Dear Mr. Neville:

This is in reply to your letter of May 1, 1967, regarding the examination of the above referenced well. Since this office receives many applications of proof each month, we are somewhat behind in our examinations. I have checked with our field engineer and he states he or one of his crew should be in your area this July or August. At that time an examination can be made and a license issued.

Sorry for this long delay in the examination.

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Rexburg Standard, all submitted in proof of completion of works and beneficial use on Permit No. G-28717.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.
