PERMIT NO. G-27326

REPORT ON PROOF OF Completion of Works & Beneficial Use

V. G. Ashcraft, Teton City, Idaho

November 15, 1960

RE: Permit No. G-27326

V. G. Ashcraft
Teton City, Utah

Dear Mr. Ashcraft:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in The Rexburg Standard, all submitted in proof of completion of works and beneficial use on Permit No. G-27326.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER

Dear Miss Smith:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27326, in the name of V. G. Ashcraft. Final Proof is to be made before you, as Notary on the 1st day of September, 1960, ~~1959~~ at 10:00 o'clock A.M., at 70 East Main, Rexburg, Idaho.

As of this date we have mailed the Notice to the Rexburg Standard or Journal with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Mr. Ashcraft:

We enclose Permit No. G-27326 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

We also enclose departmental receipt No. G-3253, which was issued covering payment in the amount of \$6.00, for the filing fee of the above mentioned permit.

Dear Mr. Ashcraft:

Relative to your application for permit, we have raised the amount of water filed from 1.75 cubic feet per second to 4.8 cubic feet per second or 240 miner's inches, allowing you one inch per acre for the land irrigated.

We are returning herewith your check to the amount of \$5.25 and are keeping your check just received for the amount of \$6.00, which is the correct fee for filing on 4.8 cubic feet per second.

Your application will be processed through this department and you can expect the receipt of same in about ten days.

Dear Mr. Ashcraft:

This will acknowledge receipt of your letter of April 4, 1958 enclosing Application for Permit to appropriate 1.75 cubic feet per second from subterranean flow with a well located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 16, Township 6 North, Range 41 East.

You state in your letter that you would welcome any suggestions as to correction of data submitted or additional information required. You state under Question (12) of the application that you are going to irrigate a total of 250 acres less 10 acres for waste land which gives an irrigable acreage of 240 acres.

We could allow you on this filing, 240 inches or 4.8 cubic feet per second. Providing you wish to file on more water, it will be necessary that your well will produce more water than 87 $\frac{1}{2}$ miners inches and if you only filed on 87 $\frac{1}{2}$ inches, that is all the water that you could prove up on under the permit.

The amount of cost of filing on additional water is very small. The cost for filing on 4.8 cubic feet per second would be \$6.00 compared with the filing on 1.75 cubic feet per second, of \$5.25.

We will await hearing from you prior to processing your application. Providing you do file for the additional water, we will return your check to the amount of \$5.25 upon the receipt of your check for \$6.00.
