Dear Mr. McEldowney:

As we have not heard from you yet, we thought it might be quicker if we mailed the money for the fee immediately. If you have decided that one permit is sufficient then you could refund half of the money but if not, then please send the two permits.

We have been trying to get this permit through for a long time but we strongly urge you to consider the March 9, 1960 date. We have used the well since that time and surely feel that it should be the priority date on the well permit or permits, which ever you approve.

We will be expecting to hear from you soon. Enclosed you will find the check for \$66.00.

Thank You,

Dear Mr. McElldowney:

We are concerned about these two letters, which are enclosed. Both letters refer to the same farm and same well. They are not separate. It is a partnership with nothing divided. Income taxes and all are figured on one farm also we have one large loan through Production Credit Association.

In 1962, I believe, when we had so many potatoes frozen in the ground, it was necessary for us to get extra aid from somewhere. FHA loaned the money but they loaned part to Edward and part to Donald ... thus giving more total money. It was then put into the farm account. On their records they show part of the farm belonging to Edward and part to Donald. However, they know and we know it is all one.

We have had a permit on this well since March 9, 1960 as you have written on the one letter. We feel it should still be with this priority date but that our fee should only be \$33.00 total for this well. We couldn't operate the farm with any less water rights.

Would you please let us know immediately how you feel about this? We will send the money as soon as we hear from you as our expiration date is about up. Sorry to be late with this reply but we are really involved with harvest.

Thank you,

Dear Mr. Peterson:

Both the above permits are in good standing. The proofs of completion of works and beneficial use are in. However, the field examination by our office has not been completed. As soon as the examinations are completed a water license will be issued. We will have an examiner in that area for the next two weeks and they may be examined then, or at least during this irrigation season.

If we can be of further assistance please feel free to contact this Department.

Re: Permits No. G-28563 and G-30794
Edward H. and Donald L. Parkinson

Gentlemen:

The Parkinsons have contacted me concerning the above numbered permits. The Affidavit of Publication, together with depositions of holder and two witnesses, showing proof of completion of works and application of water to beneficial use were submitted to your office for these permits on July 10, 1964. To this date, however, your Engineer has not been out to inspect the works, and these people have not received their License. They are in the process of obtaining an F.H.A. loan and cannot get their application approved without this license.

Could we please have some word as to when you might get this license issued. Thank you.

Yours very truly,

Edward H. & Donald L. Parkinson
Rexburg, Idaho

Gentlemen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the REXBURG STANDARD, all submitted in proof of completion of works and beneficial use on Permit No. ~~Q-28561 & Q-30794~~.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Rigby:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 0-28563 & 0-30794, in the name of Edward H. and Donald L. Parkinson. Final Proof is to be made before you, as Notary on the 25th day of June, 19 64, at 10:00 o'clock A.M., at 25 North Second East Street, Rexburg, Idaho.

As of this date, we have mailed the Notice to the Rexburg Standard Rexburg, Idaho, with instructions to publish it once a week for 3 consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done hereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Re: Permit No. G28563 & G30794

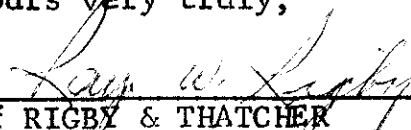

Dear Mr. Tappan:

Mr. Edward H. Parkinson has asked the aid of this office in preparing his notice of proof of completion of works and application of water to beneficial use concerning the above numbered Applications for Permit. It is our information that he originally filed under Permit No. G28563 for 6.4 cubic feet per second of water; that thereafter and on November 14, 1962, your office granted him an amendment to said application wherein he changed the description of the land under the application and also, on that date, he assigned an interest in said Permit No. G-28563 to Donald L. Parkinson.

Thereafter the Farmers Home Administration, who was helping with the financing of the farm, prepared another application for the Parkinsons (Permit No. G-30794), asking for an additional 2.5 cubic feet of water per second. However, this application included the same land as the amended Permit No. G-28563.

Now that the Parkinsons are ready to submit proof of completion of works and application to beneficial use, we are wondering if it will be necessary to prepare two separate notices, one for each of the Permits, and have two separate publications. If so, please send one more set of forms to this office, as we have one completed for Permit No. G-28563 at this time. Thank you.

Yours very truly,

RE: Application for Permit
Permit No. G-28563

Edward H. Parkinson
Rexburg, Idaho

Dear Mr. Parkinson:

Returned herewith is your application for permit with attached check for \$5.50 filing fee.

The point of diversion is the same and the land list is a part of the land under Permit No. G-28563. The map and the land list in the application are completely different. The penciled subdivisions at the bottom of the page show the west half and the east half reversed.

We fail to find any reason for this application as it appears to cover the ground already covered by a permit with one miner's inch per acre of land. If you are irrigating or intend to irrigate only 150 acres from the well, and the land is included under Permit No. G-28563, this application is not necessary as you can prove use of water on any portion of the land included in the permit land list under Permit No. G-28563.

Re: Application for Permit

Mr. Edward H. Parkinson
Rexburg, Idaho

Dear Mr. Parkinson:

We acknowledge receipt of your application for permit to appropriate subterranean water with attached check for \$5.75.

You show amount of water claimed as 320 inches or 6.4 cubic feet per second, filing fee \$6.50, and also 2000 g. p. m. 2000 g.p.m. is equivalent to 4.45 c.f.s., filing fee \$6.00.

You failed to answer 13.- Existing water rights appurtenant to the lands to be irrigated.

Kindly send this office the balance of the filing fee, amount of water claimed and information concerning any existing water rights on the S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 14, NW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 23, T. 6 N., R. 40 E.

In our letter of February 23, we note you had shown 1800 gallons per minute for which the filing fee is \$5.75.

Very truly yours,

GEO. W. CARTER
State Reclamation Engineer

Dear Mrs. Rule:

In regards to your letter of March 9, we showed the water permit claiming for 320 inches or 6.4 cubic feet per second; filing fee \$6.50.

We have already sent you a check for \$5.75. Therefore, we are enclosing a check for \$.75 to cover the full amount.

You also mentioned that we failed to answer question 13 pertaining to the land to be irrigated. This particular piece of ground that we plan to irrigate has had no water right. This land has been farmed for about 50 years in a dry farm project.

Very truly yours,

Edward H. Parkinson

Re: Application for Permit

Mr. Edward H. Parkinson,
Rexburg, Idaho.

Dear Mr. Parkinson:

We return your Application for Permit with attached check in the amount of \$7.50.

Under quantity of water claimed, you show "320 inches" or 6.4 cubic feet per second, for which the filing fee is \$6.50; also, you show 1800 gallons per minute or 4.0 cubic feet per second for which the filing fee is \$5.75, all at the rate of \$5.00 for the first cubic foot per second plus \$0.25 for each additional cubic foot per second or fraction thereof. The maximum amount you can claim is 320 inches to irrigate 320 acres. Kindly scratch the wrong amount, and make the check for proper filing fee made out to the State Department of Reclamation.

Under No. 10, we have changed the time to 5 years, however, you can make the proofs at any time.

Under No. 13, bottom page 2, show any existing water rights on the land to be irrigated under this application.

If this application is made in connection with a Desert Land Entry, the Bureau of Land Management requires two copies of the approved permit, one of which must be certified. This office will prepare the two copies and send them to the Bureau of Land Management for a fee of \$2.00, which should be added to the filing fee.

Kindly return at your earliest convenience.

Very truly yours,
