MEMORANDUM

FROM: Ernie *eme*

DATE: March 3, 1983

TO: File 22-4083

The Notice of Water Right upon which this claim is based, preceeds the Rexburg Decree which included the Teton River and tributaries. If the Notice were correct, one would expect a right to have been decreed by the court. However, the only right ever perfected for the claimants property is license No. 22-2124. The license has a priority of 10/11/1937 for 2.60 cfs from 2 unnamed streams. One of the unnamed streams appears to have been the source identified on this claim.

Under the circumstances, it seems unreasonable for the claimant to have filed this claim, claiming a priority of 8-1-1901 especially after he transferred a licensed right with a later priority off of land included under the claim.
