The irrigation is accomplished by ponding and ditching in a manner to cause subirrigation. There is ponding throughout the length of the bluff for about 1/2 mile and 5 ditches run westward from this ponding. There is no surface irrigation. The land has been leveled and reclaimed - Mr. Joe Andraen is ranch foreman. and is in a very good state of cultivation. J.C. Marr

Re: Permit No. 22362
St. Anthony Starch Co., Inc.

Mr. Marvin J. Aslett, President
St. Anthony Starch Co., Inc.
P. O. Box 57
St. Anthony, Idaho

Dear Mr. Aslett:

Our field engineer's report on the inspection of the application of water to beneficial use under the terms of Permit No. 22362 shows that the works are capable of conveying 219.57 miner's inches (4.40 c.f.s.) of water for irrigation of 220 acres and that the points of diversion are in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 25, Township 7 North, Range 39 East, B.M. The record of the permit lists only the point of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 25, therefore, it is necessary to amend it to include the NW $\frac{1}{4}$ SW $\frac{1}{4}$. We have enclosed a form "Application for Amendment" for this purpose and ask that you complete and return it.

Upon receipt of the amendment, mentioned above, and the statutory fee of \$10.00, we will issue to The St. Anthony Starch Co., Inc., the License and Certificate of Water Right (for which the fee is based at two dollars for each 40-acre subdivision) confirming the right with priority of September 7, 1951, to the use of 4.4 second feet of water from two unnamed springs, with the points of diversion in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 25, for irrigation of 220 acres in Lots 5, 6 and 7, and the S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 25, Township 7 North, Range 39 East, B.M.

Dear Mr. Aslett:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Chronicle-News of St. Anthony, all submitted in proof of beneficial use on Permit No. 22362.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

St. Anthony, Idaho

Dear Mr. Aslett:

We are returning your proof of application of water to beneficial use in connection with the above captioned permit for additional information.

Your answer under Question 4 is not complete. We wish that you would state that the point of diversion is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 25, Township 7 North, Range 39 East, providing that is the correct location.

Under Question 6 state the number of acres irrigated in each legal subdivision by Section, Township and Range.

Questions 4 and 6 of the witnesses depositions should show the additional information as requested under the holder's deposition.

It will also be necessary to furnish the publisher's affidavit by the paper in which the notice was advertised.

Please correct and return to this department.

ATT: Mr. Marvin J. Aslett

Dear Mr. Aslett:

We acknowledge receipt of your letter of August 25, 1953, enclosing affidavit in proof of completion of works on Permit No. 22362, accompanied by your check for the \$5.00 fee in connection therewith.

We return the affidavit for the following corrections:

1. Question 3 should give the points of diversion to a 40 acre sub-division, section, township and range.
2. The permit states that the water is to be used for stock and domestic purposes as well as irrigation.
3. Question 8 should give the location of the place of use by sub-division, section, township and range.

Upon return of the corrected affidavit, Certificate of Completion of Works can be issued.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS

St. Anthony Starch Company PROOF OF COMPLETION OF WORKS

C/o Marvin Aslett

St. Anthony, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 22362 you are required to complete your diversion works on or before September 14, 1953. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer
