ORDER AUTHORIZING
TEMPORARY CHANGE TC-22-06

WHEREAS, a drought emergency has been declared for Madison
County to allow administrative actions to lessen the severe impacts of the drought
conditions in the counties; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a
drought emergency, the director of the Department of Water Resources ("Department")
is authorized to allow temporary changes in the point of diversion, the place of use, and
the purpose of use for valid existing water rights when the director determines that such
changes can be accomplished in accordance with the provisions of section 42-222A,
Idaho Code; and

WHEREAS, on 9/3/03, Teton Pipeline Assoc submitted the attached
Temporary Change Application TC-22-06 to the Department; and

WHEREAS, the Department has reviewed the application and has determined
the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is APPROVED subject to the
following conditions:

22-7208, 22-7209, 22-7211, 22-7223, 22-7360
22-7221, 22-7295, 22-7216, 22-7235,

1. Diversion and use of right no(s). 22-7375 & 22-7504 is authorized only
at the point of diversion and place of use described on the application.
2. This temporary change approval does not authorize construction of a new
well as a new point of diversion.
3. The applicant assumes all risk of curtailment or mitigation should the
diversion and use of water under the temporary change approval cause
injury to other water rights, constitute an enlargement in use of the original
right, be inconsistent with the conservation of water resources within the
state of Idaho, or not be in the local public interest.
4. This temporary change approval may only be used to provide a

5. Right(s) 22-7375 & 22-7504 are limited to the irrigation of a total of acres in a single irrigation season.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
10. The watermaster of Water District No. 01 is authorized to administer the temporary change approval.
11. This temporary change approval expires on 12/31/03 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 22-7211

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows:

"The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

PROTEST
APPLICATION # 22-7211

We, THE TETON IRRIGATION & MANUFACTURING COMPANY, do hereby protest the application # 22-7211 for the permit to drill an irrigation well and divert water from the Teton River, and in support thereof respectfully represent:

1. The Teton Irrigation & Manufacturing Company has rights in the Teton River and believes that this application, if permitted, would interfere with their water rights.
2. We are opposed to any permit that does not replace water above our headgate and believe that such a permit would be a detriment to our system.
3. We believe that because of the present water and energy outlook in the area and state that no new permits should be allowed.
4. We believe that there are still many problems to be solved with the present canal systems on the Teton as a result of the Teton Dam failure and that there should be a moratorium on all new wells and systems until the repairs and evaluation of these problems can be made.
5. We believe that water tables in the area will be affected and that the stockholders have legitimate concerns about their culinary water supply being interrupted.
6. We believe that it will require a great deal of manpower to police the Teton River on a low water year and this would be an added burden to the water users.

RE: Teton Pipeline Assn. Inc. Water Rights

Roger Hoopes
PO Box 70
Rexburg, ID 83440-0070

Dear Roger:

I've had a chance to collect the information we talked about in our meeting last week. I guess the best place to start is with the easiest of explanations.

I've enclosed copies of the original permits and the aerial photos submitted by the field examiner for those permits which are ready to be licensed without amendments. I've also enclosed profile reports which show the parameters of the proposed licenses. In most cases, there is a reduction in acres as we discussed. Keep in mind that the proposed license for Permit 22-07120 may be amended to reflect the acres irrigated up to the highway - I will discuss that later in my letter.

I've enclosed the amendment for Permit 22-07295, which was overlooked previously. This amendment along with those for Permit Nos. 22-07116/07121/071257/07209/07375 need to be signed and returned to me at your earliest convenience.

The amendment for Permit No. 22-07208 falls into the same category as the proposed license for 22-07120 mentioned above. It appears that there is an elevation change from the rest of the lands shown by the examiner as irrigated. I ask that you provide a written statement as to how these additional acres are irrigated. Your statement can be used to document the files as to why additional acres are proposed for licensing from what the examiner recommended. I would estimate the additional acres to be about 19.

Next, you disagreed with the amendment for Permit No. 22-07180; specifically, the amendment shows irrigation of only the SENE and NESE of Section 16 and you stated that most of the entire section is irrigated under this right. I have examined a Landsat photo from July of 1988 and could verify irrigation in the W $\frac{1}{2}$ SW $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SENE and N $\frac{1}{2}$ SE $\frac{1}{4}$. It is possible for us to include acres in these $\frac{1}{4}$'s based upon the Landsat evidence, however, you should be aware

MICROFILMED

OCT 21 1997

Roger Hoopes
January 19, 1995
Page 2

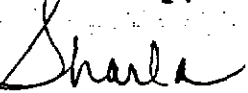

that the previous amendment included 478 acres and the permit originally allowed 640. Therefore, only a maximum of 168 acres can be added. I will wait to hear from you as to your agreement before I prepare another "amended" amendment.

We also talked about the rights originally in the name of J. Clint Hoopes. You stated that the reduction of acres on those rights was caused by the transferring of water to other acres which was never documented. I have discussed this matter with Jim also and I'm glad to say that the door isn't totally closed in this matter. If you can provide evidence that other lands were irrigated under these rights prior to the time proof of beneficial use was submitted, consideration will be given to allowing the addition of those acres. In addition to this evidence, you need to provide documentation as to why the place of use was moved, where the new acres are located and how many acres, as well as provide a system diagram to show how this "amended" place of use relates to these permits. I believe the permit numbers in question are 22-07208, 22-07121 and possibly 22-07375.

Finally, in regards to the new point of diversion we talked about being used for irrigation of lands within your system, the time to reflect the addition of this point of diversion is on the currently pending transfer you have before the department. After this batch of permits are licensed, you will no doubt want to take another complete look at the transfer and make whatever adjustments are necessary with the new licenses in mind and this would be the best opportunity to pick up the other point of diversion.

Well, I think that about wraps it up. We are making progress, really!! After you've had a chance to review all of this, give me a call or drop me a line if I can be of further assistance.

Sincerely,

2. That you will be sending me copies of the field examiner's reports for all the Water Rights referred to in your November 17, 1994 letter.

If my understanding is incorrect in any respect, please let me know.

There are a couple of other matters that I would like clarified. Your letter of November 17, 1994 makes reference to twenty one (21) different permits. Our records show that two (2) of these Water Rights (22-07100 & 22-07122) are licenses. Should these even have been made reference to in your letter? You sent us fourteen (14) amendments and one (1) abandonment. If my arithmetic is correct (21 minus 2 minus 14 minus 1) there are four permits that are not dealt with. May we assume that these will go to license without any changes, modifications, or amendments? Please let me know.

RE: Teton Pipeline Assn. Inc. Water Rights

Teton Pipeline Assn. Inc.
PO Box 272
Tetonia, ID 83452

Gentlemen:

The following rights have recently been assigned to Teton Pipeline Assn. Inc. and the department's computer records have been modified to reflect this change of ownership:

Application for Permit Nos. 22-07504/07505/07667/07673
Permit Nos. 22-07108/07111/07116/07119/07120/07121/07122/
07148/07157/07180/07186/07208/07209/07211/
07216/07221/07223/07235/07295/07360/07375

The Department is ready to finalize license issuance for a number of the above mentioned rights. Before licenses can be issued on the majority of the permits, the permits must be amended to correspond with the findings of the Department's field examiner.

The enclosed Applications for Amendment contain information that will be included on the licenses when they are issued. The amendments reflect changes in the locations of the place of use descriptions. Please review carefully and if you concur, sign the amendments and return with the filing fees within 14 days (\$50.00 for each amendment). A \$20.00 amendment fee was previously paid for Permit No. 22-07180; this fee can be credited to the amendment fees now sought.

Also enclosed is a relinquishment form for Permit No. 22-07221. Permit Nos. 22-07211 and 22-07295 supply the maximum volume for the acres covered under the three permits, therefore, no additional beneficial use was found under Permit No. 22-07221. In order for us to clear our records of this right, we ask that you sign the relinquishment form and return it with the amendments for the other permits.

MEMORANDUM

TO: File
FROM: Sharla
DATE: November 16, 1994
RE: Assignment Fees

The assignments of numerous "Teton Pipeline" rights were received after July 1, 1994 when fees became required for assignments. These assignments, however, had been solicited by the department prior to July and it was decided that no fees would be charged for the assignments to Teton Pipeline Assoc., Inc.

Correspondence concerning these assignment forms can be found in Right 22-07122.

Dear Mr. Hoopes:

Well, are you ready for the next round? Some time has passed since we last discussed the rights we are trying to license in the name of Teton Pipeline Assn. Inc.

You will recall that one of the last things we had discussed was the reduction under several of the permits of some acres originally owned by J. Clint Hoopes. The reduction was caused by the transferring of water to other acres but this had never been documented with the department. When you, Jack and I had spoke, you both indicated that you would sign off on the reduced amendments if the two applications for permit which had been filed to cover these lands would be approved. Believe it or not, enclosed are the approved permits.

With this new development, I would like to arrange a meeting with you to finalize the licensing process for the remaining permits. Amendment fees still need to be paid, several of the amendments need to be signed, etc. We could hopefully wrap this up so that the licenses can be forwarded for signature. Please give me a call (208)327-7945 at your earliest convenience so we can schedule such a meeting. I look forward to hearing from you.

Sincerely,

SHARLA CURTIS

MEMORANDUM

TO: FILE #22-7211

FROM: ROXANNE MCCARTHY

RE: TETON PIPELINE REVIEW

DATE: 13-JUL-1989

=====

This is the fifteenth in a series of files that I am reviewing prior to licensing. All of the files have become collectively known as the "Teton Pipeline".

This right should be licensed with condition because the capacities have been exceeded by prior rights.

The field examiner has recommended a complex "splitting" of these rights to indicate ownership of the diversion and redirection works. This is not consistent with previous actions by the Department and I recommend that this idea be rejected.

Dear Mr. Carlson:

The Teton Irrigation and Manufacturing Directors have requested the protests that they have filed with your office in regard to the applications for transfer no. 22-0275, 22-0274, 22-7208, 22--7209, 22-7210, 22-7211, & 22-7212 be withdrawn.

The Board of Directors have met with some of the parties and had a discussion on their problems and have agreed to withdraw the protests. There is still considerable apprehension about these wells and the control of the water on this year following the flood damage of last year and the very low water tables. We trust that all of the organizations involved will work for the protection of the existing water rights and a fair solution to the water problems that may arise.

Thank you for your cooperation.

PROTEST
APPLICATION NO. 22-7212

We, THE TETON IRRIGATION & MANUFACTURING COMPANY, do hereby protest the application #22-7212 for the permit to drill an irrigation well and divert water from the Teton River, and in support thereof respectfully represent:

1. The Teton Irrigation & Manufacturing Company has rights in the Teton River and believes that this application, if permitted would interfere with their water rights.

2. We are opposed to any permit that does not replace water above our headgate and believe that a permit such as this would be a detriment to our system.

3. We believe that because of the present water and energy outlook in the area and state that no new permits should be allowed.

4. We believe that there are still many problems to be solved with the present canal systems on the Teton as a result of the Teton Dam failure and that there should be a moratorium on all new wells and systems until the repairs and evaluation of these problems can be made.

5. We believe that water tables in the area will be affected and that the stockholders have legitimate concerns about their culinary water supply being interrupted.

6. We believe that it will require a great deal of manpower to police the Teton River on a low water year and this would be an added burdon to the water users.

NOTICE OF COMBINED
CONFERENCE AND/OR
HEARING

On January 25, 1977, Bob Parkinson filed with the Department of Water Resources an application to transfer the waters of the Teton River. The transfer was subsequently protested by the Good Luck Canal Company, Wolfe Ditch Company, and Teton Irrigation and Manufacturing Company. On February 10, 1977, J. Clint Hoopes and Earl N. Hoopes filed applications to appropriate water from a ground water source. On February 15, 1977, Val Schwendiman Farms, Inc.; and on February 22, 1977, DeMar and/or Terry Bott and Max &/or Merrill Rammell also filed applications to appropriate the public waters of the State of Idaho. These applications have been protested by the Fremont-Madison Irrigation District, Teton Irrigation and Manufacturing Company and the Wolfe Ditch Company.

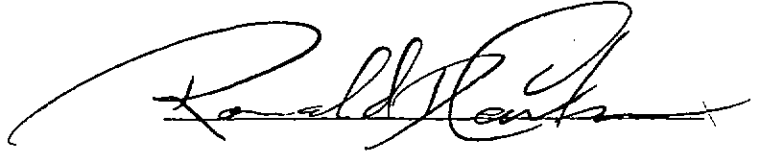

The Department has set the matter of protests for conference and/or hearing for Thursday, March 24, 1977, at 1:00 p.m., in the Courtroom of the Fremont County Courthouse, St. Anthony, Idaho. Because of the similarity of the issues involved this hearing has been combined. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

MICROFILMED

Failure to appear at the time and place set for hearing by the applicants or protestants may allow the Department without prejudice to dismiss the protests or the applications. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Gentlemen:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 22-7211. You should be aware that the following are the principal items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,
