
Subdivisions 2

Area 80 acres

Subdivisions = 2

Area = 80 a

Q = 75 inches

1.5 cfs.

Quantity of water:

estimated at 75 Miners inches — by owner — considered sufficiently correct by J.C.M.

Q - not measured because of over-charge of ground-water in this area at this time. If pump were started it would undoubtedly discharge much more than 75" for a number of days.

Scale: 2 Inches Equals 1 Mile. Draw Map In Ink.

J 24751

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 8th day of June, 1957, at Driggs, County of Teton, State of Idaho, before H. S. Forbush, Notary Public, proof will be submitted of the completion of works for the diversion of 1.5 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24751 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit are Vernal F. Lofthouse, Tetonia, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.5 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.5 cubic feet per second.

4. The point of diversion of said water is NE corner of Lot 3 of the NW¼ Sec. 2, Twp. 5 N., Rge. 45 E. B. M.

5. The place where said water is used is Lot 3 in NE¼NW¼, Lot 4 in NW¼NW¼, Sec. 2, Twp. 5 N., Rge. 45 E. B. M.

6. The date of priority which said user is prepared to establish is March 8, 1954.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

N.S. Forbush
atty -
Irrigge Dist #6

Application No. G-32559
Permit No. G- 24751
District No.

1. Name of Applicant: VERNAL F. LOFTHOUSE

   Postoffice address: Tetonia County: Teton State: Idaho

2. Quantity of water claimed:

   (a) Rate of withdrawal in cubic feet per second. 1.5 or Idaho Miners' inches 75 or gallons per minute.

   (b) Annual withdrawal in acre feet per annum

3. Source of water supply: Subterranean from a well
   Northeast corner of Lot 3 ($NE\frac{1}{4}NW\frac{1}{4}$)

4. Location of point of diversion or well is in the ~~¼ of the ¼~~ ¼ of Section 2

   Twp. 5 N. , Rge. 45 E. , B.M., County of Teton

5. Water is to be used for: Irrigation.

6. If for municipal, industrial or recreational purposes, give:

   (a) Point of use of water is in the ¼ of the ¼ of Section , Twp. Rge. , B.M

   (b) Waste water or sewage effluent is to be returned to at a point in the ¼ of the ¼ of Section , Twp. , Rge. , B.M.

7. Kind of works: A well, with pumping and sprinkling equipment.

8. Estimated cost of works: $ 2,000.00

9. (a) Is reservoir to be used?

   (b) Capacity of reservoir:

10. The time required for the completion of such work and complete application of the water to the proposed use is ~~one year~~ October 1, 1955

11. If applicant is a corporation, give:

   I. (a) Date and place of incorporation:

   (b) Amount of capital stock: $ (c) Amount paid in: $

   (d) Names and addresses of directors:

   II. The financial resources of the applicant are (a) Cash on hand: $

   (b) Treasury stock: (c) Bonds to be issued:

   (d) Other resources:

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 40 inches of water from South Leigh with 1897 priority, and 40 inches of High Water right 1910 priority.

   (a) 75 inches (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

   (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Dear Mrs. Lofthouse:

Pursuant to your letter of March 29, 1971, we have researched our records and fail to find any record of your new well. We are enclosing an application for permit form, with instructions, for your use in this matter. We are also enclosing a copy of the license on your other well, located in Lot #3 of Section 2, Township 5 N, Range 45 E.

If you should have any further questions in reference to this matter, please advise.

Very truly yours,

Dorian Clay

Dear Sirs:

I had a well drilled in the year of 1966 and intended to start filings on the water. The information was given to the lawyer but do not know if it was ever sent to your department. I now want to install a pump in this well to irrigate about 150 acres. I have an old well which I proved up on about 15 years ago. When I get my new well going, I

LOAD 'EM UP... SHIP 'EM OUT

PIGGY BACK

Via... UNION PACIFIC

intend to abandon the old well or sell it to my neighbor. The old well waters Lots 3+4 ~~of~~ in Section 2 T 5 N R 45 E BM. Teton

This new well would water this same ground and land in the adjoining 80 acres to the south. Please tell me what the water rights state would be and send me application papers for filing on the new well.

Sincerely yours,
Vernal G. Lofthouse

Gentlemen:

RE: permit No. G24751 in name of Vernal Lofthouse of Driggs, Idaho Mr. Lofthouse acquired a water right which was approved by the Department in June of 1957. Under date of September, 1957, a letter was written to him stating that upon the payment of $9.00, statutory fees and costs, a license would be issued to him for the appropriation and use of 1.5 cubic second feet of water.

Apparently, Mr. Lofthouse has never followed through by making payment of the aforesaid sum, and he has directed that this letter be prepared by way of inquiry to ascertain the cost for issuance of this license at this time.

We shall be appreciative of an early reply concerning issuance of a license under the above permit.

Very turly yours,

H. S. Forbush

Driggs, Idaho

Dear Mr. Forbush:

We refer you to our September 18, 1957, letter in connection with Permit No. G-24751 wherein we wrote that the field engineer's inspection showed that 1.5 second feet of subterranean water had been put to beneficial use under the terms of Permit No. G-24751 and that upon receipt of the statutory fees, totaling $9.00, a Certificate of Completion of Works and License and Certificate of Water Right could be issued.

This is to advise you that to date Mr. Lofthouse has not remitted the necessary fees for these certificates. Although, the depositions of proofs keep the permit in good standing Mr. Lofthouse does not have a licensed and recorded water right until the certificates are issued.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-24751
Vernal F. Lofthouse

Mr. H. S. Forbush
Attorney At Law
Driggs, Idaho

Dear Mr. Forbush:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-24751, Vernal F. Lofthouse, Tetonia, Idaho, shows that his well is capable of conveying 75 miner's inches (1.5 c.f.s.) of water for irrigation of 80 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fees, total of $9.00, we will issue to Mr. Lofthouse the Certificate of Completion of Works (for which the fee is five dollars) and the License (four dollars) confirming the right with priority of March 4, 1954, to his use of 1.5 second feet of subterranean water with the point of diversion in the $NE\frac{1}{4}NW\frac{1}{4}$ of Section 2, for irrigation of 80 acres in the $N\frac{1}{2}NW\frac{1}{4}$ of Section 2, all in Township 5 North, Range 45 East, B.M.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

REPORT OF ENGINEER

Permit No. G-24751

This proof is for Completion of Works & Beneficial Use In Water District No.

1. Name of applicant Vernal F. Lofthouse, Tetonia, Idaho

2. Source of water supply: Subterranean flow from a well.

3. Location of point of diversion: Is in the NE¼ NW¼ (Lot 3) of Section 2

T. 5 N. R. 45 E. County of Teton

4. Describe works as they exist, giving dimensions and capacities of same: Well - Dug & Timber curbed 50' x 6' x 6' - Static Water level 7' - Pump: Western Land Roller #45428 - Horizontal - Discharge 8" - Power: Tractor.

5. Water is used for: Irrigation.

6. State whether or not water has been turned into works of diversion:

Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Lots 3 & 4 (N½NW¼) Section 2, Twp. 5 North, Range 45 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Re: Permit No.G-24751
Vernal F. Lofthouse

Mr. H. S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

This morning's mail brings us the corrected depositions of Vernal F. Lofthouse and two witnesses in proof of Completion of Works and Beneficial Use under Permit No. G-24751.

Since the affidavit of publication has already been received, this completes the proof, but before final action is taken the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, but our field engineer will try and notify you in advance, so that arrangements can be made for Mr. Lofthouse to accompany him on the inspection.

Very truly yours,

MARK R. KULP

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
Department of Reclamation

Permit No. G-24751

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Vernal F. Lofthouse, Tetonia, farmer, Tetonia, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. G 24751, March 4, 1954, Approved March 8, 1954.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean water (well) Southeast corner of NE¼ of the NW¼, Sec. 2, Township 5 N. Range 45 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. well 50 feet in depth, size 5 feet square, curbed with 2 inch plank. Water is pumped by means of a gasoline motor--35 H.P., which powers a Western Land Roller Pump (Centrifugal type) with a 8 inch outlet, which is capable of producing at maximum pressure 125 inches per second, according to tests made. The water is conveyed through a ditch from the well to the place of use.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. irrigation,
NE¼(Lot 3--39.07) of the NW¼; NW¼ (Lot 4, 38.99) of the NW¼; totalling 78.06 acres in Sec. 2, Township 5 North, Range 45 E.B.M.;
This is all cultivated land, and by the use of such water, potatoes, grain and hay are grown to more profitably. Without the use of this appropriation, potatoes could not be produced.

G 24751

RMF

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. .....

.....

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. .....

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. .....

✓ **Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.**

Ans. During the past few irrigation seasons water has been diverted from the well and used beneficially in the production of hay, grain and potatoes on the land designated above. 1.7 sec. ft. was produced by such equipment and conveyed to the land.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. The permit holder has a decreed right of 40 inches of water with priority of 1897 in the South Leigh Creek, and a high water right of about 1915, in the same source. The high water right is exhausted in early July and the decree right is much less then the full amount after the 1st part of July, hence the appropriation sought is a supplemental water supply assuring sufficient water for later use in late July and August.

(Sign) Vernal F. Lythgoe

RECEIVED
JUN 10 1957
Department of Reclamation

Permit No. G 24751

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Kenneth R. Bradley, 46, Tetonia, Farming, and Tetonia, Idaho

Ques. 2. Are you acquainted with Vernal F. Lofthouse, the holder of Permit No. G 24751? How long have you known him and where does he reside?

Ans. All my life.

Ques. 3. Have you read or heard read said Permit No. 21476, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. subterrean well, Southeast corner of NE¼ of the NW¼, Sec. 2, Township 5 N. Range 45 E. B. M.; a well 50 ft. in depth, size 5 feet square, curbed with 2 inch plank. Water is pumped by means of a gasoline motor--35 H.P. which powers a Western Land Roller Pump (Centrifugal type) with a 8 inch outlet, which is capable of producing at maximum pressure 125 inches per second, according to tests made. Water is conveyed through ditch from well to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed? The seller represents that it would produce 125 inches per second at maximum, I estimate that

Ans. 1.7 cu.ft. per second; is produced and safely conveyed to place of use. (that I have seen)

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 1.7 cu. ft. per second--my estimation is based on the representations of the seller as to what the pump could do and on my judgment, and experience, of measuring water by means of a weir.

G 24751

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, NE¼(Lot 3--39.07)of the NW¼; NW¼ (Lot 4, 38.99) of the NW¼; totalling 78.06 acres, in Sec. 2, Township 5 North, Range 45 E.B.M. This is cultivated land, and as a result of said use, potatoes can be produced profitably, as well as grain and hay.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. .....

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. the soil is a gravelly loam, and in my estimation water appropriation is needed for the proper cultivation of this soil, and needs the 1.7 cu. ft. per ~~second for its proper cultivation.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During the summers of 1954, 1955 and 1956, I have witnessed the water diverted and applied beneficially to the lands and estimate said ~~works conveyed approximately 1.7 cu. ft.~~

Dear Sir:

We have just found out what the trouble is in submitting proofs of application of water to beneficial use and completion of works, on the above captioned water permit.

Permit No. G-24751 was a Permit Number that should have been used on the proofs sent to this Department. Instead you stated said proofs were for No. G-21476, which permit was cancelled in 1952.

We notice on our publication notice to the paper that the notice of proofs was published correctly according to the terms of Permit G-24751.

We are returning said proofs enclosed herewith, which can be corrected very easily. Please return them to this Department. Will refer you to our office letter of June 12, 1957.

Very truly yours,

Re: Permit No. G-24751--

Dear Sir:

I have your letter of the 12th instance, relating to a Permit #G 21476, issued in 1950 in the name of Vernal F. Lofthouse.

I regret very much for having confused the situation by my letter of the 8th of June, 1957, by referring to the old Permit Number, which was cancelled in Feb. of 1952, apparently in March 1954--March 8th approval date. A new Permit was made-G24751, in the name of Vernal Lofthouse, covering the same appropriation on the same property with the same facts, etc. etc., this permit required beneficial use to be made by March 1956. However, an extension was obtained so as to permit beneficial proof of use of water to be made June 8, 1957.

On or before May 6th, Mr. Lofthouse was sent the necessary forms on which to give his authorization for the Publication of Proof of Beneficial use of water under permit No. G-24751, and on May 6th he signed authorization which was immediately sent to your office. Two days later on June 8th a letter from your office indicated that the notice was being sent to the Teton Valley News for Publication, that Mr. Lofthouse and two disinterested witnesses were to appear before me on the 8th of June, 1957 and present their proof.

In preparing depositions for Mr. Lofthouse and the two disinterested witnesses, it is possible that Permit #21476 was placed on the depositions in error, and that because the old Permit was still in the file, and we inadvertantly copied the old Permit No. rather than the new No. G 24751.

If you will kindly refer to the file under the new Permit Number you will note that what I have set forth herein can be shown. I suggest that the deposition be returned that I might be able to put the proper permit number on same or I herewith authorize the department to make the substitution. You will also please note that the publication was made using the Permit No. G-24751 in proof of which has been forwarded to you in my letter of June 8th, 1957.

I trust this will rectify the glaring error caused and that a letter from you will confirm what has been set forth herein, and completely clarify the situation.

Very truly yours,

H. S. Forbush

RE: Permit No. 21476 — Cancelled
Vernal Lofthouse

Mr. H. S. Forbush
Attorney at Law
Driggs, Idaho

Dear Sir:

We wish to acknowledge receipt of proofs of application of water to beneficial use and completion of works, in connection with Permit No. 21476.

We are at a loss to know why public notice of publication was published for proof in connection with this Permit to be made on June 8, 1957. We have no authorization from you or the permit holder to publish same.

The status of the Permit is as follows:
Application filed April 27, 1950, by whole of said work to be completed on or before August 6, 1950. Extension of time was granted on said Permit for making proofs and was extended to August 6, 1951. Notice that proofs were due on August 6, 1951 was mailed to Vernal F. Lofthouse on June 1, 1951. On December 6, 1951, a registered letter was sent to Vernal F. Lofthouse giving the applicant 40 (forty) days in which to make proofs or show cause why proofs should not be made. Our file disclosed that return card was filed by Vernal F. Lofthouse under date of December 14, 1951. Permit was cancelled for lack of proofs on February 4, 1952.

The writer can see no way or means whereby we can reinstate said Permit. We will welcome any statement from you that might clarify the situation so that we may place the same before the State Reclamation Engineer for his approval or disapproval.

Very truly yours,

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 8th day of June, 1957, at Driggs, County of Teton, State of Idaho, before H. S. Forbush, Notary Public, proof will be submitted of the completion of works for the diversion of 1.5 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24751 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit are Vernal F. Lofthouse, Tetonia, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.5 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.5 cubic feet per second.

4. The point of diversion of said water is NE corner of Lot 3 of the NW¼ Sec. 2, Twp. 5 N., Rge. 45 E. B. M.

5. The place where said water is used is Lot 3 in NE¼NW¼, Lot 4 in NW¼NW¼, Sec. 2, Twp. 5 N., Rge. 45 E. B. M.

6. The date of priority which said user is prepared to establish is March 8, 1954.

RE: Permit No. G-24751
Vernal F. Lofthouse

Mr. H.S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

We have your letter of May 6th, 1957, enclosing Notice for Completion of Works and Beneficial Use proof on Permit No. G-24751 in the name of Vernal F. Lofthouse, to be made June 8th,1957, before you as Notary Public.

We shall send a copy of the Notice to the Teton Valley News with instructions to publish it once a week for four weeks prior to that date and to send you the affidavit of publication together with statement of costs.

At the time set, you should contact Mr. Lofthouse, the Permit holder, to appear before you together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder for the purpose of executing the enclosed depositions.

Very truly yours,

Re: Permit #G-24751--in name of Vernal F. Lofthouse

Dear Sir:

I am inclosing signed authorization of the Permit holder Vernal F. Lofthouse to have the inclosed notice published in the Teton Valley News of Driggs, Idaho for four times.

Please note that Mr. Lofthouse through oversight failed to bring these papers to me until this morning. I have hastily prepared them and remit them to you strongly urging that you give immediate attention to this matter, since it will be necessary to get the notice in this week's issue which comes out Friday the 10th in order to get four publications prior to June 1st. If the notice as inclosed can actually be received back to Driggs by Thursday morning's mail the notice can be properly published for the four times.

Thanking you for your cooperation in this matter, I am

Very truly yours,

H. S. Forbush

Permit No. G-24751

Application for Extension of Time

FOR COMPLETION OF WORKS
AND BENEFICIAL USE

RECEIVED
MAR 21 1956
Department of Reclamation

Vernal F. Lofthouse, of Tetonia,

State of Idaho, being first duly sworn, upon his oath deposes and says:

He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho No. G-24751

Under the terms and conditions of said permit, construction work thereunder was required to be completed by March 8, 1956

That he has heretofore performed the following work described under said permit

I have excavated and dug the intended well to a considerable depth. However, from the ready availablity of water I am convinced that it will be necessary to deepen the well in order to assure a reasonable permanent flow and supply of water.

costing $ 2,000.00

That he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

Because it is necessary to extend the depth of the well to assure a better water supply, which work could not be done last fall and during the winter months.

WHEREFORE, He asks that the State Reclamation Engineer extend the time for the completion of works under said permit to June 1st, 1957.

Vernal F. Lofthouse

Subscribed and sworn to before me this 17th day of March, 1956

K. D. Erlewine

Notary Public.
