RE: Permit No. 22-7153

Lawrence Grover, Mayor
610 Center Street
Sugar City, Idaho 83448

Dear Sir:

It is the responsibility of the Department of Water Resources to provide for just distribution of water supplies. The Department has been given the authority to require water users to install and maintain approved measuring devices, Section 42-701, Idaho Code. Under this authority, the Department is requesting that you replace a broken in line meter (McCrometer 75-8-488) on your municipal well located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 4, T. 6N, R. 40E, B.M., Madison County.

Before your well can be licensed by the state, a functional meter must be installed and a field examination completed in order to accurately determine the rate of flow (c.f.s.) and annual volume (AF/yr) of water your city well is capable of producing.

We request that this meter be repaired or replaced sometime before March 17, 1977, at which time another field examination will be conducted. If you have any questions concerning the acceptability of some other device, or on details of construction, please do not hesitate to contact our Eastern District Office, 1515 Lincoln Road, Idaho Falls, Idaho.

Sincerely yours,

ANTHONY R. KOZLOWSKI

Dear Mr. Higginson:

I am writing in order to obtain an extension of time on Water Permit No. 22-7153 for Sugar City, Idaho.

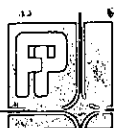

Due to the loss of records and general confusion following the flood, it has been impossible to get the Water Improvement Project under way. The majority of the problem has been solved and the Project is progressing; however, the permit expired on Sept. 1, 1976 and we require an extension of time.

Very truly yours,

Gentlemen:

One of the conditions of approval of your water Permit No. 22-7153 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
