The REXBURG STANDARD and
The REXBURG JOURNAL
REXBURG, IDAHO

RECEIVED

MAR 7 1977

Department of Water Resources
Eastern District Office

Affidavit of Publication

STATE OF IDAHO }
County of Madison } ss.

I, Terry T. Weatherston,
being first duly sworn, depose and say,
that I am the printer of THE REXBURG

JOURNAL, a newspaper printed and
published weekly at Rexburg, Madison
County, Idaho; and I do solemnly swear
that the

WATER PERMIT

a copy of which notice appears attached
hereto, was published in the regular and
entire issue of said newspaper, and not in

any supplement issue thereof for two
consecutive issues, the first publication hav-

ing been made on February 24, 1977
and the last publication having been made

on March 3, 1977.

Further, that said newspaper is one of
general circulation in said county; that it
is a legal newspaper, conforming to legal
specifications under the Idaho Statutes; that
it has at least two hundred bona fide sub-
scribers living within the county of publica-
tion; and that it has been continuously and
uninterruptedly published in said county dur-
a period of seventy-eight consecutive weeks
prior to the first publication of the said not-
ice.

WATER PERMIT

Notice is hereby given that Val Schwen-
dman Farms, Inc., Newdale, Idaho has on
2-15-77 submitted Application No. 22-7210
for a permit to appropriate 15.5 cubic feet
per second of water from a ground-water
source by means of well and pump within
the SW 1/4 NE 1/4, Sec. 29, T. 7N, R. 41E, B.M.,
Fremont County. The water will be pumped
into the Teton River and rediverted at a
point within the NW 1/4 SE 1/4, Sec. 23, T. 7N,
R. 42E, B.M., Madison County; to be used
from Apr. 1 to Nov. 1 for the irrigation of
2,560 acres within Sec. 2, T. 6N, R. 42E;
W 1/2 E 1/2, W 1/2, Sec. 26, S 1/2 N 1/2, S 1/2, Sec.
27, S 1/2 NE 1/4, N 1/2 SE 1/4, Sec. 28, N 1/2 NE 1/4,
Sec. 33, N 1/2 NW 1/4, Sec. 34, Sec. 35, T. 7N,
R. 42E, B.M.

If issued, this permit will be subject to all

prior water rights. Protests against the
granting of the permit must be filed with
the Idaho Department of Water Resources,
1515 Lincoln Road, Idaho Falls, Idaho,
83401 on or before March 14, 1977.

RECEIVED
SEP 17 2003

Department of Water Resources

IN THE MATTER OF APPLICATION)
FOR TEMPORARY CHANGE OF A)
WATER RIGHT 22-7210 & 22-7313)
Val E. Schwendiman Farms)

ORDER AUTHORIZING
TEMPORARY CHANGE TC-2208

WHEREAS, a drought emergency has been declared for FREMONT
County to allow administrative actions to lessen the severe impacts of the drought
conditions in the counties; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a
drought emergency, the director of the Department of Water Resources ("Department")
is authorized to allow temporary changes in the point of diversion, the place of use, and
the purpose of use for valid existing water rights when the director determines that such
changes can be accomplished in accordance with the provisions of section 42-222A,
Idaho Code; and

WHEREAS, on 9/8/03, Val E Schwendiman Farms by David Schwendiman for
Fremont-Madison DIST submitted the attached
Temporary Change Application TC-22-08 to the Department; and

WHEREAS, the Department has reviewed the application and has determined
the application can be approved with certain conditions;

ORDER

IT IS HEREBY ORDERED that the application is APPROVED subject to the
following conditions:

1. Diversion and use of right no(s). 22-7210 & 22-7313 is authorized only
at the point of diversion and place of use described on the application.
2. This temporary change approval does not authorize construction of a new
well as a new point of diversion.
3. The applicant assumes all risk of curtailment or mitigation should the
diversion and use of water under the temporary change approval cause
injury to other water rights, constitute an enlargement in use of the original
right, be inconsistent with the conservation of water resources within the
state of Idaho, or not be in the local public interest.
4. This temporary change approval may only be used to provide a

**ORDER AUTHORIZING
TEMPORARY CHANGE** Tc-22-08

replacement water supply to lands or other uses which normally have a full water supply, except for the drought condition. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

5. Right(s) 22-7210 & 22-7313 are limited to the irrigation of a total of .3279 acres in a single irrigation season.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. The applicant shall measure the amount of water diverted and shall report the amount of water diverted under this approval.
10. The watermaster of Water District No. 01 is authorized to administer the temporary change approval.
11. This temporary change approval expires on 12-31-03 unless rescinded or extended by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

DATED this 12th day of Sept, 2003.

Total number of acres irrigated: 3279

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 01.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
7. Unperforated well casing shall be retained above the first confining layer to prevent interference with shallow wells and recharge to the river.
8. No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located between the redirection pump and the exchange wells will be allowed even if the exchange wells are pumping water into the Teton River.
9. Totalizing measuring devices shall be maintained at the exchange wells and redirection pumps from the Teton River.

AUG 09 1994

State of Idaho
Department of Water Resources

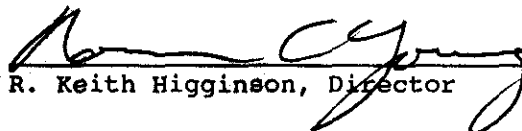

WATER RIGHT LICENSE

WATER RIGHT NO. 22-07210

CONDITIONS/REMARKS:

10. The exchange wells must inject water into the Teton River whenever water is being diverted from the river under this license, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection.
11. The power supply to the exchange wells cannot be contracted under the power company's interruptable rules unless the power company agrees to notify the right holder at least 24 hours prior to the time the power service is terminated.
12. The rate of rediversion from the Teton River shall not exceed the rate of injection into the Teton River from the exchange wells.
13. This right is limited to the irrigation of 2560 acres in the place of use described above in a single irrigation season.
14. The director retains jurisdiction of this right to adjust the terms of the exchange if necessary to prevent injury to prior rights.
15. Three points of diversion located in SWNE, S29, T7N, R41E.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 22nd day of July, 1994.

APPLICATION FOR AMENDMENT
(For Licensing Purposes)
WATER RIGHT NO. 22-07210

FOR DEPARTMENT USE ONLY

Preliminary check by SC Fee ☒ \$20.00 Received by C Wong Date 8/2/90

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 22-07210 with the following;

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right is subject to control by the watermaster of State Water District No. 01
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
7. Measuring devices must be installed and maintained at the point of diversion from the Teton River and point of diversion where groundwater is diverted into the river.
8. 3 points of diversion located in SWNE, S29, T7N, R41E.
9. Point of re-diversion is from Teton River.

Witness my hand this 22nd day of July, 1994.

1. Name of applicant Val Schwendiman Farms, Inc. Phone: 458-4261
post office address Newdale, ID 83436
2. Source of water supply ground water which is a tributary of _____
3. a. Location of point of diversion is SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 29 Township 7N
Range 41E B.M. Fremont County; additional points of diversion if any: _____
Exchange point from Teton River - NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 23, T. 7N, R. 42E, B.M.
Madison County
- b. If water is not consumed, it will be discharged into Teton River at a point in SW $\frac{1}{4}$
of NE $\frac{1}{4}$ of Section 29 Township 7N Range 41E B.M. Fremont
4. Water will be used for the following purposes:
Amount 15.5 for irrigation purpose from Apr. 1 to Nov. 1 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
a. 15.5 cubic feet per second and/or
b. _____ acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. well, pump and pipeline, re-diversion
pump; 600, 400 & 300 HP pumps and sprinkler system

b. Height of storage dam _____ feet, active reservoir capacity _____ acre feet; total reservoir
capacity _____ acre feet, materials used in storage dam: _____
Period of year during which storage will occur _____ to _____ inclusive.
(Mo. Day) (Mo. Day)
c. Proposed well diameter is 20 inches; proposed depth of well is 300 feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 5 years.
b. Estimated construction cost is \$ 300,000.00.
8. Description of proposed uses:
a. If water is **not** for irrigation:
(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M. _____
(2) Amount of power to be generated: _____ hp under _____ feet of head.
(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____
(5) If water is to be used for other purposes describe: _____

MICROFILMED

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 22-7210, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 19 82.

c. Other: The exchange of Teton River water for Groundwater be under the Control of the Watermaster of Water District 01.

The wells be cased and unperforated above the first confining layer to prevent interference with shallow wells and recharge to the river.

That measuring devices of a type approved by the Department of Water Resources be installed and maintained at both the point of diversion from the

2. Denial of said application is for the following reasons: river and at the point of injection.

Witness my hand this 15 day of April, 19 77.

Eastern District Office

Affidavit of Publication

STATE OF IDAHO }
County of Madison } ss.

I, Terry T. Weatherston,
being first duly sworn, depose and say,
that I am the printer of THE REXBURG

JOURNAL, a newspaper printed and
published weekly at Rexburg, Madison
County, Idaho; and I do solemnly swear
that the

WATER PERMIT

a copy of which notice appears attached
hereto, was published in the regular and
entire issue of said newspaper, and not in

any supplement issue thereof for two
consecutive issues, the first publication hav-

ing been made on February 24, 1977
and the last publication having been made

on March 3, 1977

Further, that said newspaper is one of
general circulation in said county; that it
is a legal newspaper, conforming to legal
specifications under the Idaho Statutes; that
it has at least two hundred bona fide sub-
scribers living within the county of publica-
tion; and that it has been continuously and
uninterruptedly published in said county dur-
a period of seventy-eight consecutive weeks
prior to the first publication of the said not-
ice.

Conditions of Approval:

- R04 - Use of water under this water right will be regulated by the watermaster of State Water District No. 01.
- R30 - This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.

Remarks: Unperforated well casing shall be retained above the first confining layer to prevent interference with shallow wells and recharge to the river.  
No demand on upstream prior rights or existing prior exchanges can be made and no interference with prior rights located

Remarks: between the redirection pump and the exchange wells will be allowed even if the exchange wells are pumping water into the Teton River.  
Totalizing measuring devices shall be maintained at the exchange wells and redirection pumps from the Teton River.  
The exchange wells must inject water into the Teton River whenever water is being diverted from the river under this license, and the injection must continue after the diversion from the Teton River ceases until the water not diverted reaches the point of injection.  
The power supply to the exchange wells cannot be contracted under the power company's interruptable rules unless the power company agrees to notify the right holder at least 24 hours prior to the time the power service is terminated.  
The rate of redirection from the Teton River shall not exceed the rate of injection into the Teton River from the exchange wells.  
This right is limited to the irrigation of 2560 acres in the place of use described above in a single irrigation season.  
Three points of diversion located in SWNE, S29, T7N, R41E.

RE: VAL SCHWENDIMAN/PARKINSON WELLS

PERMIT NO.S ~~22-7210~~, 22-7213, 22-7205 & 22-7265

=====

The above permits were approved with the condition that wells be cased and unperforated above the first confining layer to prevent interference with shallow wells and recharge to the river.

Field exams for the above permits show that there are three wells diverting groundwater within the SWNE Sec 29, T7N, R41E. Well logs for the three wells show that water was encountered in basalt rock between 50 and 180 ft. Water was first encountered in all three wells between 50 and 75 ft. Two of the wells have unperforated casing to 138 ft. A third well is cased to 140 ft., but is unperforated only to 55 ft., the level at which water was first encountered in basalt. The static water level is 45 ft. in the third well and about 100 ft. in the other two wells.

It appears that all three wells penetrate the basalt of the Snake Plain aquifer which underlies the Teton and Henrys Fork Rivers lowlands. The basalt in these lowlands also underlies alluvial deposits which vary in thickness, but generally increase in thickness from a northeast to southwest direction. The lowland alluvial deposits contain a perched water table which is only a few feet below land surface throughout much of the area (Crosthwaite et. al., 1972). Based on the well logs, the alluvial deposits in the location of the three wells appear to be only about 50 to 60 feet. These logs basically conform with other logs for nearby sites reported by Ham (1968), and Crosthwaite, Mundorff and Walker (1972). Geologic maps for these same references show that the regional groundwater table for this area is about 80 to 90 feet. Crosthwaite, Mundorf and Walker report that the Teton River near Teton is perched about 100 feet above the regional water table.

Based on review of the three well logs and other available geohydrologic data, the wells in question penetrate the basalt aquifer and are cased through the overlying alluvium. The two wells with unperforated casing to 138 ft. and static water level of 100 ft. appear to be in compliance with the permit condition. The third well, which is cased to 140 ft. but unperforated to only 55 ft., may potentially pump water from the overlying alluvium and therefore may not be in compliance with the permit condition.

RE: PERMIT NO. 22-07210

Dear Permit Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 30 days.

If you do not concur with these findings or if you have any questions, please contact us within the 30-day period.

Sincerely,

JIM JOHNSON  
Water Rights Supervisor

Re: overlapping rights

Date: April 11, 1990

=====

The following rights share the same three points of diversion. None of the licenses require conditioning because the rates of flow and total volume are not exceeded by these rights.

LICENSING REPORT

RECEIVED  
FEB 19 1987

22-7210  
Permit No.

1. Measurement Calculations

Department of Water Resources

a) Field Measurement Calculations (Include theoretical capacities and system capacity)

McCrometer Wilford #1 0.01af in 24.22sec =  $(43560 \text{ ft}^2/\text{ac})(0.01 \text{ af}/24.22 \text{ sec}) =$

$$Q_1 = 17.985 \text{ cfs}$$

Wilford #2 0.01af in 26.24sec =  $(43560 \text{ ft}^2/\text{ac})(0.01 \text{ af}/26.24 \text{ sec}) =$

$$Q_2 = 16.60 \text{ cfs}$$

Wilford #3 0.01af in 20.0sec =  $(43560 \text{ ft}^2/\text{ac})(0.01 \text{ af}/20.0 \text{ sec}) =$

$$Q_3 = 21.78 \text{ cfs}$$

$$Q_T = Q_1 + Q_2 + Q_3 = 17.985 \text{ cfs} + 16.60 \text{ cfs} + 21.78 = 56.36 \text{ cfs}$$

Schwendiman portion of right =  $56.36 \text{ cfs} \div 2 = 28.18 \text{ cfs}$

Schwendiman redistribution rate = 28.18 cfs

Permit Q = 15.5 cfs most restrictive

$$\therefore Q = 15.5 \text{ cfs}$$

b) Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (2560 \text{ ac})(3.5 \text{ cfs}) = 8960 \text{ af}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (15.5 \text{ cfs})(214)(1.9835) = 6579.27$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 6579.27 \text{ af}$$

c) Volume Calculations for Other Uses:

2. Overlap Review

a) Other water rights with same place of use: 22-7271 (Teton River) 22-7313B

b) Other water rights with same point of diversion: 22-7313A; 22-7313B / 22-7205 / 22-7265 /  
22-7313 (Bob Parkinson)

c) Analysis:

RECEIVED

OCT 25 1979

Department of Water Resources

Mr. J. Schmitt  
Caretaker  
1000

Mr. J. Schmitt:

We acknowledge receipt of the proof of beneficial use card submitted for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our eastern regional office.

Very truly yours,

JACQUE S. LAMMIE  
Senior Clerk

cc: IDWR - State Office

# DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources will consider this card as a statement that the permit holder(s) has completed development to the extent shown below of Permit No. 22-7210

Name(s) of Permit Holder: Vak Schwendiman

Post Office Address: Newdale, Idaho 83426

Source of Water: Ground Water exchange

Extent of Use: ☐ Domestic (number of households)  
☐ Stockwater (number and type of stock)  
☐ Irrigation 2560 (acres)  
☐ Other

Measuring Device: Required? ☒ Yes ☐ No Installed? ☒ Yes ☐ No

Access Port: Required? ☐ Yes ☐ No Installed? ☐ Yes ☐ No

The above information is a true statement of the extent to which the above numbered permit has been developed.

Re: Permit No. 22-7210

Canyon Creek Canal Co.  
c/o Wally Little, Chairman  
Newdale, Idaho 83436

Gentlemen:

We received the May 13, 1977 letter from Mr. Val Schwendiman allowing you permission to use his well covered under Permit No. 22-7210 during the 1977 irrigation season.

We will consider this letter as permission to use his diversion works. However, you also must have a valid water right under which to use these works. Either a new application for permit to appropriate water from this well must be filed by you or Mr. Schwendiman may amend the place of use under this permit so the water can be used upon your land.

If you have any questions, please contact us or you may wish to discuss this with our Idaho Falls Office at 1515 Lincoln Road.

Sincerely,

BOBBY D. FLEENOR  
Chief, Operations Bureau

Newdale, ID 83436

Gentlemen:

Enclosed is a copy of your approved Application for Permit No. 22-7210. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR  
Chief, Water Rights

Department of Water Resources  
Eastern District Office

Mr. Ron Carlson  
Idaho State Department of Water Resources  
Eastern District Office  
1515 Lincoln Road  
Idaho Falls, Idaho 83401  
Dear Mr. Carlson:

The Teton Irrigation and Manufacturing Directors have requested the protests that they have filed with your office in regard to the applications for transfer no. 22-0275, 22-0274, 22-7208, 22--7209, 22-7210, 22-7211, & 22-7212 be withdrawn.

The Board of Directors have met with some of the parties and had a discussion on their problems and have agreed to withdraw the protests. There is still considerable apprehension about these wells and the control of the water on this year following the flood damage of last year and the very low water tables. We trust that all of the organizations involved will work for the protection of the existing water rights and a fair solution to the water problems that may arise.

Thank you for your cooperation.

Sincerely  
Teton Irrigation & Mfg. Co.  
Diana S. Richman, Secretary

MICROFILMED

WITHDRAWAL OF PROTESTS  
FILED AGAINST APPLICATIONS  
FOR PERMIT 22-7208, 22-7209  
& 22-7210

We hereby agree to withdraw the protests we filed against the above referenced applications for permit if their approval is subject to the following conditions:

1. The exchange of Teton River water for groundwater be under the control of the watermaster of water district 01.

2. The wells be cased and unperforated above the first confining layer to prevent interference with shallow wells and recharge to the river

3. That measuring devices of a type approved by the Dept. of Water Resources be installed and maintained at both the point where water is diverted from the river and at the point of injection.

Representing Water Users of the  
Wolfe Ditch Co. of the Teton  
Island Feeder Canal

MAR 14 1977

Department of Water Resources  
Eastern District Office

Dear Mr. Carlson;

This is to inform you that the Fremont-Madison Irrigation District respectfully requests withdrawal of protests to the following applications for permit to appropriate water:

|          |                             |
|----------|-----------------------------|
| #22-7205 | Bob Parkinson               |
| #22-7208 | J. Clint Hoopes             |
| #22-7209 | Earl N. Hoopes              |
| #22-7210 | Val Schwendiman Farms, Inc. |
| #22-7211 | DeMar &/or Terry Bott       |
| #22-7212 | Max &/or Merrill Rammell    |

After meeting with these gentlemen and discussing their proposed plans, it was the unanimous decision of the Board of Directors of Fremont-Madison Irrigation District to withdraw protests to the above applications.

Sincerely,

R. Willis Walker  
Chairman

BEFORE THE DEPARTMENT OF WATER RESOURCES  
OF THE  
STATE OF IDAHO

In the Matter of Protests Against Approval of  
Application for Transfer No. 22-0275/22-0274  
BOB PARKINSON; Application for Permit No. 22-7208  
J. CLINT HOOPES; No. 22-7209 EARL N. HOOPES;  
22-7210 VAL SCHWENDIMAN FARMS; 22-7211 DeMAR &/OR  
TERRY BOTT; and 22-7112 MAX &/OR MERRILL RAMMELL

NOTICE OF COMBINED  
CONFERENCE AND/OR  
HEARING

On January 25, 1977, Bob Parkinson filed with the Department of Water Resources an application to transfer the waters of the Teton River. The transfer was subsequently protested by the Good Luck Canal Company, Wolfe Ditch Company, and Teton Irrigation and Manufacturing Company. On February 10, 1977, J. Clint Hoopes and Earl N. Hoopes filed applications to appropriate water from a ground water source. On February 15, 1977, Val Schwendiman Farms, Inc.; and on February 22, 1977, DeMar and/or Terry Bott and Max &/or Merrill Rammell also filed applications to appropriate the public waters of the State of Idaho. These applications have been protested by the Fremont-Madison Irrigation District, Teton Irrigation and Manufacturing Company and the Wolfe Ditch Company.

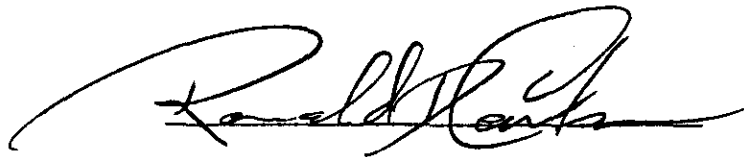

The Department has set the matter of protests for conference and/or hearing for Thursday, March 24, 1977, at 1:00 p.m., in the Courtroom of the Fremont County Courthouse, St. Anthony, Idaho. Because of the similarity of the issues involved this hearing has been combined. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

MICROFILMED

Failure to appear at the time and place set for hearing by the applicants or protestants may allow the Department without prejudice to dismiss the protests or the applications. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 9<sup>th</sup> day of March, 1977.

  
RONALD D. CARLSON  
Supervisor, Eastern Region

RE: Application for Permit No. 22-7210 VAL SCHWENDIMAN FARMS, INC.

Fremont-Madison Irrigation District  
Box 5  
St. Anthony, Idaho 83455

Gentlemen:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

RONALD D. CARLSON  
Supervisor,  
Eastern Region

R. Keith Higginson  
Director

Val Schwendiman Farms, Inc.  
Newdale,  
Idaho 83436

Dear Mr. Schwendiman:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your Application No. 22-7210. You should be aware that the following are the principal items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land, unless the applicant can show that more is required (Section 41-202, Idaho Code).

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Very truly yours,

RONALD D. CARLSON  
Supervisor,  
Eastern Region

22-7210 VAL SCHWENDIMAN FARMS

Mr. Glen F. Pincock  
Rt. #1  
Sugar City, Idaho 83448

Dear Mr. Pincock:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- (1) Will the proposed use reduce the quantity of water under existing water rights?
- (2) Is the proposed water supply insufficient for the purposes intended?
- (3) Is the application made in good faith or for delay or speculative purposes?
- (4) Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

Very truly yours,

RONALD D. CARLSON  
Supervisor,

MAR 7 1977

BEFORE THE DIRECTOR OF THE IDAHO DEPARTMENT OF WATER RESOURCES  
Eastern District Office

WATER ADMINISTRATION  
-----

IN THE MATTER OF THE APPLICATION )  
OF VAL SCHWENDIMAN FARMS, INC., ) PROTEST OF THE FREMONT-  
NUMBER 22-7210 FOR PERMIT TO ) MADISON IRRIGATION  
APPROPRIATE 15.5 CFS FROM THE ) DISTRICT.  
TETON RIVER. )  
-----

Comes now the Fremont-Madison Irrigation District, a quasi-municipal corporation of the State of Idaho, with its office and post office address at St. Anthony, Idaho, and in response to notice given that Val Schwendiman Farms, Inc., made application No. 22-7210 for a permit to appropriate 15.5 cubic feet per second of water from a ground-water source by means of well and pump within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ , Sec. 29, Township 7 North, Range 41 East, Boise Meridian, Fremont County. The water will be pumped into the Teton River and rediverted at a point within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ , Sec. 23, Township 7 North, Range 42 East, Boise Meridian, Madison County, to be used from April 1 to November 1 for the irrigation of 2,560 acres within Sec. 2, Township 6 North, Range 42 East, Boise Meridian, W $\frac{1}{2}$ E $\frac{1}{2}$ , W $\frac{1}{2}$ , Sec. 26, S $\frac{1}{2}$ N $\frac{1}{2}$ , S $\frac{1}{2}$ , Sec. 27, S $\frac{1}{2}$ NE $\frac{1}{4}$ , N $\frac{1}{2}$ SE $\frac{1}{4}$ , Sec. 28, N $\frac{1}{2}$ NE $\frac{1}{4}$ , Sec. 33, N $\frac{1}{2}$ NW $\frac{1}{4}$ , Sec. 34, Sec. 35, Township 7 North, Range 42 East, Boise Meridian, and makes the following Protest against the approval of such application:

1. That the supply of ground water is not sufficient to warrant the granting of such application as it will reduce the existing quantity of water under existing water rights, especially if there are drought conditions in this coming season and future seasons.

2. That the anticipation of the applicant to transfer waters through the Teton River is speculative because of the lack of sufficient water now in the Teton River to fill all existing rights and any such attempts

MICROFILMED

to "transfer" water will not be beneficial as the proposed pumps used to re-charge the river are below the major canal diversions on the river and therefore changing points of diversion would necessarily reduce the quantity of water in the Teton River and reduce existing water rights.

3. That the applicant does not have sufficient proof of financial feasibility from anticipated revenues to be derived from the anticipated use of the applied-for irrigation water to profitably construct such a project in light of the low crop prices and drought circumstances presently threatening this area.

4. That the present supply of water in the Teton River, a tributary of Henry's Fork, is not sufficient to warrant additional appropriation, which the granting of this application would necessarily allow, because there would be no way to recover transmission losses nor to regulate the exact amount of intake at the proposed pumping sites from April 1 to November 1; also there is no provision to insure that a like amount of water will be resupplied to the river above the existing major canal diversions.

5. That the proposed application is speculative and is not made in good faith as the applicant can just as easily drill for ground water on the property to be irrigated rather than on the property where the proposed pumping sites are to be located. Furthermore, the proposed transfer or exchange of water will reduce existing water rights as it does not take into consideration the transmission losses and the detrimental effect of such a proposal upon existing diversions which have earlier decreed rights.

R. Willis Walker  
R. Willis Walker, Chairman of  
the Board of Directors of the  
Fremont-Madison Irrigation District.

STATE OF IDAHO,                    )  
                                          SS.  
County of Madison.                )

R. WILLIS WALKER, being first duly sworn, says that he is the Chairman of the Board of Directors of the Fremont-Madison Irrigation District and he makes this verification for and on behalf of said District; that affiant has read the foregoing Protest and knows the contents thereof and as to the matters and things therein alleged, affiant believes the same to be true.

In the matter of Protest;

Subject; Val Schwendiman Application No. 22 7210

We wish to protest the application of Val Schwendiman for the permit to appropriate 12<sup>1</sup>/<sub>2</sub> cubic feet of water from a well in Madison County to replace water taken out in Teton County. ( and in support thereof respectfully represent the Wolfe Ditch Co. of the Teton Island Feeder Canal Co.)

We feel this action would be detrimental to our water supply and rights, and until we know the extent of damage to our irrigation systems and land as a result of the Teton Dam Disaster and the amount of water available we are protesting the permit to put water on Dry Farm Property that has no Irrigation History.

Furthermore we wish to be informed of the hearing on the application.

We also ask that a moratorium be placed on all well applications for one year until the Teton Dam Disaster Damage can be assessed and an environmental impact study can be made.

Respectfully ;  
Water Users of the Wolfe Ditch Co.  
of the Teton Island Canal Co.

BEFORE THE IDAHO DEPARTMENT OF WATER RESOURCES

IN THE MATTER OF THE APPLICATIONS OF } PROTEST  
BOB PARKINSON, VAL SCHWENDIMAN, J. CLINT } APPLICATION #22-0275, 22-0274  
HOOPES, EARL N. HOOPES } 22-7210, 22-7208, 22-7209

We, THE TETON IRRIGATION & MANUFACTURING COMPANY, do hereby protest the application #22-0275, 22-0274, 22-7210, 22-7208, 22-7209 for permits to drill irrigation wells and divert water from the Teton River, and in support thereof respectfully represent:

1. The Teton Irrigation & Manufacturing Company has rights in the Teton River and believes that these application, if permitted, would interfere with their existing water rights.

2. We are opposed to any permit that does not replace water above our headgate and believe that so many systems going in above our headgate would be a detriment to our system.

3. We believe that because of the present water and energy outlook in the area and state that no new permits should be allowed.

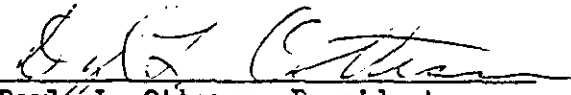

4. We believe that there are still many problems to be solved with the present canal systems on the Teton as a result of the Teton Dam failure and that there should be a moratorium on all new wells and systems until the repairs and evaluation of these problems can be made.

5. We believe that water tables in the area will be affected and that the stockholders have legitimate concerns about their culinary water supply being interrupted.

6. We believe that it will require a great deal of manpower to police the Teton River on a low water year and this would be an added burden to the water users.
