

Land Subdivisions - 1

NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 8-T4N-R40E=27ac.

Subdivisions = 1

Area = 27 acres.

Q = 27 inches

Quantity of Water - At least 27"

The land is sandy and requires a much larger head than 27 miners inches - 2 cfs. would be desirable. The pump and the pit would probably supply this stream of water. Suggest 2 cfs. on rotation basis.

Except for gravity water during high water period these irrigation works have supplied the water for the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 8-T4N-R40E each year since 1947 except in 1956 and so far in 1957.

NOTICE OF PROOF OF COM-
PLETION OF WORKS

and
APPLICATION OF WATER TO
BENEFICIAL USE

Notice is hereby given that at
10:00 a.m., on the 16th day of
March, 1957, at Rigby, County of
Jefferson, State of Idaho, before
T. Harold Lee, Notary Public, proof
will be submitted of the comple-
tion of works for the diversion of
0.6 cubic feet per second of under-
ground waters from a well, and
of the application to beneficial use
of said water, in accordance with
the terms and conditions of Per-
mit No. G-25539 heretofore issued
by the Department of Reclamation
of the State of Idaho.

1. The name and postoffice ad-
dress of the person or corporation
holding said permit are Marion
Hacking, Route No. 1, Thornton,
Idaho.

2. Said works of diversion will
be fully completed on the date set
for such completion, and the a-
mount of water which said works
are capable of conveying to the
place of use is 0.6 cubic feet per
second.

3. The use to which said water
has been applied is irrigation pur-
poses, and the amount applied to
beneficial use is 0.6 cubic feet
per second.

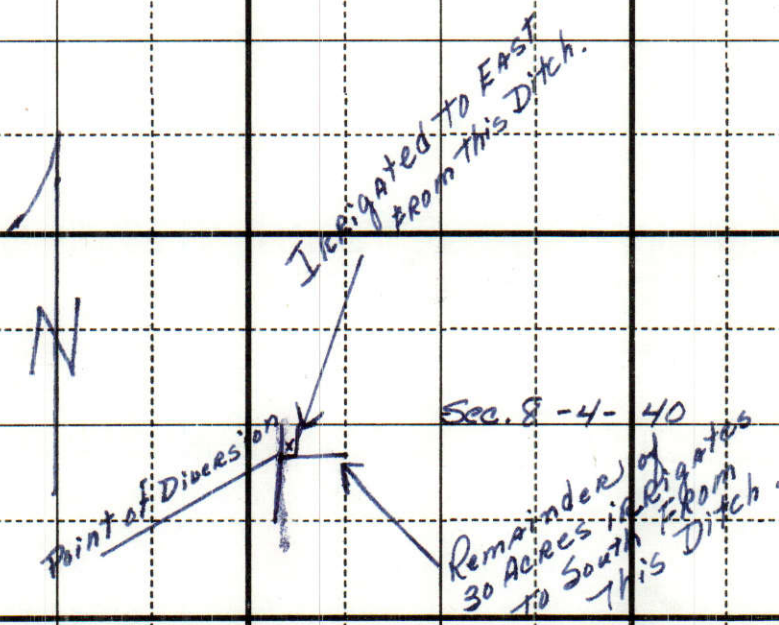

4. The point of diversion of said
water is NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, Twp
4 N., Rge. 40 E.

5. The place where said water
is used is NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, Twp.
4 N., Rge. 40 E.

6. The date of priority which
said user is prepared to establish
is March 22, 1955.

Water District No.

Priority March 22, 1955

THIS IS TO CERTIFY that MARION HACKING
of Thornton, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated March 22, 19 55; that Permit No. G-25539
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
.54 second feet, was issued thereunder on October 30, 19 57, showing that said works
were completed on the 16th day of March, 19 57; and that on the 16th
day of March, 19 57, MARION HACKING

of Thornton, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean, for the purpose of Irrigation
, under Use Permit No. G-25539 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
10 of Licenses at page 6165, on the 30th day of October, 19 57;
The right hereby confirmed dates from March 22, 19 55;

The Point of Diversion is located
in the NW 1/4 SW 1/4, Sec. 8, Tp. 4 N., R. 40 E., B. M. County Madison

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed .54 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
4 N.	40 E.	8	NW 1/4 SW 1/4	East 60 rods 30a.	27
			Total number of acres irrigated	- - -	27

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
30th day of October, 19 57.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 33410
Permit No. G- 25539
District No.

1. Name of Applicant: MARION HACKING
Postoffice address: Route 1, Thornton County: Madison State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 0.6 or Idaho
Miners' inches 30 or gallons per minute. 1350
 - (b) Annual withdrawal in acre feet per annum 540
3. Source of water supply: Underground Waters
4. Location of point of diversion or well is in the NW 1/4 of the SW 1/4 of Section Eight
Twp. 4 N., Rge. 40 E., B.M., County of Madison
5. Water is to be used for: Irrigation of cultivated lands.
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Centrifugal Pump placed in the bottom of an 18 foot sump hole with a pipe leading to the ditch, powered by Farmall Tractor.
8. Estimated cost of works: \$ 1,000.00 (exclusive of tractor)
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is none years. These works have already been completed.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash onhand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: none
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Re: Permit No. G-25539
Marion Hacking

Mr. T. Harold Lee
Attorney At Law
Rigby, Idaho

Dear Mr. Lee:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-25539, Marion Hacking, Route # 1, Thornton, Idaho, shows that his well is capable of conveying 27 miner's inches (.54 c.f.s.) of water for irrigation of 27 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fees, total of \$7.00, we will issue, to Mr. Hacking, the Certificate of Completion of Works (for which the fee is five dollars) and the License (two dollars) confirming the right with priority of March 22, 1955, to his use of .54 second foot of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8, for irrigation of 27 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 8, Township 4 North, Range 40 East, B.M.

Very truly yours,

MARK R. KULP

EPR:nls

G25539

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-25539

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Marion Hacking

2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the NW 1/4 SW 1/4 of Section 8

T. 4 N R. 40 E. B.M. County of Madison

4. Describe works as they exist, giving dimensions and capacities of same: Excavated pit

100' x 30' x 6' deep with 6' x 6' well sunk at N. end to 6' greater depth.

Pump: Parma Water Lifter - 5" - Broken & removed from well for repair.

Power: Tractor which was not on the site at time of examination.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW 1/4 SW 1/4 of Sec. 8., Twp. 4 N., Rge. 40 E., B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: The water supplying the excavated pit is said to come from seepage from higher irrigated land to N. + E and not from the river as evidenced by the fact that the water level does not vary with that of Snake River, but rises as irrigation on higher land starts and continues.

This examination was made on the 16th day of July, 1957

(Signed) James H. Hark Examiner.

G25539

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. G-25539

Mr. T. Harold Lee
Attorney at Law
Rigby, Idaho

Dear Sir:

We acknowledge receipt of the depositions of Mr. Hacking, the holder of the Permit and two witnesses, also affidavit of publication in The Rexburg Standard, all submitted in proof of completion of works and beneficial use on Permit No. G-25539.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Hacking at the time he makes the examination so that arrangements may be made to show him over the grounds.

BOISE, IDAHO

RECEIVED
MAR 22 1957

Department of Reclamation

Permit No. G-25539

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Marion Hacking, Thornton, Farmer, Route 1, Thornton, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-25539, March 28, 1955, with date of priority of March 22, 1955

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground water supply with a point of diversion in the Northwest Quarter of the Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$) of Section 8, Township 4 North, Range 40 E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works consist of a Centrifugal Pump placed in the bottom of an 18 foot sump hole with a pipe leading to the ditch. This is powered by a Farmall Tractor. The pump will discharge 150 miner's inches of water. It was determined by the rated capacity of the pump and actual measurement by a hydrologist. It is conveyed to the land by means of two lateral ditches, which are constructed wholly upon the lands on which the point of diversion is located and to which said water has been beneficially applied.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for irrigation. It is being used wholly upon the East 60 rods of the Northwest Quarter of the Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$) of Section 8, Township 4 North, Range 40 E. B. M. The whole of this 30 acres have been actually irrigated with these waters in the past 2 years. This is cultivated land. The only improvements made hereon, other than levelling and fertilizing is fencing around the acreage. This is of course in addition to the works constructed for the diversion of the water.

825539

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ---

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 0.6 cubic feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. --

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The whole of this water, 0.6 cubic feet has been applied to the whole of the 30 acres in each of the past 2 years. Before that the water had been diverted upon these lands to a lesser degree.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

**STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO**

Department of Reclamation

Permit No. G-25539

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. E. L. Liljenguist, 75, Thornton, Idaho, retired farmer, Route 1,
Thornton, Idaho

Ques. 2. Are you acquainted with Marion Hacking, the holder of Permit No. G-26639? How long have you known him and where does he reside?

Ans. Yes, I have known him 56 years and he resides at Route 1, Thornton, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-25539, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground waters, diverted in the Northwest Quarter of the Southwest Quarter of Section 8, Township 4 North, Range 40 E. B. M., by the use of a Centrifugal Pump placed in the bottom of an 18-foot sump hole with a pipe leading to the ditch. This pump is powered by a Farmall T tractor. The ditches (two lateral arms) extending from the sump hole convey the water to the lands in the same described property as the point of diversion.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 150 miners inches. I have personally seen this amount conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 150 miner's inches. This was measured at a time when I was not present, but I base it upon an estimate made by me because of my experience.

B255.39

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation and is being used wholly upon the East 60 rods of the Northwest Quarter of the Southwest Quarter of Section 8, Township 4 North, Range 40 E. B. M. The whole of this 30 acres has been actually irrigated with these waters in the past several years, and more particularly in the last two years. This is cultivated land, and outside of the improvements in the way of these works, the only other improvements are levelling and fencing.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. --

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam land. This land should have more than 1 miner's inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live in this same community, pass the land in question practically every day during the summer time, and have been interested in the success of this particular project of Mr. Hacking's.

(Signed) *Egga Lorenzo Liljenquist*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Rigby, County of Jefferson, State of Idaho, on this 16th day of March, A. D. 1957.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation and is being used wholly upon the East 60 rods of the Northwest Quarter of the Southwest Quarter of Section 8, Township 4 North, Range 40, E2M. The whole of this 30 acres has been actually irrigated with these waters in the past several years, and more particularly in the last 2 years. This is cultivated land and outside of the improvements in the way of these works, the only other improvements are levelling and fencing.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam land. This land should have more than 1 miner's inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have land in close proximity to the land on which this water has been beneficially appropriated, and have worked on this land during each of the last two years, at a time when irrigation was in progress. I have been interested in the practicality of this particular operation.

RE: Permit No. G-25539
Marion Hacking

Rexburg Standard
Rexburg, Idaho

Gentlemen:

On February 13, 1957, we sent you a Notice for publication in connection with Permit No G-25539 in the name of Marion Hacking, with the request that you acknowledge receipt of same and send us a copy of your first issue containing same. This Notice was to have been published once a week for four weeks prior to March 18, 1957.

To date we have not received acknowledgment of this Notice nor a copy of your paper containing same. We would appreciate receiving a copy of your paper containing this Notice in order that we may check same.

We might suggest you put this Department on your weekly mailing list to avoid the correspondence in regard to same.

Very truly yours,

Mr. Harold Lee
P.O. Box 8
Rigby, Idaho

Dear Mr. Lee:

We acknowledge receipt of the second group of Notice for Completion of Works and Beneficial Use proofs on Permit No. G-25539 in the name of Marion Hacking, which you requested by a phone conversation as of February 5, 1957.

The Notice for the first publication was addressed to the Rexburg Standard as per instructions but for reason over which we had no control the publication was made in the Journal.

As of this date we are sending to the Rexburg Standard the publication of proof of Completion of Works and Application to Beneficial Use on Permit No. G-25539 in the name of Marion Hacking and proof to be made March 16th, 1957, before you as Notary Public.

We sent Mr. Hacking the depositions and letter of instructions January 16, 1957, of which we sent you a copy, but if for some reason Mr. Hacking does not have the depositions, we shall be glad to send another set of Forms upon your request.

Very truly yours,

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 16th
day of March, 1957, at Rigby, County
of Jefferson, State of Idaho, before
T. Harold Lee, Notary Public, proof will be submitted of the completion
of works for the diversion of 0.6 cubic feet per second of underground
waters from a well, and of the application to beneficial use of said water, in
accordance with the terms and conditions of Permit No. G-25539 heretofore
issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding
said permit are Marion Hacking, Route #1, Thornton, Idaho

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of
conveying to the place of use is 0.6 cubic feet per second.

3. The use to which said water has been applied is irrigation
purposes, and the amount applied to beneficial use is
0.6 cubic feet per second.

4. The point of diversion of said water is NW 1/4 Sec. 8, Twp. 4 N., Rge. 40 E.

5. The place where said water is used is NW 1/4 Sec. 8, Twp. 4 N., Rge. 40 E.

6. The date of priority which said user is prepared to establish is
March 22, 1955.

Notice is hereby given that at 10:00 a.m., on the 16th day of March, 1957, at Rigby, County of Jefferson, State of Idaho, before T. Harold Lee, Notary Public, proof will be submitted of the completion of works for the diversion of 0.6 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-25539 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Marion Hacking, Route No. 1, Thornton, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 0.6 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 0.6 cubic feet per second.

4. The point of diversion of said water is NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, Twp. 4 N., Rge. 40 E.

5. The place where said water is used is NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 8, Twp. 4 N., Rge. 40 E.

6. The date of priority which said user is prepared to establish is March 22, 1955.

MARK R. KULP

State Reclamation Engineer
