THIS IS TO CERTIFY, that PETER H. WRIGHT-CLARK
of Wilson, Wyoming, has complied with the terms and conditions of Permit
No. 21640/22-2140 issued pursuant to Application for Permit dated August 7, 1950,
and has submitted proof to the Department of Water Resources on November 24, 1972 (late proof),
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 4.96 cfs of water from Pearl Creek,
tributary to the Teton River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 15</u> to <u>Oct. 15</u>	at <u>0.84</u> cfs and	<u>126 acre feet or</u> <u>3.0 af per acre</u>
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.84 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
126 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 36,

Mr. Peter H. Wright-Clark

Dear Mr. Wright-Clark:

You raised several questions in your recent letter concerning the proposed license of Permit No. 22-2140, for the use of water from Pearl Creek.

The 0.84 cfs of water proposed is based upon the maximum allowable rate of diversion of 1.00 cfs for each 50 acres of land. Since you are irrigating 42 acres, the allowable rate of diversion is 0.84 cfs.

The 126 acre feet per year is also based upon the amount that can be beneficially used to irrigate 42 acres of land. For your area, the studies that have been made, indicated that 3.00 acre feet of water is needed to irrigate each acre of land.

We will assume the questions you raised have been answered and will issue your license as proposed if we hear nothing further from you in the next 10 days.

Dear Mr. Fleenor:

The only question that I have concerning your letter is whether the 0.8 cfs is an accurate representation of the water flow that has flowed in the past and that and is being put to beneficial use. Also, in a year such as this, we are receiving excess run-off beyond 126 acre feet per year and how is this figured on a long term average. Perhaps these questions are elementary, but an explanation would be appreciated. If this these questions do not pertain, go **MICROFILMED**

issue the permit.

Dear Mr. Wright-Clark:

A representative of this Department has made an examination of the works covered by your Permit No. 21640/22-2140 and has found the following:

Quantity of water diverted: 4.96 cfs Source: Pearl Creek

Amount of water that can be recognized as beneficially used under
Idaho law: 0.84 cfs

The maximum quantity diverted shall not exceed 126 acre feet per
year.

Point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36, Twp. 4 N, Rge. 45 E, B. M.

Beneficial use: Irrigation of 42 acres within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ (8),
NW $\frac{1}{4}$ SE $\frac{1}{4}$ (34), Sec. 36, Twp. 4 N, Rge. 45 E, B. M.

Priority date established: Nov. 20, 1968

If you do not concur with these findings please contact us within 10 days, otherwise a
water license will be issued as set forth above.

Dear Mr. Wright-Clark:

A representative of this Department has made an examination of the works covered by your Permit No. 21640/22-2140 and has found the following:

Quantity of water diverted: 4.96 cfs Source: Pearl Creek

Amount of water that can be recognized as beneficially used under
Kiaho law: 0.84 cfs

The maximum quantity diverted shall not exceed 126 acre feet per
year.

Point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36, Twp. 4 N, Rge. 45 E, B. M.

Beneficial use: Irrigation of 42 acres within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ (8),
NW $\frac{1}{4}$ SE $\frac{1}{4}$ (34), Sec. 36, Twp. 4 N, Rge. 45 E, B. M.

Priority date established: Nov. 20, 1968

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

EXISTING WATER PERMIT

Notice is hereby given that Peter H. Wright-Clark, Box 135, Wilson, Wyoming, has received an approved Permit No. 21640/22-2140 issued by the Idaho Department of Water Administration authorizing the diversion of 2.4 cubic feet per second of water from Pearl Creek, tributary to the Teton River. The priority to be established under this permit is November 20, 1968, and the permit was approved August 11, 1950.

Water is to be diverted by dam and ditch from a point within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36, Twp. 4N, Rge. 45E, B.M., Teton County, to be used for irrigation purposes in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 36, Twp. 4N, Rge. 45E, B.M.

Proof of the application of the water to beneficial use was submitted to the Department on November 24, 1972. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice.

Dear Mr. Wright-Clark:

We acknowledge receipt of the assignment and affidavit submitted as proof of beneficial use for the above referenced permit. Enclosed you will find an Order which advances the priority under this permit.

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a permit holder to make proof.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department. If you will sign and return the enclosed advertising authorization, we will cause the legal notice to be published.

If you have any questions regarding the above matters, please contact us. We will greatly appreciate your returning the advertising authorization at your earliest convenience.

Sincerely,

Boise, Idaho **June 2, 1952**

Dear Sir:-

Under the terms of your permit No. ~~21640~~-----you are required to complete your diversion works on or before ~~August 11, 1952~~----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Mr. Boam:

Reference is made to your letter of April 19, 1951, in which you state that you have completed the diversion dam described under Permit No. 21640, and that most of the other work is finished.

Under the terms of the permit proof of completion of works must be made on or before August 11, 1952, and proof of beneficial use two years later. However, these proofs may be made at any earlier date that you are prepared to make them.

When your works are entirely completed the proof should be made by executing the enclosed form of affidavit before a Notary Public, describing the works, and returning the affidavit to this Department, accompanied by the statutory fee of \$5.00.

Additional time may be taken for making proof of beneficial use, when the water has been completely applied for the purpose for which it is claimed. This requires publication of a notice for four weeks in a county newspaper prior to making the proof, on forms furnished by this department.

No inspection by this Department is necessary until after the proofs have been submitted.
