Dear Mr. Stott:

We have corrected your notice for beneficial use proof on Permit No. 22914 to show that it will be made at 9:00 A.M. August 22, 1955, before Dwight W. Looslip, Notary Public, and have included the E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 18.

The reason the E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 18 was not included in your Certificate of Completion of Works (which we return herewith) is because you did not include it in your proof of completion of works.

We are sending a copy of the notice to the Teton Valley News with instructions to publish it once a week for four weeks prior to August 22 and to send you the affidavit of publication together with statement of costs.

At the time set, you should appear before Mr. Looslip together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder for the purpose of executing the enclosed depositions.

RE: Permit No. 22914

Mr. P. L. Stott
Felt
Idaho

Dear Mr. Stott:

We have your letter of July 11th enclosing notice for beneficial use proof on the above numbered Permit.

However, you set the date as July 11, which is the date of your letter, and the law requires publication of the notice once a week for four weeks before the date set for proof.

If you will set a later date far enough ahead to allow for four weeks publication and name the Notary Public before whom the proof will be made, we can complete the notice.

We also note that in describing the land, you only include the SW $\frac{1}{4}$ and S $\frac{1}{2}$ NW $\frac{1}{4}$ Section 17, Township 7 North, Range 45 East, B.M. and do not include the E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 18 which is also described in the Permit. Was this omission intentional?

So far as making completion of works proof on an additional amount over and above the 1 second foot on which proof has already been made and Certificate issued, no additional completion of works cannot be accepted at the present time. If you have enlarged your works so that they are capable of diverting and conveying to the place of use an additional amount that will have to be taken care of by another application. We enclose a form for such application herewith.

Dear Sir:-

Under the terms of your permit No. 22914 you are required to complete your diversion works on or before July 29, 1954. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Sir:-

I am writing you concerning proof of completion of works under my permit No. 22914. Since on or about May 15th, I have put to beneficial use a portion of the water allotted under this permit. Due to the fact that this water has to be pumped, and the inability of our dealer at present to supply the proper size of pump and engine needed to complete the works, I am asking for an extension of time.

I trust that this meets with your approval.

Yours truly,

PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your Permit No. 22914.....you are required to complete your diversion works on or before July 29, 1953..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Dear Sir: The reason we didn't put a point of diversion was because they intended to use a portable sprinkler system, which will be moved along the creek to irrigate the land which is crossed by the creek.

Hoping the marks of diversion I have indicated will be satisfactory; I am
