule 7.2.

V.
FINAL DECISION

A. Following the submission of all exceptions and briefs and oral arguments, if they are heard, the Director shall issue a final decision adopting, modifying or rejecting and replacing the proposed decision. Copies of the decision and order shall be served on all parties.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 22-7216, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 1982.

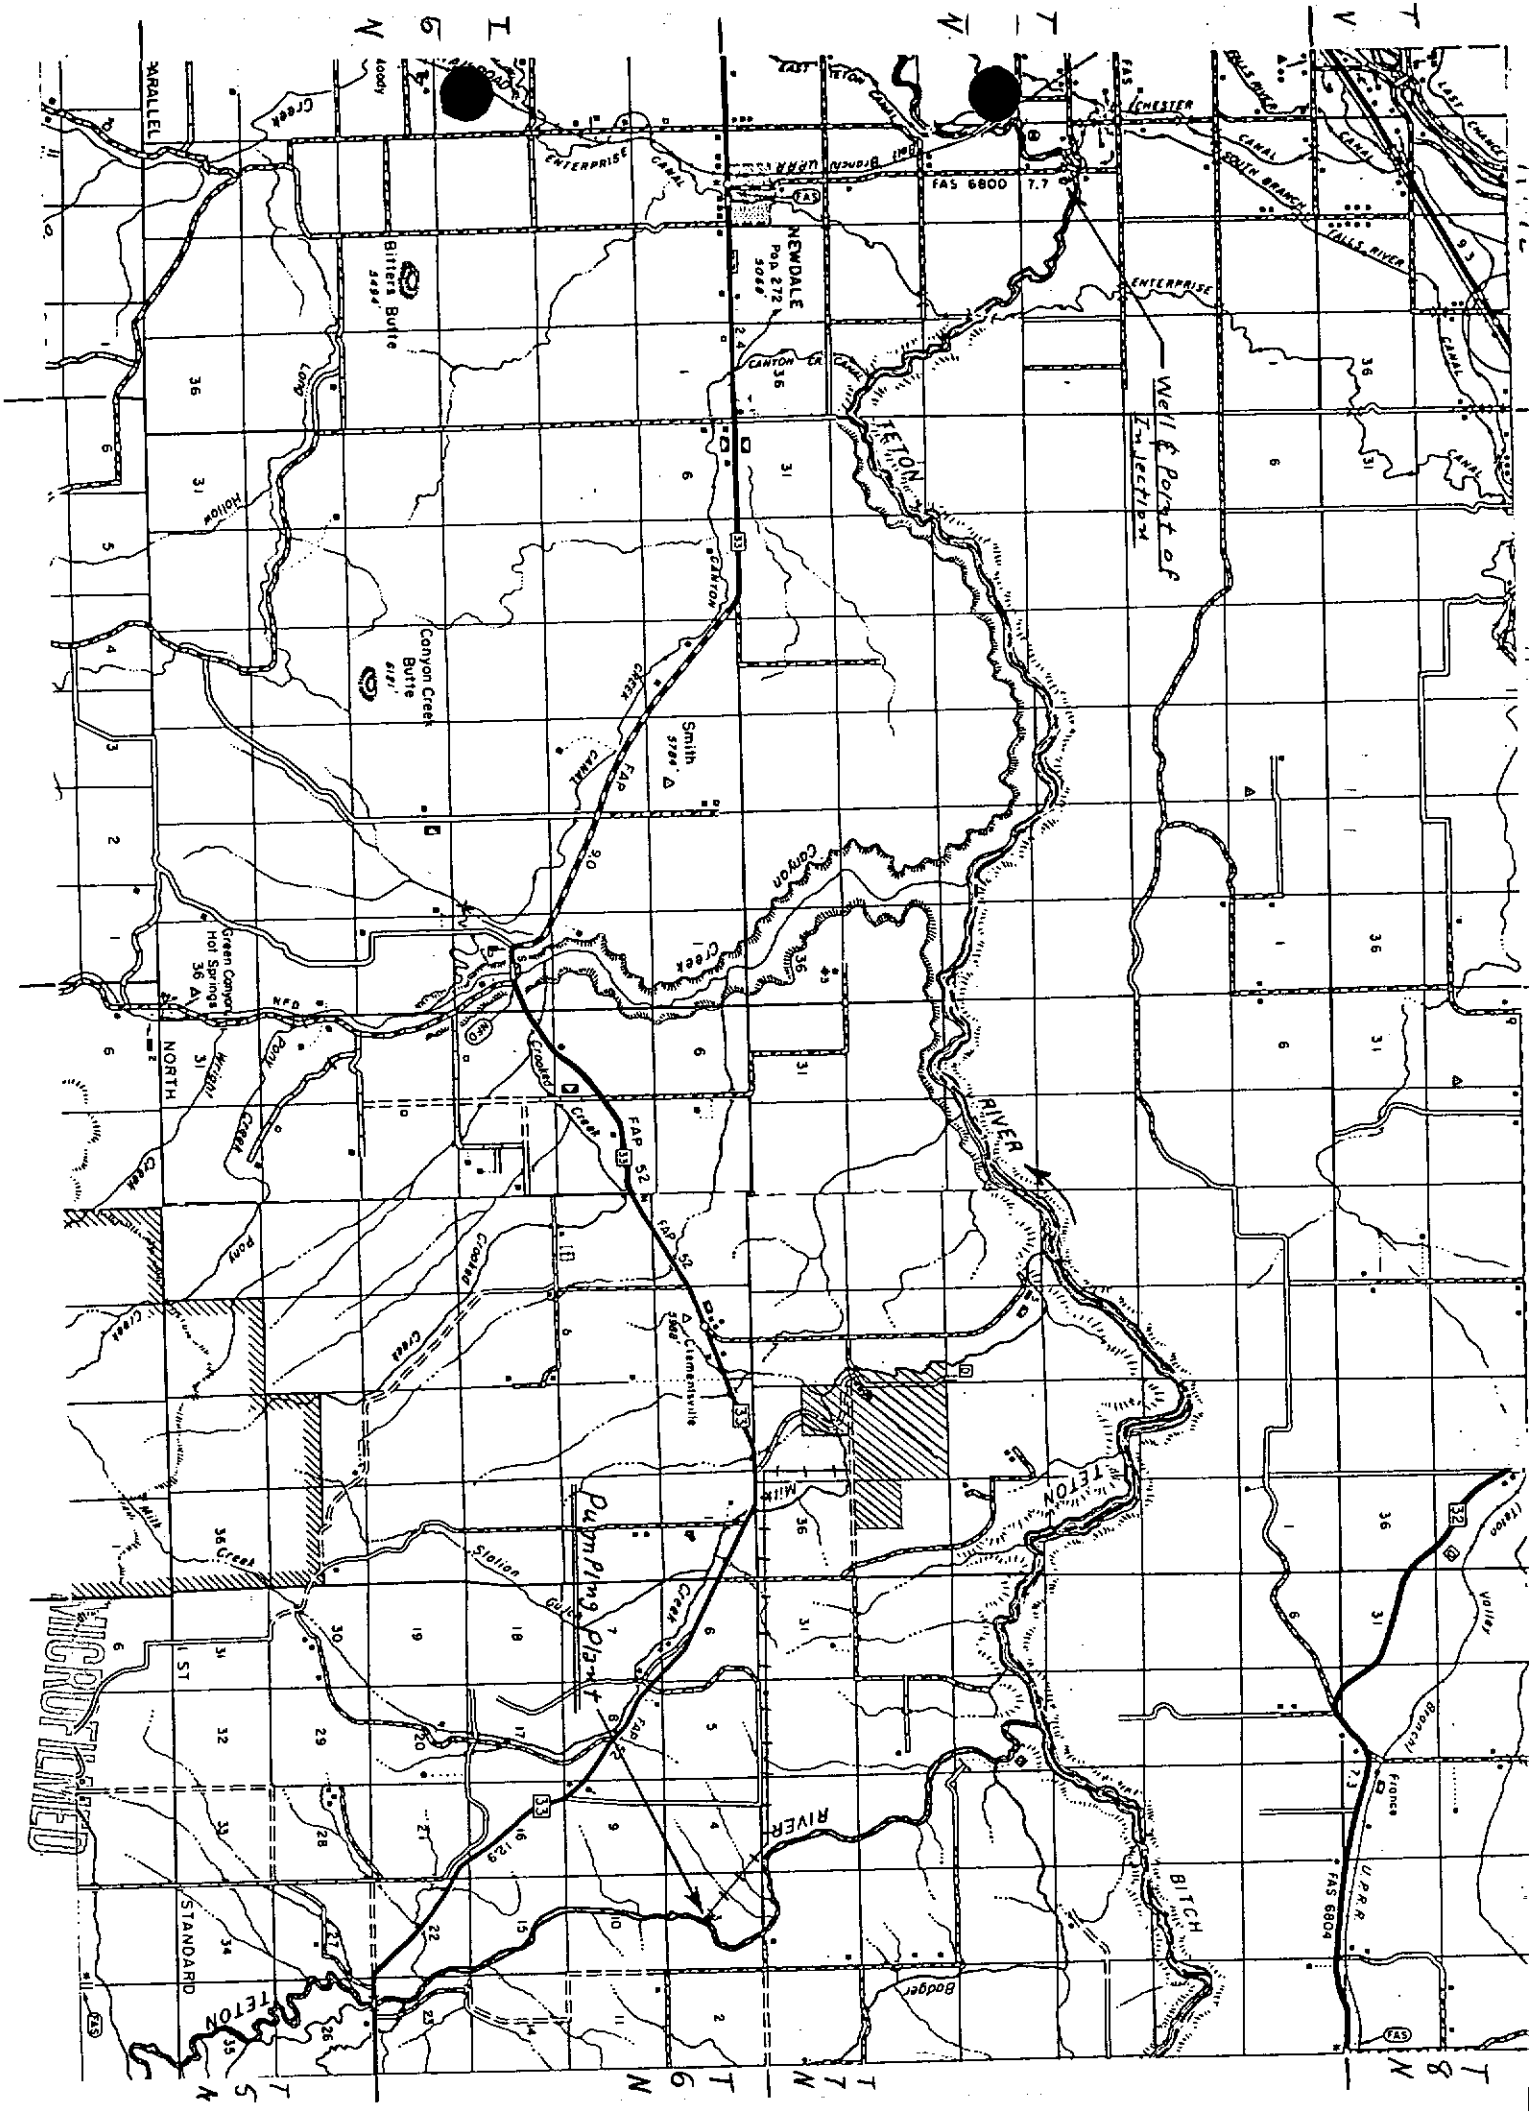

c. Other: A measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works.

Use of water under this permit is subject to control by the watermaster of Water District 01, Snake River.

The issuance of this permit in no way grants any right-of-way or easement across the lands of another person.

Witness my hand this 28 day of April, 1977.

RE: Teton Pipeline Assn. Inc. Water Rights

Roger Hoopes
PO Box 70
Rexburg, ID 83440-0070

Dear Roger:

I've had a chance to collect the information we talked about in our meeting last week. I guess the best place to start is with the easiest of explanations.

I've enclosed copies of the original permits and the aerial photos submitted by the field examiner for those permits which are ready to be licensed without amendments. I've also enclosed profile reports which show the parameters of the proposed licenses. In most cases, there is a reduction in acres as we discussed. Keep in mind that the proposed license for Permit 22-07120 may be amended to reflect the acres irrigated up to the highway - I will discuss that later in my letter.

I've enclosed the amendment for Permit 22-07295, which was overlooked previously. This amendment along with those for Permit Nos. 22-07116/07121/071257/07209/07375 need to be signed and returned to me at your earliest convenience.

The amendment for Permit No. 22-07208 falls into the same category as the proposed license for 22-07120 mentioned above. It appears that there is an elevation change from the rest of the lands shown by the examiner as irrigated. I ask that you provide a written statement as to how these additional acres are irrigated. Your statement can be used to document the files as to why additional acres are proposed for licensing from what the examiner recommended. I would estimate the additional acres to be about 19.

Next, you disagreed with the amendment for Permit No. 22-07180; specifically, the amendment shows irrigation of only the SENE and NESE of Section 16 and you stated that most of the entire section is irrigated under this right. I have examined a Landsat photo from July of 1988 and could verify irrigation in the W $\frac{1}{2}$ SW $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SENE and N $\frac{1}{2}$ SE $\frac{1}{4}$. It is possible for us to include acres in these $\frac{1}{4}$'s based upon the Landsat evidence, however, you should be aware

OCT 21 1997

Roger Hoopes
January 19, 1995
Page 2

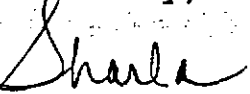

that the previous amendment included 478 acres and the permit originally allowed 640. Therefore, only a maximum of 168 acres can be added. I will wait to hear from you as to your agreement before I prepare another "amended" amendment.

We also talked about the rights originally in the name of J. Clint Hoopes. You stated that the reduction of acres on those rights was caused by the transferring of water to other acres which was never documented. I have discussed this matter with Jim also and I'm glad to say that the door isn't totally closed in this matter. If you can provide evidence that other lands were irrigated under these rights prior to the time proof of beneficial use was submitted, consideration will be given to allowing the addition of those acres. In addition to this evidence, you need to provide documentation as to why the place of use was moved, where the new acres are located and how many acres, as well as provide a system diagram to show how this "amended" place of use relates to these permits. I believe the permit numbers in question are 22-07208, 22-07121 and possibly 22-07375.

Finally, in regards to the new point of diversion we talked about being used for irrigation of lands within your system, the time to reflect the addition of this point of diversion is on the currently pending transfer you have before the department. After this batch of permits are licensed, you will no doubt want to take another complete look at the transfer and make whatever adjustments are necessary with the new licenses in mind and this would be the best opportunity to pick up the other point of diversion.

Well, I think that about wraps it up. We are making progress, really!! After you've had a chance to review all of this, give me a call or drop me a line if I can be of further assistance.

Sincerely,

SHARLA CURTIS

Re: TETON PIPELINE ASSOCIATION, Inc. Water Rights

Dear Ms. Curtis:

The purpose of this letter is to confirm our telephone conversation earlier this morning. From that telephone conversation I understand that:

1. Your office will extend the deadline until December 15, 1994 to return the Amendments which you sent by cover letter dated November 17, 1994; and
2. That you will be sending me copies of the field examiner's reports for all the Water Rights referred to in your November 17, 1994 letter.

If my understanding is incorrect in any respect, please let me know.

There are a couple of other matters that I would like clarified. Your letter of November 17, 1994 makes reference to twenty one (21) different permits. Our records show that two (2) of these Water Rights (22-07100 & 22-07122) are licenses. Should these even have been made reference to in your letter? You sent us fourteen (14) amendments and one (1) abandonment. If my arithmetic is correct (21 minus 2 minus 14 minus 1) there are four permits that are not dealt with. May we assume that these will go to license without any changes, modifications, or amendments? Please let me know.

RE: Teton Pipeline Assn. Inc. Water Rights

Teton Pipeline Assn. Inc.
PO Box 272
Tetonia, ID 83452

Gentlemen:

The following rights have recently been assigned to Teton Pipeline Assn. Inc. and the department's computer records have been modified to reflect this change of ownership:

Application for Permit Nos. 22-07504/07505/07667/07673
Permit Nos. 22-07108/07111/07116/07119/07120/07121/07122/
07148/07157/07180/07186/07208/07209/07211/
07216/07221/07223/07235/07295/07360/07375

The Department is ready to finalize license issuance for a number of the above mentioned rights. Before licenses can be issued on the majority of the permits, the permits must be amended to correspond with the findings of the Department's field examiner.

The enclosed Applications for Amendment contain information that will be included on the licenses when they are issued. The amendments reflect changes in the locations of the place of use descriptions. Please review carefully and if you concur, sign the amendments and return with the filing fees within 14 days (\$50.00 for each amendment). A \$20.00 amendment fee was previously paid for Permit No. 22-07180; this fee can be credited to the amendment fees now sought.

Also enclosed is a relinquishment form for Permit No. 22-07221. Permit Nos. 22-07211 and 22-07295 supply the maximum volume for the acres covered under the three permits, therefore, no additional beneficial use was found under Permit No. 22-07221. In order for us to clear our records of this right, we ask that you sign the relinquishment form and return it with the amendments for the other permits.

Dear Mr. Hoopes:

Well, are you ready for the next round? Some time has passed since we last discussed the rights we are trying to license in the name of Teton Pipeline Assn. Inc.

You will recall that one of the last things we had discussed was the reduction under several of the permits of some acres originally owned by J. Clint Hoopes. The reduction was caused by the transferring of water to other acres but this had never been documented with the department. When you, Jack and I had spoke, you both indicated that you would sign off on the reduced amendments if the two applications for permit which had been filed to cover these lands would be approved. Believe it or not, enclosed are the approved permits.

With this new development, I would like to arrange a meeting with you to finalize the licensing process for the remaining permits. Amendment fees still need to be paid, several of the amendments need to be signed, etc. We could hopefully wrap this up so that the licenses can be forwarded for signature. Please give me a call (208)327-7945 at your earliest convenience so we can schedule such a meeting. I look forward to hearing from you.

Dear Mr. Johnson:

Teton Pipeline Association, Inc., has received your letter of August 09, 1994 addressed to J. C. Hoopes concerning the above referenced matter. Jack and I have been working on the matters addressed in your letter, and we believe we have everything taken care of.

Let me address those problems you referred to in your letter permit number by permit number. We have taken the following action:

Permit Numbers 22-07235 and 22-07116: Rex Ard is deceased and Larry Ard is a widower. Thus only Larry Ard needs to sign the assignment. Enclosed please find a fully executed assignment, assigning these two permits to Teton Pipeline Association, Inc.

the application stage through no fault of the applicant.

We are in hopes that these enclosures will complete the filing necessary to have these rights assigned to Teton Pipeline Association, Inc. Your detailed review and your help and assistance in working through this complicated transfer is greatly appreciated by all of the shareholders in Teton Pipeline Association, Inc. If you have any further questions or if you need any additional information, please do not hesitate to call or write. We will respond as quickly as possible.

In this particular area of the state we are now between grain harvest and potato harvest. As soon as the potato harvest is complete either Jack or myself, or both of us will stop by to discuss these transfers with you. As I am sure you are, we are anxious to have this matter completed.

Thank you very much.

Sincerely yours;

RE: Assignment of Water Rights

J.C. Hoopes
Box 98
Tetonia, ID 83452

Dear Mr. Hoopes:

In follow-up to our meeting, the assignments of the Teton Pipeline rights have been reviewed for acceptance and updating of our computer records. It appears that the majority of the assignments are acceptable. A couple of items need to be modified.

Permit Nos. 22-07235 and 22-07116 are in the names of Rex and Larry Ard. An assignment form signed by one of these individuals is needed and I have prepared the form and enclosed it for this purpose. Permit No. 22-07261 is in the name of Teton Valley Ranches; Permit No. 22-07157 is in the name of Teton Georgic Inc. Assignment forms have been prepared and simply need signatures from representatives of these entities.

Finally, Permit No. 22-07178 lapsed in June of 1981 for failure to submit proof of beneficial use; therefore, this right is no longer valid.

There are three other permits in the Teton Pipeline group which were not identified in the assignment process. You may want to have these included -

Permit No. 22-07119 in the name of Glen D. Nelson

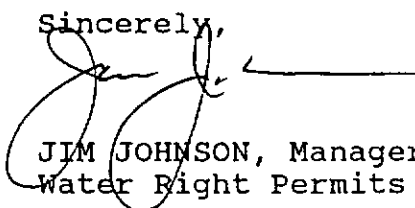

Permit No. 22-07216 in the name of Hink Inc.

Permit No. 22-07122 in the name of Max &/or Merrill Rammell

I have enclosed blank assignment forms for these rights, if you wish to have them assigned to the Association as well.

As soon as we receive the assignment forms back in our office, we can complete the changes in ownership. If you have any questions, feel free to give me a call.

Sincerely,

JIM JOHNSON, Manager

RE: TETON PIPELINE REVIEW

DATE: 17-JUL-1989

=====

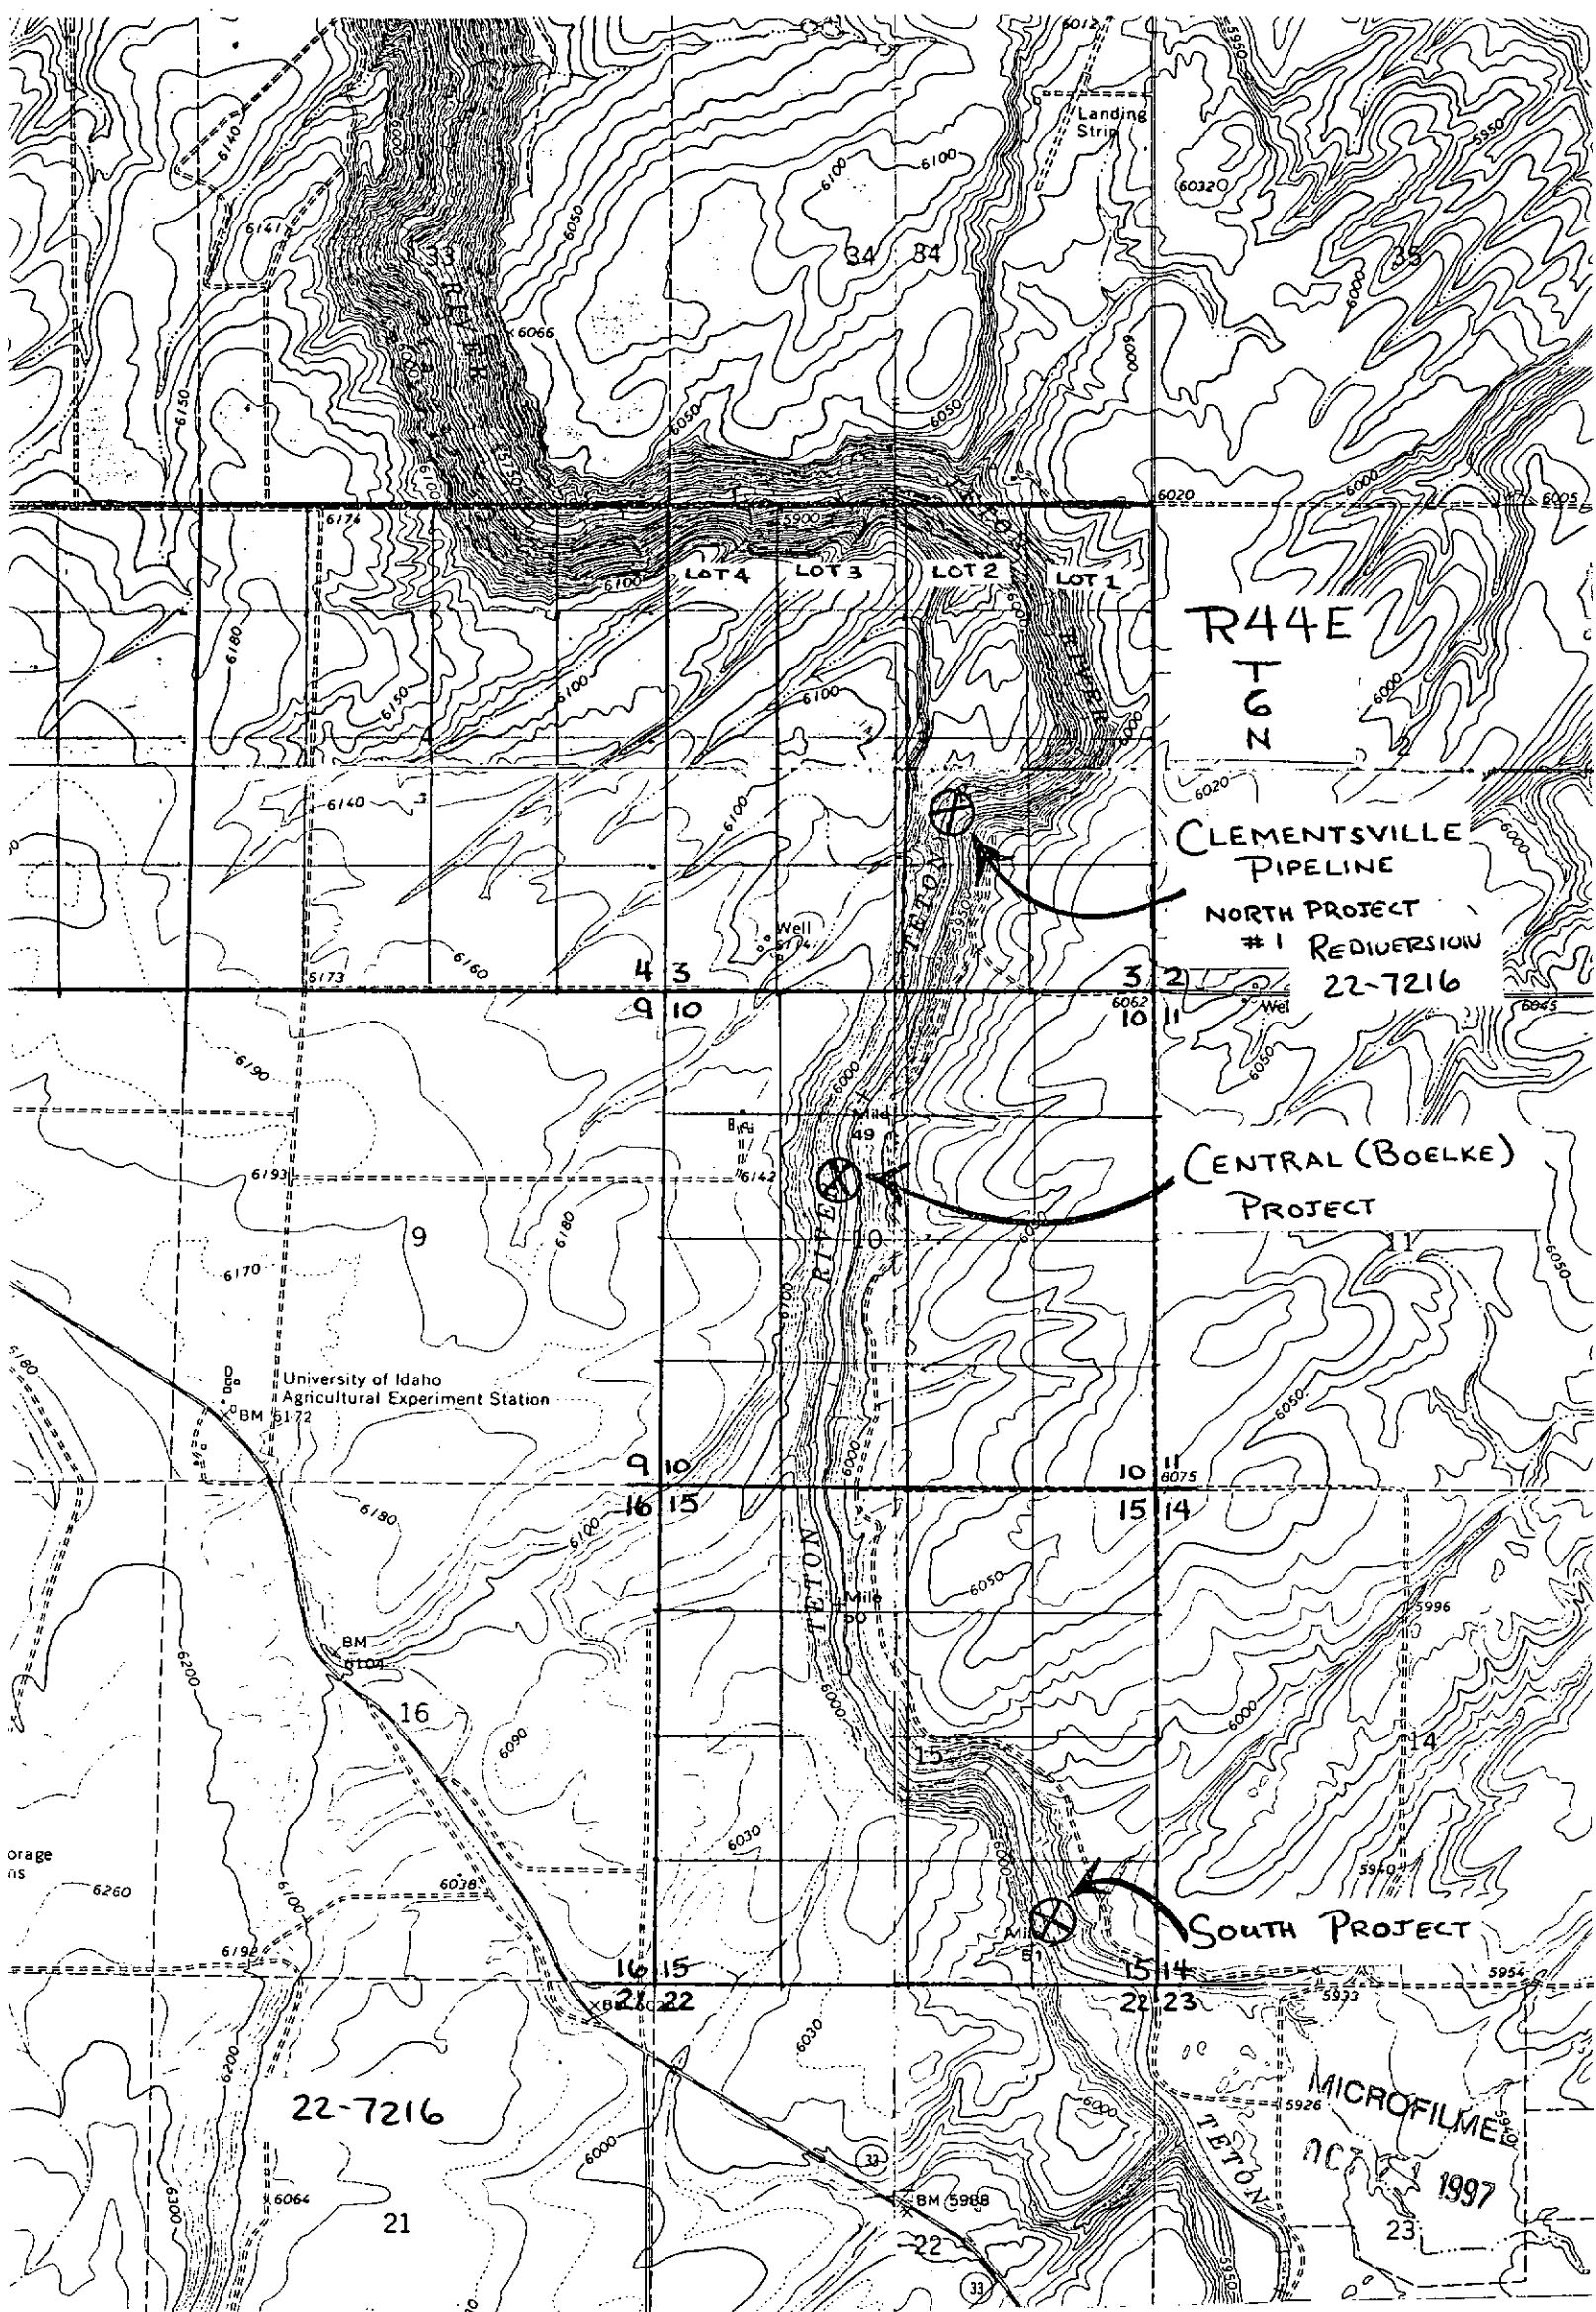

This is the sixteenth in a series of files that I am reviewing prior to licensing. All of the files have become collectively known as the "Teton Pipeline".

This right should be licensed without condition because the capacities have not been exceeded by prior rights.

The field examiner has recommended a complex "splitting" of these rights to indicate ownership of the diversion and rediversion works. This is not consistent with previous actions by the Department and I recommend that this idea be rejected.

Dear Sirs:

We the Board Members of the Woodmansee Johnson Canal Co., oppose the Amendment to Permit 22-721b in the name of HINK INC., which proposes to change the point of diversion as described in the Amendment in the Rexburg-Standard-Journal dated June 4, and 11, 1981. (Notice of Proposed Amending of Water Right.)

This letter is a follow up to the opposed Amendment to Permit 22-7360 dated May 4, 1981.

**NOTICE OF PROPOSED
AMENDING OF WATER RIGHT**

Notice is hereby given that Permit No. 22-7216 in the name of Hink Inc. was issued for the diversion of 4.00 cfs of water from a groundwater source with the point of diversion within the NW1/4SE1/4, Sec. 15, Twp. 7N, Rge. 41E, Fremont County. The water is pumped into the Teton River and rediverted at a point within the NW1/4SE1/4, Sec. 3, Twp. 6N, Rge. 44E, Teton County. The water is to be used to irrigate 1055 acres from April 1 to November 1 within the SW1/4, Sec. 25; Sec. 26; NW1/4, Sec. 35; E1/4NE1/4, E1/4SE1/4, Sec. 27, Twp. 7N, Rge. 43E.

The permit holder now proposes to amend Permit No. 22-7216, changing the point of diversion to within the SW1/4SW1/4, Sec. 16, Twp. 6N, Rge. 40E, Madison County. The water will be pumped into the Teton River and rediverted within the NW1/4SE1/4, Sec. 3, Twp. 6N, Rge. 44E, Teton County.

Any protest to the proposed amending of the permit must be filed with the Idaho Department of Water Resources, 150 Shoup Ave., Idaho Falls, Idaho, 83401, on or before June 22, 1981.

OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION
FOR PERMIT NO. 22-7360 AND
APPLICATION FOR AMENDMENT
NO. 22-7216 IN THE NAME OF
HINK, INC.

NOTICE OF COMBINED HEARING
AND/OR CONFERENCE

On April 14, 1981, Hink, Inc. filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On May 11, 1981, the Department received protests against approval of said application from Mary Smith, Attorney at Law, in behalf of Fremont Madison Irrigation District; and the Woodmansee-Johnson Canal Company signed by Dell Palmer, Russell Wilding, Brent Barrus, Royle S. Thomson and Garry Parkinson. On May 12, 1981, an additional protest was received from Teton Irrigation and Manufacturing Company, Diana S. Richman, Secretary.

On May 2, 1981, Hink, Inc. filed application for amendment No. 22-7216. On June 19, 1981, the Department received a protest from the Wilford Canal Company signed by J. T. Beech, Fred Trupp, Errol Johnson, Frank Ives, and Alfred Klein. On June 22, 1981, additional protests were received from the Woodmansee-Johnson Canal Company and signed by Dell Palmer, Brent Barrus, Royle S. Thomson, Garry Parkinson, and O. Russell Wilding; and from Fremont Madison Irrigation District.

The Department has set the matter of protest for hearing for 11:00 a.m., Wednesday, August 5, 1981, in the old District Courtroom, Madison County Courthouse, Rexburg, Idaho. The hearing will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved. A pre-hearing conference may be held beginning at the above set time and prior to the hearing.

In accordance with Idaho Code, Section 42-203, the following issues are involved in the consideration of the application and protest(s):

RECEIVED
AUG 11 1981

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

In accordance with Idaho Code, Section 42-211, the following issues are involved in the consideration of the amendment and protest(s):

1. Will the proposed change result in the diversion and use of more water than originally permitted?
2. Will the rights of others be adversely effected by the proposed change?

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties may be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 42-1701A.

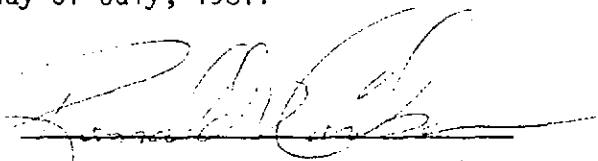

The parties by written stipulation may waive their right to a proposed decision, however, the failure of either party to waive a proposed decision will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a

RECEIVED

final decision. Whether compliance with Section 42-1701A is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the district court.

Failure to appear at the time and place set for hearing by the applicant or protestant(s) may allow the Department to dismiss without prejudice the protest(s) or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Gentlemen:

We are resubmitting a legal notice to be published on July 9 and 16, 1981. This notice was originally published in your paper on June 4, and 11, 1981. Unfortunately, it was advertised incorrectly. As we had no way of checking the accuracy of this notice before it went to print we, therefore, request this be readvertised again at your expense.

To prevent future problems in this matter, please submit a galley proof before the first date of publication. If we have any corrections, we will notify you; otherwise, assume the notice is correct. If the administrative procedures of your paper will not allow time for making corrections by submitting a galley proof, we will be glad to review the notice with you by telephone prior to publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to this office by July 27, 1981. Your cooperation in this matter is greatly appreciated.

Very truly yours,

KAY WALKER
Secretary

Comes now the Fremont-Madison Irrigation District, a quasi-municipal corporation of the State of Idaho, with its office and post office address at St. Anthony, Idaho, and in response to notice given that HINK INC. proposes to amend Application No. 22-7216 changing the point of diversion to within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 15, Township 6 North, Range 40 E.B.M., Madison County. The water will be pumped into the Teton River and rediverted within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 3, Township 6 North, Range 44 E.B.M., Teton County, from April 1 to November 1, and makes the following Protest against the approval of such application:

1. That the proposed diversion will reduce the quantity of water under existing water rights.
2. That the supply of Teton river water is not sufficient to warrant appropriation from April 1 to November 1 for the proposed diversion and exchange.
3. That the application for said permit is made for speculative purposes.
4. That such diversion will conflict with local public interest.

Dear Mr. Huskinson:

I am sorry we didn't make connections on Friday since there was a \$20.00 ~~amending~~ fee for the amendment to Permit No. 22-7216. If you would simply send a check for that amount to this office we will be glad to initiate processing of the amendment.

Respectfully submitted,

ERNEST CARLSEN
