APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 37134
Permit No. G- 29140
District No.

1. Name of Applicant: Dean Schwendiman
Postoffice address: Newdale County: Fremont State: Idaho
2. Quantity of water claimed: 4.8 cu. ft. per second
(a) Rate of withdrawal in cubic feet per second 4.8 or Idaho
Miners' inches 240 or gallons per minute
(b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean from well
4. Location of point of diversion or well is in the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 8
Twp. 7 N , Rge. 42 E , B.M., County of Fremont
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well
8. Estimated cost of works: \$25,000.00
9. (a) Is reservoir to be used? no
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
II. The financial resources of the applicant are (a) Cash onhand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: none
(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
(b) 4.8 (cubic feet per second, inches or gallons per minute) is for new lands.

NOTICE OF PROOF OF
COMPLETION OF WORKS
AND
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 a.m., on the 11th day of December 1965, at Idaho Falls, County of Bonneville, State of Idaho before Marjorie U. Ball, Notary Public, at Cope Drilling & Pump Co., P. O. Box 1196, proof will be submitted of the completion of works for the diversion of 4.8 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-29140, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Dean Schwendiman, Newdale, Idaho.

2. Said works of diversion will be fully complete on the date for such completion, and the amount of water which said works are capable of conveying to the place of use is 4.8 cubic feet per second.

3. The use to which said water has been applied is irrigation, purposes and the amount applied to beneficial use is 4.8 cubic feet per second.

4. The point of diversion of said water is NW¼ of SW¼ of Section 8; Twp. 7 No. Range 42 EBM in Fremont County.

5. The place where said water is used is SE¼ of NE¼ & NE¼ of SE¼ of Section 7; N½ of S½ of Section 8 of Twp. 7 N; Range 42 EBM

6. The date of priority which said user is prepared to establish is Nov. 14, 1960.

Re: Permit No. G-29140 - Dean Schwendiman

Sept. 1, 1965

Cope Drilling & Pump Co.
Box 1134
Idaho Falls, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-29140 are due not later than Nov. 21, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

LICENSE OF WATER RIGHT

License of Water Right No. 29140/22-2193 Priority Dec. 4, 1960 Amount 1.55 cfs
(late proof)

THIS IS TO CERTIFY, that DEAN SCHWENDIMAN
of Newdale, Idaho, has complied with the terms and conditions of Permit
No. 29140/22-2193 issued pursuant to Application for Permit dated November 14, 1960,
and has submitted proof to the Department of Water Administration on December 11, 1965,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 1.55 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:

Amount 1.55 cfs for irrigation from April 1 to Nov. 1 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 1.55 cfs of water be diverted at
any one time, said waters to be diverted within the _____

NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 8, Twp. 7 N, Rge. 42 E, B.M.

in the county of Fremont; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 657.9 acre feet per year or
3.5 acre feet per acre.

Description and location of place of use:

RE: Water Right Nos. 22-07020, 22-07721, 22-02193 and 21-07418

Dear Mr. Schwendiman:

I am writing in response to your request for information about water rights 22-07020, 22-07721, 22-02193, and 21-07418. IDWR records show that 22-07020 and 22-02193 are licensed water rights. Right 22-07721 is a permit for which you submitted proof of beneficial use in 1995. A field examination has not yet been conducted for 22-07721. I have enclosed printouts showing the elements of water rights 22-07020, 22-07721, 22-02193.

Permit 22-07418 lapsed in 1993 after your second request for extension of time to submit proof of beneficial use was denied. It is of no force or effect. A copy of the lapse notice sent in 1993 is enclosed for you. The permit cannot be reinstated unless you submit a proof of beneficial use statement with the appropriate examination fee and sufficient evidence to clearly establish the extent of beneficial use made prior to July 1, 1993, which is the date proof was due.

In your letter you indicated that you are finishing a second point of diversion for permit no. 22-07721. I have inspected the water right file and do not see any indication that you have been authorized to develop a second point of diversion for 22-07721. Because you have already submitted proof of beneficial use for 22-07721, the best way to obtain authorization to add a new point of diversion is to get the right licensed and then file an application for transfer with IDWR.

- Before a license can be issued, IDWR will have to conduct a field examination of your development. I spoke with Keith Wilson in our Idaho Falls office, and he would like you to call him at 208-525-7161 at your earliest convenience to schedule the field examination.

To add a point of diversion to a water right that is already licensed, such as 22-07020, you should file an application for transfer with IDWR. I suggest that you discuss this option with Keith Wilson.

In order to establish a right to divert water in excess of the diversion rate and volume authorized under your existing licenses and permits, you must file an application for permit with IDWR. Since 1992 there has been a moratorium on the issuance of new permits for consumptive uses of

Dean Schwendiman
May 9, 1997
Page 2

both ground water and surface water in the Eastern Snake River Plain area. Therefore, you may file an application at this time to establish your priority, but the application will not be processed until the moratorium is modified or lifted.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

A handwritten signature in black ink, appearing to read "Shelley Walter Keen". The signature is fluid and cursive, with the first name "Shelley" being the most prominent.

Dear Sirs:

We are getting close to finishing, we hope, our well for the 2nd diversion point for our permit to appropriate water, permit # 22-7721. We should have them both ready for proof this irrigation season.

We also have, for our farm operation, two other sources of water permit # 22-7020 and 21-07418 that are producing more water now, because of hole development, different pump bowls & pump depth setting. They are both producing more than the licenses on them. Is it possible to add 2 more

MAY 12 1997

points of diversion for permit #
22-7721 + get licensed for what
they, #22720 + 21-0714, actually
produce now. The permit #22-7721
is for much more water than
we expect to get from even the
two wells that will be a part of
it. We hope this can be done.

If more information is needed,
such as maps a water system
let me know. Our total farm
irrigation system is all totally
connected to help cover any single
system failure. The land is all
covered for water under permits
& licenses, so no new acreages
would be served. Thanks.

Very truly yours,
Dean Schwaenchen

Copy of amendment

Receipt #8398

bc: Eastern District Office

22 2193

April 5, 1972

Mr. Dean Schwendiman
Newdale,
Idaho 83436

Dear Mr. Schwendiman:

A representative of this Department has made an examination of the works covered by your Permit No. 29140/22-2193 and has found the following:

Quantity of water diverted: 1.55 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.55 cfs

The maximum quantity of water diverted shall not exceed 657.9 acre feet per year.

Beneficial use: Irrigation of 229.6 acres within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ (36), NE $\frac{1}{4}$ SE $\frac{1}{4}$ (36.7), Sec. 7; N $\frac{1}{2}$ SW $\frac{1}{4}$ (78.6), N $\frac{1}{2}$ SE $\frac{1}{4}$ (78.3), Sec. 8; Twp. 7 N, Rge. 42 E, B.M.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 8

The priority date established: December 4, 1960 (late proof)

Our field examination report indicates that the point of diversion is within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8, however your permit lists the point of diversion within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8. If this is indeed correct, you will be required to amend the permit before a license can be issued. We are enclosing a partially completed application for amendment form for your use. Please complete the application and return it to this office with a \$10.00 filing fee.

As there is also a \$17.00 licensing fee due, a fee totaling \$27.00 along with the amendment application must be submitted within 30 days of the date of this letter in order that we can issue your Water License. If you do not concur with these findings, please advise us within the 30 day limit.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

REPORT OF EXAMINER

Permit No. G-29140 / 22-2193

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Dean Schwendiman

2. Source of water supply: Subterranean

3. Location of point of diversion: Is in the NW 1/4 SW 1/4 of Section 8
T. 7 N R. 42 E.B.M. County of Fremont

4. Describe works as they exist, giving dimensions and capacities of same:

Pump data on Page Back

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SE 1/4 NE 1/4, NE 1/4 SE 1/4 Sec. 7., N 1/2 SW 1/4, N 1/2 SE 1/4 Sec. 8., Twp. 7 N., Rge. 42 E.B.M.

An amendment is required in the location of the well, it is in the NE 1/4 SW 1/4 Sec. 8. The land was planted in potatoes and grain - All water was on the potatoes as the grain was being harvested

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks:

Five lateral were operating. 33 9/16" heads on each at an average of 55 psi
 $Q = (5)(33)(4.22) / 450 = 1.55 \text{ CFS}$. This was a very efficient sprinkler setup there were no leaks and no waste water

This examination was made on the 18 day of Aug, 1970

Made Rec. 11, 1965

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. G-29140

Dean Schwendiman
Nampa, Idaho

Dear Mr. Schwendiman:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the CHRONICLE NEWS, all submitted in proof of completion of works and beneficial use on Permit No. G-29140.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

DEPOSITION OF HOLDER

Ques. 1. State your name, residence occupation and postoffice address: Dean Schwendiman

Newdale, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf:

Ques. 3. State number, approval date of permit, and date of priority: G 29140

Approval Date 11-21-60

Priority Date 11-21-60

Ques. 4. State source of water supply: Subterranean from well

Give location of point of diversion, showing subdivision, section, township and range

NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 8; Twp. 7No. Range 42 EBM County of Freement

Ques. 5. Describe your works of diversion: Drilled well with sprinkler system

_____ ; state amount of water they are capable of conveying from point of diversion to place of use: 240 GPMhes ; Give name of canal or ditch or other works by which water is conducted to such place of use: none

_____ ; if a well, state depth of well 802 Ft. ; depth and size of casing 255 Ft. of 16" casing and 46' of 12" casing ; depth to water 360 Ft. ; if pump is used, state discharge of pump: 240 GPMhes ; tell how it was measured or determined orifice

_____ ; if sprinkler irrigation, give number and size of nozzles and operating pressure: 165 5/32nds 40.45 #

Ques. 6. State for what purpose water is used: irrigation

(If for irrigation, name each subdivision in which used and number of acres in each subdivision that have actually been irrigated with said water:

Twp. 7N; Range 42 EBM Section 7= SE $\frac{1}{4}$ NE $\frac{1}{4}$; NE $\frac{1}{4}$ SE $\frac{1}{4}$

Section 8= N $\frac{1}{2}$ of SW $\frac{1}{4}$; N $\frac{1}{2}$ SE $\frac{1}{4}$

No log

29140

State nature of all improvements which have been made as a direct result of said use:

Ground under irrigation and increased tax rolls

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: Walter Cope...Terreton. Idaho

Ques. 7. If for other than irrigation purposes, show full legal description of place of use and state purpose for which water is used:

Ques. 8: If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Quest. 9: State when and in what amount the water diverted under above mentioned permit has been first used: 1963 irrigation season - Time used since first use:

each irrigation season

Ques. 10. Describe all other water rights appurtenant to same place of use: none

Marjorie U. Ball,
Cope Drilling & Pump Co.,
Box 1196,
Idaho Falls, Idaho.

Dear Mrs. Ball:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29140, in the name of Dean Schwendiman. Final Proof is to be made before you, as Notary on the 11th day of December, 19 65, at 11:00 o'clock A.M., at Cope Drilling & Pump Co., Idaho Falls, Idaho.

As of this date, we have mailed the Notice to the Fremont Chronicle News St. Anthony, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Re: Permit No. G-29140 - Dean Schreindorfer

Cope Drilling & Pump Co.
Box 1134
Idaho Falls, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-29140 are due not later than Nov. 21, 1963

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER

Re: Application for Permit
Orme Jergensen, Dean Schwendiman

Cope Drilling and Pump Co.
Box 1134
Idaho Falls, Idaho

Dear Mr. Cope:

We received two applications for permits, one in the name of Orme Jergensen and one in the name of Dean Schwendiman with individual checks signed by the principals.

The Jergensen check for 14.4 c.f.s. is for \$8.25, whereas it should be \$8.50. The Schwendiman check is for \$6.25 where it should be for \$6.00.

The two checks can be accepted together for the proper fees or you may remit \$0.25 to complete the fee for Jergensen and we will refund \$0.25 to Mr. Schwendiman when the permit is mailed.

Kindly advise at your earliest convenience.

Very truly yours,
