APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION NO. 28845
PERMIT NO. 21176
DISTRICT NO.

Harold S. Forbush
Attorney at Law
Driggs, Idaho

1. Name of Applicant: **ADELINE HANSEN**

Postoffice address: **Tetonia**

County: **Teton**

State: **Idaho**

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources:

2. Quantity of water claimed: **Four (4)** cubic feet per second.

3. Source of water supply: **Subterranean water from well** which is a tributary of

4. Location of point of diversion: **About 400 ft. North** feet distant from the **center point**
corner of Section **25**, T. **6 N.**, R. **45 E.**, B.M., and is in the **SE $\frac{1}{4}$ NW $\frac{1}{4}$**
of Section **25**, T. **6 N.**, R. **45 E.**, B.M., County of **Teton**.

5. Water is to be used for **Irrigation purposes.**

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ **3,000.00**

8. Kind of works: **Open well with pumping equipment, etc.**

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom **9 inch outlet** / **on pump** feet; width at water line feet; depth of water feet;
dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is **Works completed** years.

13. The time required for the complete application of the water to the proposed use is **One** additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **320 inches from the North**
Lee Ditch, with priority of about 1898.

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 13th day of June, 1950, at Driggs, County of Teton, State of Idaho, before H. S. Forbush, a Notary Public, proof will be submitted of the application to beneficial use of 4 cubic feet per second of the waters of Subterranean flow (well) in accordance with the terms and conditions of Permit No. 21176 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Mrs. Adeline Hansen, Tetonia, Idaho.

The use to which said water has been applied is Irrigation purposes.

use is 4 cu. ft. per sec

The place where said water is used: S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ S $\frac{1}{2}$ Section 25; S $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ Section 26; all in Twp. 5 North, Range 45 East, B. M. County of Teton, Idaho.

The right to take water from such works is based on Permit No. 21176.

The source of supply from which such water is diverted is a well in the SE $\frac{1}{4}$, NW $\frac{1}{4}$ Section 25, Twp. 5 North, Range 45 East, B. M.

The date of priority which said user is prepared to establish is Aug. 1, 1949.

Re: Permit No. 21176

Mr. Harold H. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

The report of our Field Engineer on examination for beneficial use under Permit No. 21176 in the name of Adeline Hansen shows that 180 acres have been irrigated in the $S\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ Section 25, and the $S\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ Section 26, Township 5 North, Range 45 East, B.M.

Therefore, upon receipt of the statutory fee of \$16.00, being at the rate of \$8.00 for each 40 acre subdivision in which the land is located, a License will be issued for 180 inches (or 3.6 second feet) of water from your well in the $S\frac{1}{2}$ NW $\frac{1}{4}$ of said Section 25.

Very truly yours,

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21176This proof is for Beneficial use

In Water District No. _____

1. Name of applicant Adeline Hansen, Tetonia, Idaho2. Source of water supply: Subterranean from a well3. Location of point of diversion: Is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 25T. 5 N. R. 45 E. County of Teton

4. Describe works as they exist, giving dimensions and capacities of same: Well is 85' deep, 6' by 6' sq. and timbered up with planks. It was dug by hand. There were no veins of water encountered while digging. It was dug in March during the lowest sub water period. Hansen says the water is entirely sub water from the spring run-off. Water rises to the surface of the ground in May and June. The pump is down 45', has a 10" column and is a single stage. Bowl size unknown. The pump is a Peerless #J17010. The gear ratio stamped on the pump equals DA3-4. The pump was manufactured by the Food Machinery Inc. The pump is driven by a U9 International gas engine power unit - 57 hp. Operates at 1500 rpm. There is no well house, no concrete curbway. The engine and pump are mounted on timbers. The pump has not been used this year and probably will not. Its sole purpose is supplemental water in dry years.

5. Water is used for: Irrigation.

6. State whether or not water has been turned into works of diversion: yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ Section 25; S $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ Section 26;Township 5 North, Range 45 East, B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

The delivery is to the South through an 8" pipe by 5' long. Motor drives the pump through a flex drive shaft 36" long.

It was practically impossible to measure this water over a weir due to the flatness of the terrace and digging to build an embankment was almost like digging in concrete., the soil was so dry and hard at this point. The pump is supposed to deliver at least 200* of water. The motor was put in operation and performance of pump noted. I am certain that it was pumping at least 200* which is more than adequate to irrigate 180 acres.

This examination was made on the 21 day of August, 1952(Signed) E. M. Humphrey Examiner.21176

8" pipe is full and water.
shoots out very strong
at 180" to 200" delivery.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 21176

Mr. Harold S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

We acknowledge receipt of your letter of July 13, enclosing corrected depositions in Proof of Beneficial Use under Permit No. 21176, in the name of Adeline Hanson.

These have been placed on file, together with the Affidavit of Publication previously sent, but before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact Mrs. Hanson at the time he makes the examination in order that she may arrange to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mark R. Kulp

State Engineer

Department of Reclamation

Boise, Idaho

Dear Sir:

Herewith enclosed are the three depositions, which I trust now contain the correct legal descriptions of the land to be irrigated.

I am sorry that such an error was made in the first sending of these depositions, but trust that these are correct.

I am respectfully,

H.S. Forbush

RECEIVED
JUL 17 1950

21176

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21176

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Adeline Hansen, Tetonia, Idaho, farmer, Tetonia, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. ---

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 21176, August 1, 1949,

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. subterranean or well, 400 Ft. north from the center point, of Sec. 25, 6 N.R. 45, E.B.M. is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, of Sec. 25, 6 N.R. 45 E.B.M. County of Teton

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. open well approximately 80 ft. deep, with gasoline pumping equipment, said gasoline motor, 55 H.P.-U.9 type Peerless; with 8 inch outlet capable of conveying 4 Cu.Ft. by means of a ditch.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. irrigation, ~~Twp. 6 N. Range 45 E. Sec. 25, SW $\frac{1}{4}$ 40, SE $\frac{1}{4}$ 40, NE $\frac{1}{4}$ 40, NW $\frac{1}{4}$ 40, Sec. 26, Twp. 6 N. Range 45 E., SW $\frac{1}{4}$ 40, SE $\frac{1}{4}$ 40, NE $\frac{1}{4}$ 40, NW $\frac{1}{4}$ 40,~~

all of which is cultivated land, viz;

S $\frac{1}{2}$ NW $\frac{1}{4}$ - N $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 25, Twp. 6 N. Range 45 E. B. M. 160 acres

S $\frac{1}{2}$ NE $\frac{1}{4}$ - N $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 26, Twp. 6 N. Range 45 E. B. M. 160 acres. total 320

A.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ---

21176

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 2 inches per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. ---

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. In August 1949 --approximately 200 inches were used experimently
for use on Potato land.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 320 inches from the North Lee Ditch, with priority of about 1898.
From the North Lee Creek the water is conveyed by a canal system with
ditch laterals, by which means the waters are beneficially applied
to the lands herein described.

(Sign) Adeline Hansen

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Driggs, County of Teton, State of Idaho, on this 13th day of June A. Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Fred M. Roberts, 29, Driggs, machinist, Driggs, Idaho

Ques. 2. Are you acquainted with Adeline Hansen, the holder of Permit No. 21176? How long have you known ^{her} ~~him~~ and where does he reside?

Ans. 3 years, she resides at Tetonia, Idaho

Ques. 3. Have you read or heard read said Permit No. 21176, and are you familiar with its provisions and conditions?

Ans. yes, Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. well, subterranean or underground well, 400 ft. no. distant from from the center point, of Sec. 25, T. 6 N. R. 45 E.B.M. and is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, of Sec. 25, T. 6 N.R.45, E.B.M. County of Teton, Idaho
Open well with gasoline motor for the pump, Peerless type, U9 with 9 in. pipe outlet. 80 ft. well--

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. approx. 200 second feet of water--200 inches irregularly.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, under cultivation, 6 N. (Twp.) N. range 45 E.B.M. Sec. 25--SW $\frac{1}{4}$ NE $\frac{1}{4}$ 40, SE $\frac{1}{4}$ NE $\frac{1}{4}$ 40, SW $\frac{1}{4}$ NW $\frac{1}{4}$ 40, SE $\frac{1}{4}$ NW $\frac{1}{4}$ 40, NW $\frac{1}{4}$ SW $\frac{1}{4}$ 40, NE $\frac{1}{4}$ SE $\frac{1}{4}$ 40, NW $\frac{1}{4}$ SE $\frac{1}{4}$, equals 320 acres.

Re: Permit No. 21176

Mr. Harold S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

We are sorry to have to return the depositions of Adeline Hansen and her two witnesses for a recheck of the description of the land on which the water has been used.

Mrs. Hansen's answer to Question 6 describes a number of quarter sections in Sections 25 and 26, Township 6 North, Range 45 East, and both witnesses have described 320 acres in Section 25, Township 6 North, Range 45 East, B.M.

According to the Permit and the published notice, the correct description of the land is as follows:

SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 25, and SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, and NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26, all in Township 6 North, Range 45 East, B.M.

PERMIT NO. 21176

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. David Earl Hansen, 33, Tetonla, Idaho; Farmer, Tetonla, Idaho

Ques. 2. Are you acquainted with Adeline Hansen, her, the holder of Permit No. 21176? How long have you known him and where does she reside?

Ans. 33 years, Tetonla, Idaho

Ques. 3. Have you read or heard read said Permit No. 21176, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean or well, 400 ft. north from the center point, of Sec. 25, 6 N. R. 45, E.B.M. is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, of Sec. 25, 6 N. R. 45, E.B.M. County of Teton

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 200 second feet. 200 Second feet.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. for irrigation, Twp. 6 N. Range 45 E.B.M. Sec. 25, SW $\frac{1}{4}$ 40, SE $\frac{1}{4}$ 40, NE $\frac{1}{4}$ 40, NW $\frac{1}{4}$ 40, Sec. 26, Twp. 6 N. Range 45 E.B.M. SW $\frac{1}{4}$, SE $\frac{1}{4}$ 40, NE $\frac{1}{4}$ 40, NW $\frac{1}{4}$ 40, all of which is cultivated land.

21176

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Cultivated land which is porous and gravelly in character, and
will require at least 2 inches per acre.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Not at the present time, but with the possibility of
inheritance.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. In August 1949--approximately 200 inches were used experimently
on use on Potate land, all of which I witnessed.

(Signed) David E. Hansen

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, June 3, 1950

Re: Permit No. 21176
Adeline Hansen

Mr. H. S. Forbush
Attorney at Law
Driggs, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 21176.

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On June 13, 1950, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Driggs, Idaho before H. S. Forbush, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

MARK R. KULP

Commissioner of Reclamation
State Reclamation Engineer

21176

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Date: **May 9, 1950**

Re: Permit No. 21176

Teton Valley News

Driggs, Idaho

Gentlemen:

Enclosed you will find notice for publication once a week for four consecutive weeks prior to **June 13, 1950**, the date set for proof, the expense of the publication to be paid by the applicant, **Mrs. Adeline Hansen** of **Tetonia, Idaho**, to whom you should furnish proof of publication on or prior to the date set for proof.

Please acknowledge receipt of this notice, and furnish this office with a copy of the first publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

By **Chief Clerk**

NOTICE FOR PUBLICATION
**NOTICE OF PROOF APPLICATION OF WATER
 TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M. on the 13th day of June, 1950,
 at Driggs, County of Teton, State of Idaho, before
 H.S. Forbush, a Notary Public, residing at ~~Driggs, Idaho~~, proof will be submitted of the
 application to beneficial use of 4 cubic feet per second of the waters of Subterranean (from)
 in accordance with the terms and conditions of Permit No. 21176
 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are

Mrs. Adeline Hansen, Tetonia, Idaho, Teton County.

The use to which said water has been applied is Irrigation purposes

The amount applied to beneficial use is 4 cu. ft. per second

The place where said water is used (if for irrigation, give full and accurate description of the
 lands irrigated: Sec. 25, T. 6 N. R. 45 E. B. M. SE 1/4 NW 1/4, All in Twp. 5 North,
 Sec. 25, T. 6 N. R. 45 E. B. M. Range 45 East, T. 5, Idaho

The name of the canal or ditch or other works by which said water is conducted to such place of
 use is --

The right to take water from such works is based upon Permit No. 21176

The source of supply from which such water is diverted is well in the SW 1/4 Section 25,
 (well) Twp. 5 North, Range 45 East, B. M.

The date of priority which said user is prepared to establish is Aug. 1, 1949

MARK R. KULP
 State Reclamation Engineer.

21176

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date).....

(P. O.).....Driggs, Idaho.....

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the

.....TETON VALLEY NEWS.....of Driggs, Idaho.....published in
Teton County
the county in which the works are situated.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

.....
Engineer.

Re: Permit No. 21176

Mr. Harold S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

In reply to your letter of April 11, 1950, in regard to Proof of Beneficial Use under Permit No. 21176 in the name of Mrs. Adeline Hansen:

Notice should be made on Form 10 enclosed, setting the time and place and naming the Notary Public before whom this proof is to be made. The time of course should be set sufficiently far ahead to allow for the statutory four weeks publication. Both copies of Form 10 to be returned to this Department together with Form 11, which is authorization for us to have the notice published at Permit Holders expense in the designated county newspaper.

At the time set, the proof is made by depositions of the Permit Holder and two witnesses on forms furnished by this Department.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Department of Reclamation

Mark R. Kulp
State Engineer
Department of Reclamation
Boise, Idaho
Dear Sir:

Re: permit No. 21176 held by Adeline Hansen
Since the above permit was issued to appropriate under-ground waters, proof of the diversion works has also been furnished and a certificate therefore has been issued by your office.

Mrs. Adeline Hansen desires to inquire as to when final proof can be established giving her the permanent permit number.

It is my understanding that depositions of at least two persons are necessary, besides publication in the local newspaper, before such final permit is granted.

Your response to this letter of inquiry will be much appreciated.

I beg to remain,

H. S. Forbush

Mr. Harold S. Fortbush
Attorney at Law
Driggs, Idaho

Dear Mr. Fortbush:

We acknowledge receipt of the Affidavit of Adeline Hansen, submitted in proof of completion of works under Permit No. 21176 and enclose Departmental Receipt for the \$5.00 fee in connection therewith.

However, this Affidavit should more fully describe the well as to depth, casing, and so forth which can be done under remarks and we return the Affidavit for that purpose.

Re: Permit No. 21176

Mr. Harold S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

We enclose Permit No. 21176 in the name of
Adeline Hansen.

Since the application states that the works
have been completed, we have allowed three months, or
until November 13, 1949, within which to make proof of
completion of works.

This proof is to be made on Form 6 enclosed,
executed before a Notary Public and returned to this
Department with the statutory fee of \$5.00, upon re-
ceipt and approval of which a Certificate of Completion
of Works will be issued.

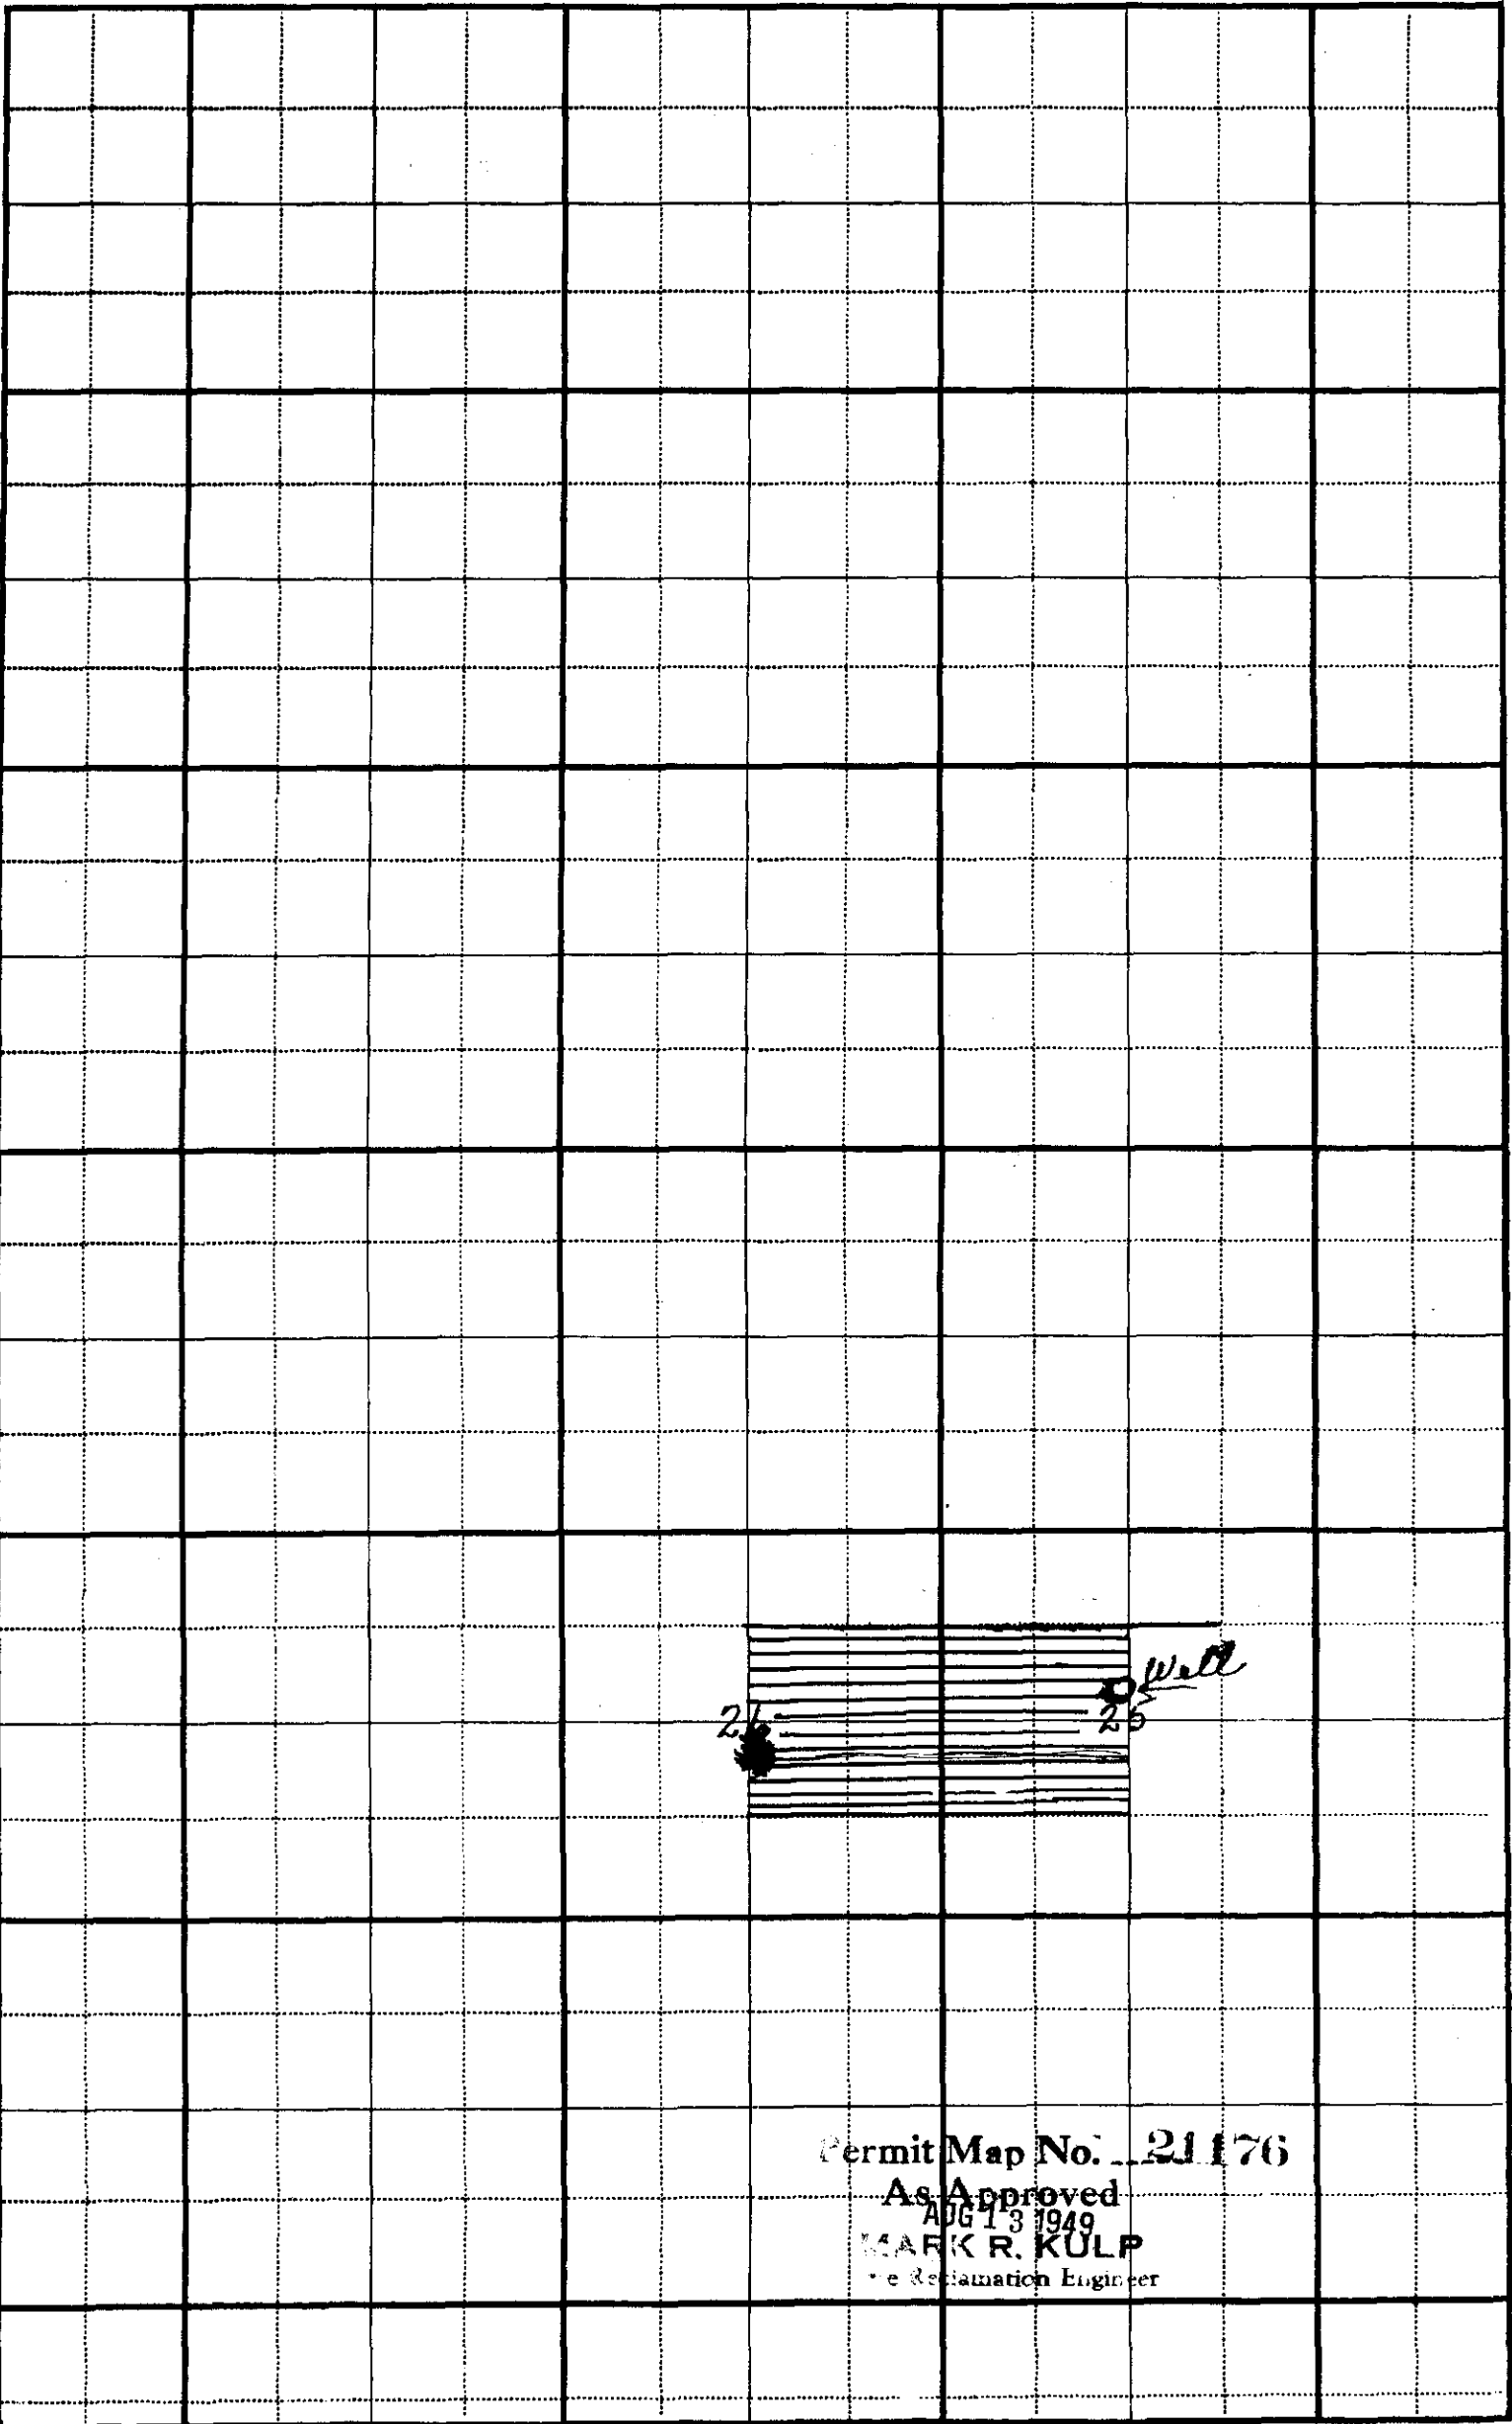

Very truly yours,

July 29th, 1949

State Engineer

Department of Reclamation

Boise, Idaho

Dear Sir:

~~Enclosed are the application~~ and map forms for the diversion of underground waters by means of a well with pumping apparatus. I trust that said forms and application has been filled out properly and will meet with the department's specifications.

I am enclosing in addition, a personal check in the sum of \$5.75, which is the statutory fee for said application and for the diversion of four cubic feet of water per second. Please, note that an earlier check was sent covering the cost, which I understand, is insufficient. Therefore, return or cancell the former check.

I am respectfully,

Harold Forbush

21176

July 27, 1949

Mr. Harold S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

In reply to your letter of July 22, 1949:

The Proof of Completion of Works referred to in our previous letter is not made until after the application has been approved and Permit issued. It is then made on a separate form furnished by this Department.

There are separate forms for Beneficial Use Proof, including the notice of intention to make such proof which must be published once a week for four consecutive weeks and then the proofs are made on forms furnished by this Department.

This notice is made out in duplicate on the forms furnished by this Department and both copies returned to us and we shall then send a copy to the newspaper with instructions in regard to publishing. The cost of the publication is to be paid by the Permit Holder.

All that is required in the application is to fill out the answers to Questions 1, 2, 3, 4, 5, 7, and 8. Questions 12 and 13 relate to the time required for making the two proofs above referred to. Question 14 should give the acreage in each subdivision to be irrigated and Question 15 should state whether or not there are any other water rights appurtenant to this same land.

The application should then be signed on the third page on the line indicated and returned to this Department.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

21176

Driggs, Idaho

July 22, 1949

Mark R. Kulp

Department of Reclamation

Boise, Idaho

Dear Mr. Kulp:

I trust that you will pardon my persistency in writing concerning a matter which probably is quite simple, but which I seem to have difficulty in fully comprehending.

According to your letter which accompanied the application forms to appropriate underground waters of the state, an affidavit is required indicating that the diversion works have been completed. This form which was sent to me does not have an affidavit form for the appropriation of well water as such, but there is included the form for the appropriation of spring waters. Thus, is it necessary for me to attach an affidavit indicated proof of the completed diversion, or may the applicant merely affix her signature at the bottom of the desired information in the place prepared for said signature of the applicant?

I am still in doubt as to the mechanics of the deposition and statements of two witnesses to the effect that the water has now been applied. Is this final proof made following the return of the application which I now have? Does the department initiate the publication for four weeks, which the applicant must pay, or does the applicant handle this?

I should greatly appreciate a reply giving these inquiries illustration.

Very sincerely,

Harold S. Forbush

Forbush 21176

July 13, 1949

Mr. Harold S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

We are in receipt of your letter of July 8, 1949, stating that Mrs. Adeline Hanson desires to obtain a Permit to Appropriate Water from a well and enclosing duplicate sketch maps showing the location of the land and the well, and your check in the amount of \$5.00 for the filing fee.

We regret that Mrs. Hanson did not fill out the Form of Application sent her, which is necessary in order to obtain a water right, and we enclose another form of application herein.

In order to complete the water right, two proofs are required by Statute, as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Driggs, Idaho
July 8th , 1949

Mark R. Kulp
State Engineer
Department of Reclamation
Boise, Idaho

Dear Sir:

On March 2 of this year, Mrs. Adeline Hanson of Tetonia, Idaho, wrote you requesting an application which might be complied with in obtaining a permit whereby subterranean waters might be appropriated for irrigation purposes. In compliance with said request, application blanks and other necessary materials were furnished said applicant.

Up to the present time, however, officially nothing has been done in regard to such matter. As a matter of fact, however, the applicant has caused a well to be drilled and a gasoline pump now to be installed. Everything is in readiness to commence applying the waters from said well upon the lands for agricultural purposes.

I assume that the above activities have not been in full compliance and according to the designated procedure as set out under the provisions of the Idaho Code. But, I should like to indicate the situation as it now exists and point out that no one will be adversely effected should the applicant be granted a permit of a priority of as of this time, or when commencing work began. I shall therefore, proceed to give the information as required by the application.

The maps indicating the point of diversion and the lands which will be benefited,. The point of diversion is situated in the southeast quarter of the northwest quarter of Section 25, Twp. 6, N. R. 45 E.B.M. and the applied waters are to be used in the late summers on lands lying in Section 25-6. The topography of the land slopes to the west, and the well lies at the east end of the farm.

The waters will be pumped to the surface with a gasoline engine, and capacity of said apparatus is supposed the flow 200 inches of water. The water is designated solely for agricultural purposes.

My client and said applicant, is prepared to give an affidavit to the above facts and circumstances, showing that the diversion works have been completed and the waters ready to be applied beneficially to the land.

Enclosed is my personal check covering the statutory fee required.

21176

Please advise me immediately if this procedure cannot be accepted.

Trusting that all will be well,

I am respectfully,

Harold S. Forbush
