Other Rights: None

Filed: Oct. 17, 1960

Due: Oct. 20, 1965

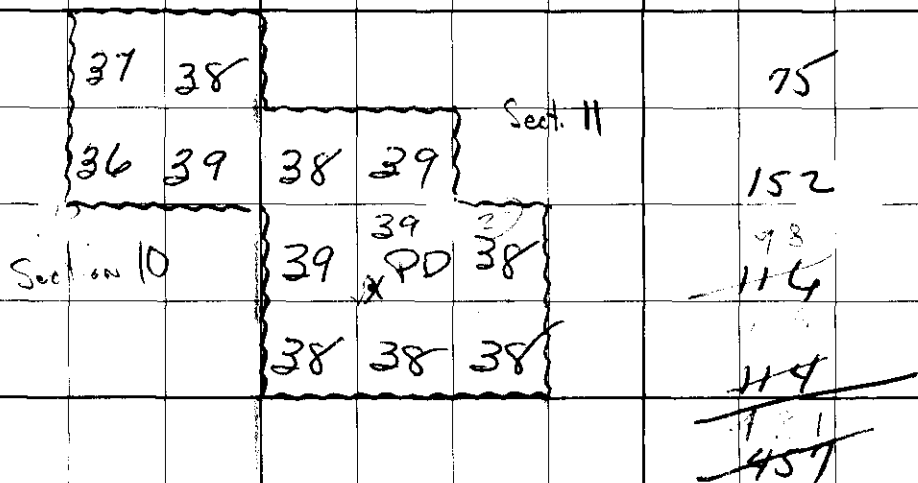

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. G-29086

Clyde P. Packer, President
Packer Farm Corporation
321 E. 3rd So.,
Rexburg, Idaho

Dear Mr. Packer:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the ~~REXBURG STANDARD~~, all submitted in proof of completion of works and beneficial use on Permit No. G-29086.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Thatcher:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29086, in the name of Packer Farm Corporation. Final Proof is to be made before you, as Notary on the 19th day of October, 19 63, at 11:00 o'clock A.M., at Rexburg, Idaho, Idaho.

As of this date, we have mailed the Notice to the Rexburg Standard or Journal, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Dear Mr. Packer:

Returned herewith is Form 36 you sent with 2 blank Forms 36 and one Form 11, also form to amend the point of diversion.

You must file the three blank forms in this office, all completed.

At top of Form 36 show the date you wish to make the proofs which should be set with the Notary Public to be sure he will be in town. That date should be about 40 days after the date you return the forms.

You wrote you were using 11 sprinkler lines with about 2500 gallon per minute of water. That is equal to about 5.5 cubic feet per second. However ordinarily you wouldn't run that much water through 11 lines. We do not know how much water you obtained from your first well.

Your first well is shown on the map close to the east west center line of Sec. 11. If you moved 50 feet, it is possible the new well is in the SE1/4SW1/4, Sec. 11. You can probably check that by the sprinkler lines in W1/2SW1/4, Sec. 11. Do equal length lines come closer to the south side of your place than the north line? Enclosed is form to amend the point of diversion to be used if the well is not in the NE1/4SW1/4, Sec. 11. There is a fee of \$1.00 for recording an amendment.

You must have your permit as your witnesses have to swear they have read the permit and know the conditions.

Dear Mr. Thomas:

Thanks for your letter of Aug. 11, 65.
I think the original description of the
location of the well would suffice for the
new one as it is only fifty feet south of
the first one. It is the only well I have.
The well I am using could well be under
the original permit as you suggest.

The date for completion of the new
well was about Jan. 1, 1964.

I am a little confused about the
amount of water I had in my first
application & amount produced now.
We can run eleven quarter mile lines
now, about 2500 gal ^{556 cfs.} per minute. How would
that compare with 9 cfs per second? Please
advise if I should document if I am getting
more water now than before & how much.

Yours sincerely,

RE: Permit No. G-29086
Packer Farm Corporation

Clyde P. Packer
Rexburg, Idaho

Dear Mr. Packer:

We received your letter in regard to the first well being crooked and a second well that has been drilled, the first well being abandoned.

You do not give any information as to the location. Possibly you mean the well under Permit No. G-29086 in the NE1/4SW1/4, Sec. 11, T. 6 N., R. 41 E., S. 10. I find no other recorded well in your name.

You can retain your priority on the new well up to the amount you had from the old well, or if the well is the one under the above permit, you will have the right to the amount from the new well up to the 9 c.f.s. claimed on the permit.

You will have to make proof of completion of works and beneficial use of the water under the permit on or before October 20, 1965.

Kindly advise if the well in question is not under the above noted permit.

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer

Mr. Carl E. Tappan
State Reclamation Engineer:

Dear Mr. Tappan:

In regard to your letter of Aug 2, and our phone call today I am using this letter to answer both. I explained my situation to (Mr Harris) I believe it was to whom you referred me and he suggested I write my problem to you and the matter would be settled.

I dug my first well and received approval and chronological rights about five years ago. I don't want to lose that priority. This last well was necessary as the first one was too crooked. It broke my pump twice. We drove the well about fifty feet from the first one and of course we do not use the first well.

Please advise if its O.K. and if I can retain my right. Thanks! Yours truly,

Clyde P. Packer 29086

Dear Mr. Packer:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29086 are due not later than **Oct. 20, 1965**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

STATE RECLAMATION ENGINEER
