Ans. Not so acting.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-24455; September 17, 1953; ^{Aug. 31} September 17, 1953

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Underground water; W $\frac{1}{2}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 35, T. 5 N., 39 E.,

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. There is a pit well about 50 ft. square and 15 ft. deep, which penetrates the saturated gravels adjacent to the Snake River; depth to water is about seven feet. There is a pump which discharges 190 inches, which is the manufacturers rated capacity; it being used to full capacity to deliver 3.8 C.F.S.. Ans. I am the same person.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water has been used for irrigation of crops on all of the land described in no. 6 above, during all of the irrigation season of 1958; crops consisting of hay, grain, and potatoes. Waterings are at intermittent periods, but had pump run continuously it would have run in excess of two weeks continuously.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I have been using water from existing water right, which is 10 7/8 shares in Lenroot Canal Co., equivalent to about 22 miner's inches; this has been used in excess of 50 years on the land; this was applied on 150 of the acres described above, but was not nearly adequate to properly irrigate the land. Some irrigable land in the farm could not be cultivated or reclaimed because of insufficient water under said Lenroot Canal Co. water rights.

Dear Mr. Sellers:

We acknowledge receipt of your letter of August 28, 1953, enclosing application of Dee F. Bowen to appropriate three and eight-tenths (3.8) second feet of water from a well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 35 accompanied by your check for \$5.50.

Question 4 of the application gives the location of the well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 35, Township 5 North, Range 39 East, B.M., but the sketch map shows it in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section.

We return the application in order that these descriptions may be reconciled. We also return your check for \$5.50 as the correct filing fee on this amount is \$5.75.

Very truly yours,

MARK R. KULP
