3. Describe effects on other water uses resulting from the proposed change:

City wishes to take two wells of line and replace them with one new well which will produce up to the 1.78 cfs water right on record with the State of Idaho. Water uses within the City of Newdale will not change.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willful misrepresentations made in this application may result in voiding its approval.

Subscribed and sworn to before me this 30th day of July, 19 93.

RE: Application for Transfer of a Water Right No. 4204

Dear Water Right Applicant:

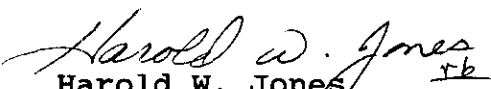

The Department of Water Resources acknowledges receipt of your permit for a water right transfer. This office is currently in the process of advertising the application in the Rexburg Standard Journal on August 26 & September 2, 1993. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a transfer is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor

RE: Application for Transfer of Water Right for City of Newdale

Dear Mr. Jones:

Please find attached a copy of an Application for Transfer of Water Rights for the City of Newdale. Also attached is a check from the City for \$50.00 to cover the application fee. Your early review of the attached information will be greatly appreciated.

You will notice under Part 1, #4, that I have listed two (2) locations as points of diversion. As you and I have discussed, the City is in the midst of drilling test wells to determine water quality at these two (2) locations. If the appropriate water quality is found at one of these locations, the City will wish to drill a new supply well at that location and the other location will not be needed and could be stricken from the application at that time.

The new point of diversion shown in Section 33 is inside the Adjudication and Trust area but the City of Newdale lies outside this area. Attached to this package you will find a letter from Mr. Jerry Rigby, attorney for the City of Newdale, written to Mr. John Rosholt, explaining the problem. Also attached is a letter from Mr. Rosholt expressing his intention to work with the City of Newdale and not protest the City's application for Transfer of Water Rights.

Please review this application as soon as possible. If you have any questions or comments, please do not hesitate to call me at 356-9201. Thank you for your help in this matter and I look forward to discussing it with you as soon as possible.

Sincerely,

Dear Jerry:

Twin Falls Canal Company and North Side Canal Company are not interested in providing any hurdles for the City of Newdale. If they aren't already exempt under Paragraph 5 of the January 6, 1993 Moratorium Order, they should be.

It isn't our intention to frustrate communities and wish Newdale luck with their new system.

RE: Newdale Transfer of City Water Right

Dear John:

I appreciate talking to you the other day concerning the problem with Newdale. As we discussed, Newdale has an existing city well and license for 1.78 cfs in the southern portion of the city. The problem is that the existing city well is extremely high in fluoride. EPA recommends 0-2 ppm and the existing well pumps water which has 5.2 ppm. Therefore the EPA has mandated that the city obtain water from another area which is not "hot" and high in fluoride.

I am enclosing herewith the map that I showed to you the other day which shows where the existing city well is as well as three potential sites for wells. No. 1 is barely in the border of the trust area. Nos. 2 and 3 are further into the trust area. Obviously No. 1 is the first choice in that its distance from the city is less and therefore the cost of construction would be less. No. 3 is an existing well, but would cost so much to pipe to the city that it would truly be a choice only if Nos. 1 and 2 are proven to be high in fluoride as well. Going any place but west of the city is unfeasible either in that it is the same "hot" area or that the distances involved are so great it makes it economically unfeasible.

Page - 2 -

Our concern is that if we file an application to transfer from the existing city well outside of the trust area to the other wells within the trust area, we would maybe receive a protest if the facts were not known. Therefore, we would like to work out a solution with you and your clients before we begin rather than have an immediate protest and go that route.

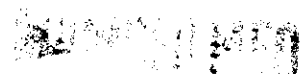

Please review these documents carefully and contact me with your suggestions. I appreciate your willingness to look into this matter.

Sincerely,

Jerry R. Rigby

OF WATER RIGHT
NO. 22-2217**

Notice is hereby given that the Village of Newdale, Newdale, Idaho, has applied to the Department of Water Resources for a change in the points of diversion of the waters of ground-water sources. The right sought to be changed is evidenced by License No. 22-2217 and is recorded as follows:

AMOUNT: 1.78 cfs; PRIORITY: Dec. 9, 1961; POINT OF DIVERSION: SW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, T. 7N, R. 41E, B.M., Fremont County.

The water is used for municipal purposes within the Village of Newdale and vicinity.

TO BE CHANGED AS FOLLOWS

The water will be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, T. 7N, R. 41E, B.M., Fremont County.

Any protest against approval of the above proposed change of water right must be filed with the Idaho Department of Water Resources, 1515 Lincoln Road, Idaho Falls, Idaho, on or before April 10, 1978.

P.O. Box 63
Newdale, Idaho 83436

Dear Honorable Mayor Harris:

Enclosed please find an application for the transfer of the points of diversion described on License No. 22-2217 for the diversion of 1.78 c.f.s. of ground water for municipal use in the Village of Newdale.

During our telephone conversation this date, you expressed your desire to retain the water right in one of the old existing municipal wells located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, T. 7N, R. 41E. The document I have prepared retains the water right in this well. The document proposes the transfer of the water right from the old municipal well located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 34, T. 7N, R. 41E and into the new well now being drilled in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, T. 7N, R. 41E. Therefore, approval of this transfer will enable you to legally divert ground water from the two wells described above for use in your municipal water system.

Please review the application and if it appears to be in proper form, place your notarized signature on the reverse side where indicated and submit the statutory filing fee of \$30.00, payable to the Department of Water Resources.

If you have any further questions, please feel free to contact me.

Nels T. Sahl
Village Attorney
Newdale, Idaho

Dear Mr. Sahl:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30327 in the name of Village of Newdale. Final Proof is to be made before you, as Notary on the 11th day of December, 1966, at 11:00 o'clock at 24 South Bridge Street, St. Anthony, Idaho.

As of this date, we have mailed the Notice to the Chronicle News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Dear Mr. Sahl:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30327 are due not later than Dec. 11, 19966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Mr. Sahl:

Returned herewith is the application for permit with attached check for \$5.00, with instructions.

The fee is \$5.25 for the amount of water claimed, 750 or 800 gallons per minute, see instructions and Idaho Code 42-202.

All future correspondence will be directly with the Village if you do not complete the top of the application.

Under remarks you indicate one well produces 150 and the other proposed well to produce 650 gallons per minute, or as shown in pencil under 2. We suggest municipal under 5, as that covers all uses common to a city. The time under 10 has been changed to five years, however the proofs can be made at any prior time.

Kindly show the location of both wells on two sketch maps.

Complete the application and return with the proper fee for processing.
