Re: Permit No. 29843/22-2209

Dear Mr. Koon:

We have received your letter of April 17, 1973, in connection with the above referenced permit. A portion of the delay in issuing the license is due to the source being listed as subterranean on the original permit whereas the water developed for your project is from a slough. The Department is now, however, prepared to issue a water license as follows:

Amount of water that can be recognized as beneficially used under
Idaho law: 1.48 cfs

The maximum quantity of water diverted shall not exceed 259 acre
feet per year.

Beneficial use: Irrigation of 74 acres from April 1 to Nov. 1 within
the N $\frac{1}{2}$ NE $\frac{1}{4}$ (64), Sec. 13, Twp. 5N, Rge. 38E, B.M. and NW $\frac{1}{4}$ NW $\frac{1}{4}$ (10),
Sec. 18, Twp. 5N, Rge. 39E, B.M.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 13, Twp. 5N, Rge. 38E, B.M. and
NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 18, Twp. 5N, Rge. 39E, B.M.

Priority date established: June 20, 1961

Source: a slough (subterranean)

There is a \$11.00 licensing fee due before the water license can be issued. If you concur with these findings, please submit the required fee within 30 days of the date of this letter in order that we may issue your water license as set forth above.

As you have noticed, your permit has been given a new number (22-2209). The state has been divided into areas according to drainage, and your permit is located in drainage basin 22 and is number 2209.

If you have any questions regarding the above matters, please contact us.

Sincerely,

I am sending a letter that was sent to the Department by my lawyer Mr T. Harold Lee, on May 4 1966. I hope it will help clear things up. As to my application for subterranean water. If it didn't take so long for the department to take care of these applications perhaps we wouldn't have these mix ups.

Gentlemen:

Reference is made to your form letter of April 4, 1966, relative to Permit No. G - 29843 - ROBERT KOON, addressed to Lee & Bates, Attorneys at Law, Rigby, Idaho, and to the enclosures.

In the accompanying form No. 36-4M I would have you note that the form provides that proof will be submitted of the completion of works for the diversion of 1.80 cu. ft. per second underground water from a "well". I note from the enclosures with your letter of April 25, 1966 on the application for Permit that the answer to No. 3 of the application for permit "Source of water supply" is "subterranean". I also note the answer to No. 7 of the application for permit "Kind of works:" is "pump and sprinkler".

Lest there be any misunderstanding that a well was drilled, I would have you note that the pump and sprinkler is not incident to a "well" but to waters which percolate into a slough and that the pump and sprinkler system does not emanate from a "well".

You are hereby authorized, and I have had the applicant affix his signature to this letter, to make such changes, if any, in the notice, which is enclosed in duplicate, as you may deem necessary to clear up this discrepancy, if in fact it is a discrepancy in your opinion.

Also enclosed is form 11, all of which forms are prepared and properly signed.

Very truly yours,

T. HAROLD LEE

Mr. Robert Koone called this office this afternoon in reference to a water right he says he has. He could not tell me much about the right, only that it (the well) is near Thornton (Basin 22), and he filed about 15 years ago. Dear Mr. Koon:

We are in receipt of your letter of February 19, 1968 on the above referenced permit.

Please be advised that further processing of your permit is pending a field examination. This examination has been delayed due to a large back log of field examinations in this department. It is hoped that a representative of the Department of Reclamation will be able to inspect your system and lands during the 1968 irrigation season.

You should be advised that your permit will not suffer due to the departments failure to promptly examine the permit. Please contact us if we may be of further assistance.

Gentlemen:

Reference is made to your form letter of April 4, 1966, relative to Permit No. G - 29843 - ROBERT KOON, addressed to Lee & Bates, Attorneys at Law, Rigby, Idaho, and to the enclosures.

In the accompanying form No. 36-4M I would have you note that the form provides that proof will be submitted of the completion of works for the diversion of 1.80 cu. ft. per second underground water from a "well" I note from the enclosures with your letter of April 25, 1966 on the application for Permit that the answer to No. 3 of the application for permit "Source of water supply" is "subterranean". I also note the answer to No. 7 of the application for permit "Kind of works:" is "pump and sprinkler".

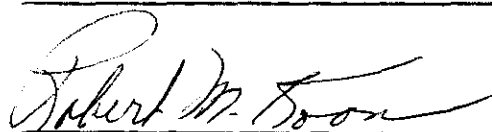

Lest there be any misunderstanding that a well was drilled, I would have you note that the pump and sprinkler is not incident to a "well" but to waters which percolate into a slough and that the pump and sprinkler system does not emanate from a "well".

You are hereby authorized, and I have had the applicant affix his signature to this letter, to make such changes, if any, in the notice, which is enclosed in duplicate, as you may deem necessary to clear up this discrepancy, if in fact it is a discrepancy in your opinion.

Also enclosed is form 11, all of which forms are prepared and properly signed.
