STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Phil Gene Neibaur
(Name of Claimant)
Box 96, Newdale, Idaho 83436 Telephone No. 458-4454
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) April 1953

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
six inch water well tributary to _____

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(5) A) Point of diversion: (Location of point where water is diverted from its source)
Lot 8 1/4 ----- 1/4, Sec. 6 Twp. 5N Rge. 43E B.M., County of Madison
Additional points of diversion: _____

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change.
Diversion is by a 1/2 hp pump from a ground well.

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

B) If water is used for other than irrigation, fully describe that use, being as specific as possible:
Commercial swimming pool, and culinary purposes, also domestic
use for three homes.

NOTE: Include here the type and number of stock watered: _____
If you are claiming water as a member of an organization, list name of organization: Green Canyon Hot Springs Inc.

1. The first part of the document is a title page. It contains the title of the report, the author's name, and the date of the report. The title is "The Impact of Climate Change on the Environment". The author is "John Doe". The date is "10/10/2023".

2. The second part of the document is an abstract. It provides a brief summary of the main findings of the report. The abstract states that the report examines the impact of climate change on the environment, focusing on the effects of rising temperatures, sea level rise, and extreme weather events. It concludes that climate change is a significant threat to the environment and that urgent action is needed to mitigate its effects.

3. The third part of the document is the introduction. It provides a more detailed overview of the report's content. The introduction states that the report is based on a review of the scientific literature on climate change and its impacts. It also outlines the structure of the report, which includes a literature review, a discussion of the impacts of climate change, and a conclusion.

4. The fourth part of the document is the literature review. It provides a detailed overview of the scientific literature on climate change and its impacts. The literature review is organized into three main sections: the effects of rising temperatures, sea level rise, and extreme weather events. Each section discusses the current state of knowledge on the topic and identifies areas for further research.

5. The fifth part of the document is the discussion of the impacts of climate change. This section discusses the various ways in which climate change is affecting the environment. It includes a discussion of the effects of rising temperatures, sea level rise, and extreme weather events. It also discusses the potential for climate change to affect human health and the economy.

6. The sixth part of the document is the conclusion. It summarizes the main findings of the report and provides recommendations for future research. The conclusion states that climate change is a significant threat to the environment and that urgent action is needed to mitigate its effects. It also recommends that further research be conducted to better understand the impacts of climate change and to develop effective strategies for mitigation.

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

Dated this 24th day of October, 1988.

RE: Claim No. 22-4080

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

RONALD D. CARLSON
