Dear Mr. Ripplinger:

Enclosed is a copy of your original application for permit No. 33285 (new No. 22-2284) which did not include any land in Sections 16 or 21 as a place of use. We have searched our records for other filings for the irrigation of this land, but did not find any.

Since you do not have a permit covering Sections 16 and 21, you must file an application for permit if you wish to continue irrigating this land. We have enclosed an application for permit form with a set of instructions for filing for your convenience.

Other than the land that was not included, it appears that you agree with the findings of our field examiner, therefore a water license for the above referenced permit will be issued in ten days unless we hear from you.

Sincerely,

Dear Bobby D. Fleenor

It was my original intention to file for use of water from permit No. 1885/22-2284 on sections 16 and 21 as well as sections 15 and 22 as outlined in your letter of Sept. 18, 1971. I feel sure that I applied for use of water on all of these lands and have made beneficial use of this water on all three sections listed above. Will you please check my original application and see if my application asked for use on sections of sections 16, 21, 15 & 22 as I intended it should?

If through an oversight, I did not ask for use as above outlined, what is the best remedy? May I submit an amended permit? If so, must I pay another application fee? Can the forms you sent be used as an amended application or is a separate form needed?

Please let me know how this misunderstanding occurred and the quickest and least expensive remedy. I have accomplished the work and made beneficial use to portions of all four sections mentioned above.

Thank you

Mr. Ripplinger indicated that the land list that we show on this exam report was not correct, and that he originally applied for not only this land but also the land shown irrigated in Sections 16 & 21.

He requested that we check our records and make certain that it was not our error. Please let me know what you find out.

Also, do you have any record of a decree on Bell Marsh Creek, tributary to Marsh Creek, tributary to Portneuf River, in the case of Lew Carlile -vs- Riddy Canal Co., et al, in the District Court of the United States, District of Idaho, Eastern Division, F. S. Dietrich, Judge, dated June 11, 1924.

Dear Mr. Ripplinger:

A representative of this Department has made an examination of the works covered by your permit No. 33285/22-2284 and has found the following:

Quantity of water diverted: 1.0 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.0 cfs

The maximum quantity diverted shall not exceed 362 acre feet per year.

Beneficial use: Irrigation of 293 acres within the SW $\frac{1}{4}$ (151), Sec. 15; NW $\frac{1}{4}$ (142), Sec. 22; Twp. 5 N, Rge. 44 E, B.M.

Point of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 22, Twp. 5 N, Rge. 44 E, B.M.

The priority date established: Oct. 18, 1966

If you do not concur with these findings, please advise us within 10 days; otherwise, a water license will be issued as set forth above.

Our field exam report indicates that you are also irrigating 79 acres in Sections 16 & 21 which are not covered under this permit. Please be advised that you will be required to file an application for permit to cover this land before the next irrigation season. We have enclosed a partially completed application for your use. If you have any questions regarding this matter, please contact us.

6 x 8" portable mainline - 4" handmove laterals
3 to 4 lanes.

Part of land is fallowed each year.

REMARKS:

Crop growth is good without irrigation. With the portable mainline it is difficult to be sure which land really has been irrigated. The land shown as irrigated is that that Mr Ripplinger (along on exam) represented to me as being irrigated either this year or last year, to spread the water as far as he can, usually not even getting over once.

Dear Mr. Ripplinger:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for the above referenced permit. We note that you have listed 75 acres being irrigated in Sections 16 and 21. We wish to advise you that this permit can only be licensed to cover the SW $\frac{1}{4}$ of Sec. 15 and the NW $\frac{1}{4}$ of Sec. 22.

Before a license can be issued, a field examination must be made by a representative from this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than you should be contacted by the examiner, please advise.

Very truly yours,

Dear Mr. Ripplinger:

One of the conditions of approval of your water Permit No. G-33285/22-2284 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 28, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33285 (New No. 22-2284)

Mr. Francis Delano Ripplinger
Box 307
Driggs, Idaho 83422

Dear Mr. Ripplinger:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
