Dear Sirs,

Mrs. Rainey sent me these papers on an amended license on her wells. I sent her back and in looking over the application for amendment you have made a mistake on the total number of acres. I have drawn a map of the lands on the back of the application and corrected the total number of acres that are irrigated.

Mrs. Rainey also informed me that she can not find the original license.

After you have made the corrections on the application you can send it back to her for her signature.

If there is any question on this feel free to write me.

Thank you

Dear Ms. Rainey:

In 1968 the Department issued a water license under Permit No. G-29520. This file has been re-numbered to 22-2202.

In the Fall of 1969, question was raised concerning the accuracy of the license previously issued and a request was made for re-examination. The Department conducted the re-examination and we believe that there exists an error on the original license. The original license was issued for 8.65 cubic feet per second of water, and a recent examination indicates that a total of 11.46 c.f.s. should have been licensed. In order to accomplish this correction, we ask that you send back to the Department the original of License No. G-29520/22-2202 and execute the enclosed amendment. It is necessary to add the second well to your permit in order for you to benefit from the increased rate of diversion.

There is a \$10 amendment fee that will be required. If you have any questions concerning this matter, please contact us.

Very truly yours,

Donald W. McEldowney

8. What large stream would the water here appropriated finally reach?

Remarks: I have found the irrigated acreage to
be 736 acres as shown on the enclosed map
However there are two points of diversion
(See Pump data) they are NW 1/4 Sec 3 and NW 1/4
Sec 15. The two systems were both operating
with boosters and are connected together by
a common mainline 2 3/4 miles long. The
land was planted in grain and potatoes

Dear Mrs. Rainey:

Enclosed is a copy of our letter of February 8, 1968. In this letter, we requested you to complete the application for amendment and return it with a \$5.00 amendment fee, which when completed, would indicate the correct point of diversion for your permit.

Due to ~~the~~ oversight by this department, we failed to advise you that the amendment must be advertised in a county newspaper for two weeks at your expense before the final action may be taken.

We are enclosing form 11, authorization for the department to advertise the amendment at your expense. If you so desire the amendment to proceed further, please sign the form 11 so that we may begin the advertising, and proceed with licensing.

We thank you for your patience.

Dear Mrs. Rainey:

The Department of Reclamation has conducted a field examination on the above referenced permit and has found that the point of diversion on the permit is in error. Permit No. G-29520 lists the point of diversion as being located in the NW1/4, sec. 10, T. 5 N, R. 40 E, B.M.; whereas, the examination shows the actual point of diversion to be in the NW1/4, sec. 3, T. 5 N, R. 40 E, B.M.

Before final action may be taken on this permit, it will be necessary for you to amend the points of diversion. We are enclosing a partially completed amendment form for your use. Complete the amendment for and return with the \$5.00 amendment fee.

Dear Mr. Parker:

We are in receipt of your letter of September 2, 1967, on the above referenced permit.

We are enclosing current application forms used by the Department of Reclamation and instruction sheets. You will note that the forms and instructions have changed within the past year. The procedure, as of May 30, 1967, to file a water permit is somewhat different than you have been used to. Now an application, when received with fees and in proper form is advertised for two consecutive weeks. Following the final week of publication it is held 10 days for a public protest. If no public protests are received and the application is within the intent of the department, the permit would be approved for a maximum of 5 years. At the end of the 5 year period or at anytime the permit is completed, the applicant would submit to the department a deposition stating what work has been completed. Following the receipt of this deposition, the department would make a field examination of the lands and systems covered under this permit. The applicant would be advised as of the findings and a license would follow. You will note that all the fees are paid initially when the application is received in the department.

The majority of the state is open to the drilling of wells except for four limited areas that are restricted; located in Twin Falls and Cassia Counties, Idaho.

If we can be of further assistance, please contact us.

She now desires to start drilling the other well and wishes to know just what steps should be taken to comply with the rules and regulations of the State Department of Reclamation.

Will you please advise me in this matter so that I may pass the word to Mr. Murset?

Thank you very much for any favor received at your hand in this matter.

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Rexburg Standard all submitted in proof of completion of works and beneficial use on Permit No. G-29520.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Mr. Ralph A. Parker,
135 East Main St.,
Rexburg, Idaho.

Dear Mr. Parker:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29520, in the name of Veda W. Rainey. Final Proof is to be made before you, as Notary on the 2nd day of March, 19 66, at 3:00 o'clock P.M., at 135 East Main St., Rexburg, Idaho.

As of this date, we have mailed the Notice to the Rexburg Standard Rexburg, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN

Re: Veda W. Rainey,
Permit No. G-29520.

Dear Mr. Tappan:

Enclosed herewith are forms No. 36, in duplicate, and No. 11 as requested in your letter to me of the 1st of January, 1966.

Well No. 2 as described in the application made by Mrs. Rainey is not quite in operation nor proven as yet and Mr. James W. Howe, who is leasing the farm from Mrs. Rainey, requested me to mention this fact to you.

James W. Howe and Gerald K. Ball, both of Rexburg, will make the depositions at the hearing. Thought it probable that you would like to have this information.

Very truly yours,

Ralph A. Parker

Re: Permit No. G - 29520 - Veda W. Rainey

Ralph A. Parker

Rexburg, Idaho

Dear Mr. Parker:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29520 are due not later than **March 2, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN

Dear Mr. Parker:

Your letter of November 10th has been received. The Power of Attorney has been noted on the Permit record and has been placed in the permit file. The amendment forms you enclosed are returned herewith.

The amendment to the land list shows that there is no change in the land so why file such a request?

The amendment to the point of diversion shows the point, as in the permit, to be in NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 3, and requests it to be moved 275 feet south, still in the same 40-acre subdivision. The permit record shows two points of diversion, one in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 10, and one in NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 15, all being in T. 5 N., R. 40 E. No amendment is necessary if the new point is still in the same 40-acre subdivision. The description should show the 40-acre subdivision unless the well has been drilled and proven satisfactory.

There is a fee of \$1.00 for recording any amendment to the permit.

Re: Application for Permit
Veda W. Rainey.

Gentlemen:

Attention Mr. Ralph W. Thomas,
Deputy State Reclamation Engineer.

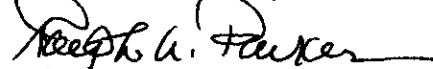

In reply to yours of the 21st of February I return herewith the revised Application Form No. 3 in which you have made changes. I would have submitted a corrected application but had no Blank Form No. 3.

Also enclosed is my Trust Account Check No. 1240, drawn in the sum of \$7.50 as the fee for 14.16 cubic feet per second of water as required by the revised application.

This is in accordance with your instructions.

Thank you very much for your assistance in this matter and if there is anything further required in this case please let me know.

Very truly yours,

Ralph A. Parker, Agent.

Dear Mr. Parker:

Returned herewith is the application for permit with your attached check for \$8.75 filing fee.

The plan shows 708 acres to be irrigated. The maximum amount of water which can be claimed is one miner's inch per acre without substantial evidence that more water is necessary. The amount has been changed in red pencil to 14.16 cubic feet per second, for which the filing fee is \$7.50. The amount can be changed to a lesser amount if desired. Show under 7 whether the land will be irrigated by ditches or by sprinkler system.

Kindly return the application for permit with the proper filing fee for the amount claimed and it will be processed.

Dear Mr. Parker:

We enclose Permit No. G-29520 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-5723 which was issued covering payment in the amount of \$8.50 for the filing fee of the above mentioned permit.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.
