Dear Mr. McEldowney:

Re: Permit G-32276, Seth Wood

I am enclosing herewith the Notice of Existing Water Permit signed by Seth Wood. He discovered that his point of diversion was just over the line in the Northwest Quarter of the Southeast Quarter of Section 21, rather than in the SW $\frac{1}{4}$ SE $\frac{1}{4}$. I took the liberty of changing the notice to show the NW $\frac{1}{4}$ rather than the SW $\frac{1}{4}$. I am enclosing his Application for Amendment, together with my check in blank for the necessary fees.

Mr. Wood is ready to submit his proof under this permit.

Re: Permit No. G-32276 (New No. 22-2246)

Seth Wood
Rexburg, Idaho

Dear Mr. Wood:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit, ~~and are now submitting proof of beneficial use~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
