NOTICE FOR PUBLICATION Notice of Proof Application of Water to Beneficial Use

Notice is hereby given that at
10 a.m. on the 24th day of Octo-
ber, 1952, at Driggs, County of
Teton, State of Idaho, before H.
S. Forbush, Notary Public, proof
will be submitted of the applica-
tion to beneficial use of twelve
cubic feet per second of the wa-
ters of subterranean flow (Well)
in accordance with the terms and
conditions of Permit No. 21060
heretofore issued by the Dept. of
Reclamation of the State of Idaho.

The name and postoffice ad-
dress of the person or corporation
holding said permit are Village of
Driggs (A municipal corporation)
Driggs, Idaho.

The use to which said water has
been applied is Village water sup-
ply as supplemental to present
supply.

The amount applied to bene-
ficial use is twelve cubic feet per
second.

The place where said water is
used: The water is intended as a
supplemental supply to that now
existing for the inhabitants of the
Village of Driggs and is intended
for domestic and culinary use.

The name of the canal or ditch
or other works by which said wa-
ter is conducted to such place of
use is pump with laterals.

The right to take water from
such works is based upon Permit
No. 21060.

The source of supply from
which such water is diverted is
Subterranean well— Lot 1, Block
1, Driggs Townsite.

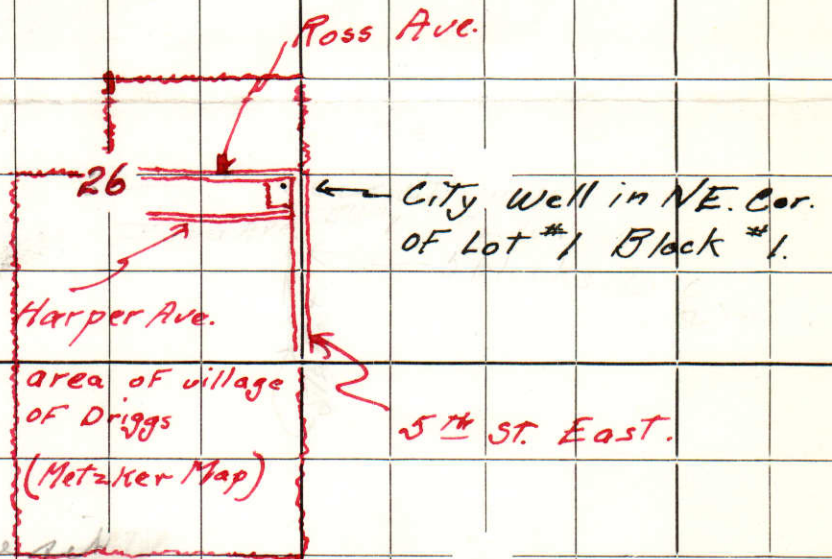

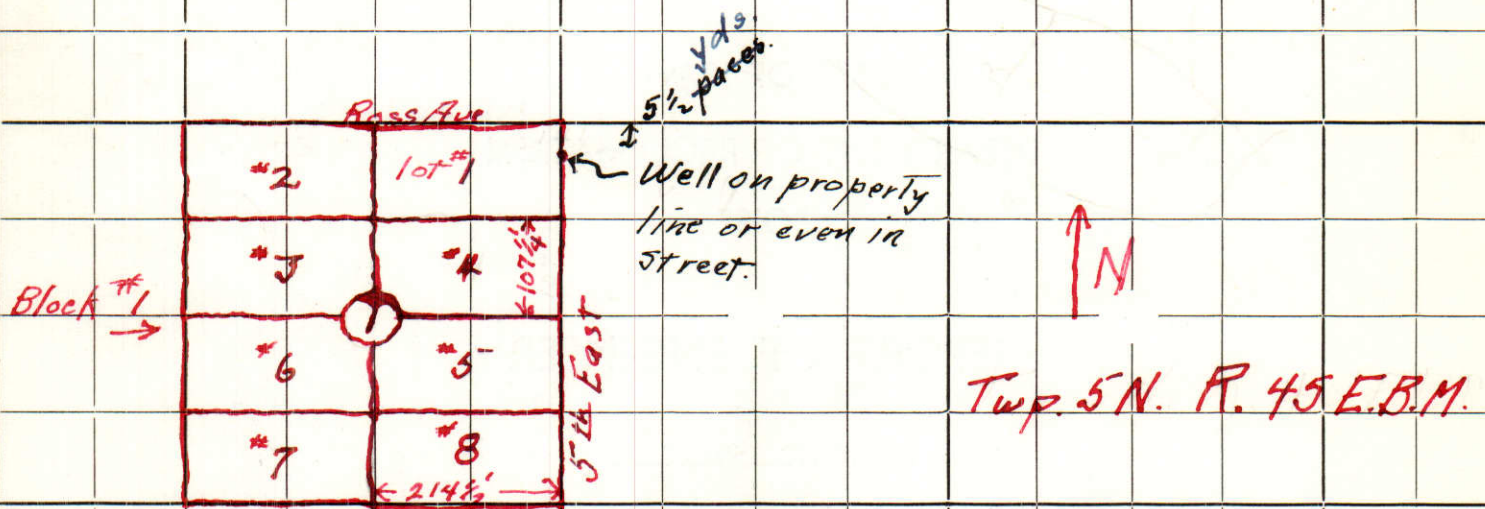

The date of priority which said
user is prepared to establish is
April 13, 1949.

NOTICE FOR PUBLICATION

Notice is hereby given that at 10
a.m., on the 21st day of April, 1950,
at Driggs, County of Teton, State
of Idaho, before Wm. A. Strong,
Notary Public, proof will be sub-
mitted of the completion of works
for the diversion of 12 cubic feet
per second of the waters of a vil-
lage well in accordance with the
terms and conditions of a certain
permit heretofore issued by the De-
partment of Reclamation of the
State of Idaho.

1. The name of the person or cor-
poration holding said permit is The
Village of Driggs.

2. The postoffice address of such
person or principal place of busi-
ness of such corporation is Village
of Driggs, County of Teton, State
of Idaho.

3. The number of such permit is
21060, and the date set for the com-
pletion of such work is May 27,
1950.

4. Said water is to be used for
domestic purposes.

5. Said works of diversion will
be fully completed on the date set
for such completion, and the
amount of water which said works
are capable of conducting to the
place of intended use, in accord-
ance with the plans accompanying
the application for such permit, is
12 cubic feet per second.

6. The place of use is particu-
larly described as follows:

To be used for domestic pur-
poses only, for the Village of
Driggs.

DISTRICT No.

1. Name of Applicant: VILLAGE OF DRIGGS (A Municipal Corporation)

Postoffice address: Driggs

County: Teton

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation: June, 1910- Teton County, Idaho

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(b) Treasury stock:

(d) Other resources:

(a) Cash on hand:

(c) Bonds to be issued:

2. Quantity of water claimed: Twelve (12)

cubic feet per second.

3. Source of water supply: Subterranean (well)

which is a tributary of

4. Location of point of diversion: Lot 1, Block 1, Driggs Townsite feet distant from the

corner of Section , T. , R. , B.M., and is in the NE $\frac{1}{4}$ SE $\frac{1}{4}$

of Section 26 , T. 5 N. , R. 45 E. , B.M., County of Teton

5. Water is to be used for Village water supply as supplemental to present supply, for domestic use

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 6,000.00

8. Kind of works: City well (bored)

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width 8 inch pipe or / casing feet; height 250 ft. well feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe 8 inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is Two months years.

13. The time required for the complete application of the water to the proposed use is Indefinite additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

- BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

Dear Mr. Forebush:

In accordance with your letter of February 24, 1959, we have searched the records of this department and find where the Village of Briggs has made a permit filing 21060 and license was issued under date of August 12, 1953, for 1.11 second fe t.

This is the only filing within the State of Idaho, as per our records.

Enclosed is a certified copy of License for your records, and will request that you send your check to the Department of Reclamation for \$1.50 for the certified copy of the license.

Very truly yours,

Dear Sir:

Acting as the attorney of the Village of Driggs, Idaho, at their request, I direct this letter to you, and make inquiry as to the record of an appropriation of water made by the Village of Driggs in behalf of its residents.

Shortly after the turn of the century the Village of Driggs, Idaho, appropriated Wyoming water, making its diversion in Wyoming, and conducting the water across the State line, down to the Village of Driggs. Does your Department have on record an appropriation right of so many inches of water, made by the Village of Driggs in behalf of its residents? Would you kindly check your record and certify your finding? The Village will be very glad to pay the cost of issuance of a certification. Thanking you in advance for your helpfulness, I am

Very truly yours,

21060

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21060

This proof is for Beneficial use In Water District No. _____1. Name of applicant Village of Driggs, Driggs, Idaho2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the Lot 1, Block 1 ^{Townsite in NE 1/4 SE 1/4} of Section 26
T. 5 N. R. 45 E. County of Teton

4. Describe works as they exist, giving dimensions and capacities of same: This is a 6" Fairbanks Morse deep well turbine that discharges directly into the village water system to supplement water coming from the city reservoir system. Well is 225' deep with an 8" casing. Static water H is 21'. Pump bowls are down 170'. The hole is enclosed in an insulated metal covered house with concrete floor, size 12' by 12' by 6 1/2' high. Motor is Fairbanks Morse, 30 h.p., 3 phase 220 V. 75 amps, No. 575097. Pump is Fairbanks Morse turbine No. P H 7858. 6" Crane check valve in the pipe line by the pump. A R panel and Square D safety switch in the house. G.E. meter, 240 V. No. 25897148. Line pressure 52 lbs. Delivery is through a 6" pipe into the city mains. Point of diversion is in the Northeast corner of Lot 1, Block 1, Townsite of Driggs. Street location is the corner of Ross Avenue and 5th East Street. Examination made in company with Mr. S.A. Stevens, the City Marshall. He estimated that 3/4 of the town of Driggs is irrigated from the town system by sprinklers. Population of Driggs in the last census is slightly over 1,000 people.

5. Water is used for: Village water supply6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Place of use: Village of Driggs, IdahoSee Map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

RE: Permit No. 21060

Mr. H. S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

We acknowledge receipt of your letter of October 24, 1952, enclosing depositions of Don Choules, Chairman, and two witnesses, also affidavit of publication in the Teton Valley News, all in proof of beneficial use under Permit No. 21060 of the Village of Driggs.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Choules at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. 21060

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. (Don Choules Chairman) of Village of Driggs (a Municipal Corporation the Board of Trustees) Driggs, Idaho, Teton County

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Applic. #28672, received 13th of April, 1949, approved 27th of May, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean (well) Lot 1, Block 1, Driggs Townsite a part of the NE 1/4 of Sec. 26, T. 5 N., R. 45 E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. subterranean well equipped with a 6 in pipe, (inside meas.) depth of well 225 feet, within an 8 in. casing, with a Fairbanks-Morse Electric pump, 40 H.P. (Forty H.P.) with a 6 in outlet. The water was measured by means of an improvised weir as the water was pumped through the pipe, 1.11 second feet.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Culinary purposes, used by the inhabitants of Driggs, Idaho

21060

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ~~Conveyed by mains and laterals to the homes of the users within the village of Driggs.~~

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. ~~2000 feet.~~

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder. the present authority who signs in behalf of the owner of said

Ans. ~~permit was duly elected to the board of trustees, and chosen chairman thereof.~~

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. ~~1,111 second feet, it has been in operation the last two or three years in the village of Driggs.~~

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. ~~The water under the permit is supplementatary to the original appropriation of waters of Teton Creek.~~

(Sign)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Driggs, Idaho County of Teton, State of Idaho, on this 24th day of October, A. D. 1952.

Permit No. 21060

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Edgar Cordon, 56 yrs. Driggs, Idaho, County Judge, Driggs, Idaho

Ques. 2. Are you acquainted with The Village of Driggs, a Municipal Corp. the holder of Permit No. 21060? How long have you known him and where does he reside?

Ans. yes, have lived here all my life. Driggs, Idaho

Ques. 3. Have you read or heard read said Permit No. 21060, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean well, Lot 1, Block 1, Driggs Townsite, a part of NE 1/4 of Sec. 26, T. 5 N. R. 45 E. B. M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.112 second feet

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 1.112 second feet, measured by means of improvised weir as the water was pumped through the pipe

21060

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Culinary purposes to the people of the village of Driggs, Idaho

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Culinary purposes, used by the people of the village of Driggs

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. _____

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. It has been in operation during the last two or three years,

during which time I have observed its operation.

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 24th day of October, 53,
at Driggs, County of Teton, State of Idaho, before
H. S. Forbush, Notary Public, proof will be submitted of the
application to beneficial use of twelve cubic feet per second of the waters of subterranean flow
(Well) in accordance with the terms and conditions of Permit No. 21060
heretofore issued by the Dept. of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____

Village of Driggs (A municipal corporation) Driggs, Idaho

The use to which said water has been applied is Village water supply as supplemental to
present supply.

The amount applied to beneficial use is twelve cubic feet per second.

The place where said water is used (~~if for irrigation, give full and accurate description of the lands irrigated~~)

The water is intended as a supplemental supply to that now existing
for the inhabitants of the Village of Driggs and is intended for
domestic and culinary use.

The name of the canal or ditch or other works by which said water is conducted to such place of use is _____

pump with laterals.

The right to take water from such works is based upon Permit No. 21060

The source of supply from which such water is diverted is Subterranean well--Lot 1,
Block 1, Driggs Townsite.

The date of priority which said user is prepared to establish is March 11, 1919

MARK B. KULP

State Reclamation Engineer.

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21060

This proof is for Completion of works

In Water District No. _____

1. Name of applicant Village of Driggs, Idaho
2. Source of water supply: Subterranean from a well
Townsite, in NE $\frac{1}{4}$ SE $\frac{1}{4}$
3. Location of point of diversion: Is in the Lot 1, Block 1, Driggs / of Section 26
T. 5 N. R. 15 E. County of Teton
4. Describe works as they exist, giving dimensions and capacities of same: Well house is 12' by 12'
by 8' high and is covered with aluminum sheeting, insulated with balsa wool, and has
a concrete floor. The height of the inside of the house is 6' 11 $\frac{1}{2}$ ". The well is 225'
deep by 8" diameter and is cased the full depth, the casing being perforated from the
85' foot level on down to the bottom. The pump and motor rests on the casing and is
5 $\frac{1}{2}$ " above the concrete floor. The pump is a Pomona Turbine by Fairbanks Morse and
Company, Serial No. FH7858. The motor is a Fairbanks Morse induction type, No. 575097
30 H.P, 60 cycle, 220 volts, 1460 r.p.m. The outlet pipe is 6" in diameter.
5. Water is used for: Domestic use for the Village of Driggs
6. State whether or not water has been turned into works of diversion: _____
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number
of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other
than irrigation): _____

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? (not applicable)

Remarks: The pump is down 120 feet. The water rises to 30 feet from the surface.
The drawdown is unknown. There is a pressure regulating switch in the line that kicks
in at 18 $\frac{1}{2}$ pressure and out at 48 $\frac{1}{2}$ pressure. One Square D type switch is used. An
automatic control Type R, Serial No. 13627A is used and is manufactured by the Automatic
Control Company of St. Paul, Minn. The master switch is a bulldog type. Temperature
of the water is 45° F. the outlet pipe extends through the wall of the pump house
and angles sharply down into the main city water line. The outside of the house is
banked over with dirt and gravel. There is a slight release of water back into the well
to further assist in prevention of frost damage in the winter time. When the well was
drilled it was tested and showed a capacity of 500 gallons per minute. This is tied in
directly to the old wood pipe system of Driggs, which comes from a spring approximately
three miles distance. The population of Driggs is estimated at 1000 or 1200 citizens.
The town of Driggs covers approximately 1 1/2 Sections. There is a probability that this
will be the sole water supply when the old wooden pipe system rots out. The water is to be
used for irrigation and domestic use in the Village of Driggs, which includes most of Sec.
This examination was made on the 15th day of June, 1950.
26 and approximately half of Sec.
35, Twp. 5 N., Range 45 East.

(Signed) E. H. Humphrey

Examiner.

Mr. Arden Stevens
C/o Water Works
Driggs, Idaho

Dear Mr. Stevens:

Since returning to the office, I have checked the wording of the filed record of Permit No. 21060, as requested. When the License is issued, however, restrictions as to time of use will not be inserted and you will have an all year supply as desired.

Your License will be issued after you make "Proof of Beneficial Use", which is due on or before November 27, 1952.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Shelby H. Atchley
Village Attorney
Driggs, Idaho

Dear Mr. Atchley:

We acknowledge receipt of your letter of May 13, 1950, enclosing Proofs of Completion of Works and Affidavit of Publication in the Teton County News under Permit No. 21060.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, the Field Engineer for this Department will try and contact you at the time he makes the examination in order that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

PERMIT NO. 21060

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Dwight W. Loosli, Village Treasurer, Driggs, Idaho

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Village of Driggs, Driggs, Idaho. I am village treasurer and I have been requested by its attorney to execute this deposition.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. No. 21060 dated May 27, 1949; 12 cubic feet from village well in Lot 1, Block 1, Driggs Tracts, Teton county, Idaho.

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. For domestic use.

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. It was used during summer and fall of 1949 to supplement village water supply and is still in use.

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. yes.

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. _____

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. The village well has a casing 8 inches in diameter and is 250 feet deep, it cost approximately \$6000.00.

(Sign here.)

Dwight W. Loosli

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, in Driggs,

21060

Notice for Publication

Notice is hereby given that at 10 A.M., on the 21st day of April, 1950, at Briggs, County of Teton, State of Idaho, before Wm. A. Strong, Notary Public, proof will be submitted of the completion of works for the diversion of 12 cubic feet per second of the waters of a village well in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is The Village of Driggs.
2. The postoffice address of such person or principal place of business of such corporation is Village of Driggs, County of Teton, State of Idaho.
3. The number of such permit is 21060, and the date set for the completion of such work is May 27, 1950.
4. Said water is to be used for domestic purposes. purposes.
5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 12 cubic feet per second.
6. The ~~project area~~ place of use is ~~acres~~ 700 acres, particularly described as follows:
To be used for auxiliary purposes only; for the Village of Driggs.

Permit No. 21060

Application for Extension of Time FOR COMPLETION OF WORKS

R. E. Christiansen, of Driggs, Idaho,

State of Idaho, being first duly sworn, upon his oath deposes and says: The Village of Driggs is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho No. 21060; that he is the clerk of said village.

Under the terms and conditions of said permit, construction work thereunder was required to be completed by November 27, 1949.

That ^{it} ~~he~~ has heretofore performed the following work described under said permit No. 21060: driven a well, installed a pumping system and constructed a well house; also, its officials have had this auxiliary water system connected with the regular water system of said village;

costing \$ 6000.00.

That ^{it} ~~he~~ is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

That said work was completed within the specified time but affiant overlooked sending the Department of Reclamation the necessary papers; that it was solely a matter of oversight on affiant's part as to final proof, hence an extension of time for making final proof is desired.

WHEREFORE, He asks that the Commissioner of Reclamation extend the time for the completion of works under said permit to May 27, 1950.

Subscribed and sworn to before me this 25th day of January, 1950.

R. E. Christiansen, Clerk

Re: Driggs Village Well
Permit No. 21060

Dear Mr. Kulp:

Your letter of January 14 in relation to the above subject has just come to my attention. Inasmuch as I had turned over to the village clerk all the papers in connection with this project, I naturally assumed that he had followed through with the necessary papers. Therefore I was surprised to learn that final proof had not been submitted to your office.

Upon receipt of your said letter of the 14th instant I called the village clerk and informed him of your notice of cancellation or intention to cancel said permit. He brought me forms No. 11 and No 8 and asked me to fill them out and send them to you forthwith; also, he stated that he had overlooked the matter entirely.

Since the date for the final proof has expired, I am unable to fill the Notice for Publication forms in their entirety. Therefore will you be kind enough to extend our time for final proof and fill in the date for offering same in compliance with your extension? This village well has been in use and is badly needed. This past season we suffered a drouth which reduced our original source of village water. The well in question served very well during our shortage of mountain water, or gravity flow. The village well seems to be a necessity.

I'm sorry this oversight took place. I trust you will be charitable with us and will allow the extension requested.

Very truly yours,

Shelby H. Atchley

DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Village of Driggs
C/o J. H. Atahley
Driggs, Idaho

Boise, Idaho, **September 1, 1949**

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 21060.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof **MUST** be on or before November 27, 1949. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP

Commissioner of Reclamation

Village of Driggs

Dear Mr. Kulp:

Enclosed you will find the application of the foregoing village for a well for domestic water, together with my check for \$7.75 to cover the filing fee. *in cash*

Since this well is within the corporate limits of an established municipality of the state and an official map has been made of same (I assume your office has an official map of each municipality of the state), I have not had any maps made of the well in question. The lot is given, which confines it to a sufficiently small area, it seems to me. However, if you still wish a map drawn, I shall have it done for you.

Very truly yours,

Shelby H. Atchley

NOTICE OF PROOF APPLICATION
Notice of Proof Application of
Water to Beneficial Use

Notice is hereby given that at 10 a.m. on the 24th day of October, 1952, at Driggs, County of Teton, State of Idaho, before H. S. Forbush, Notary Public, proof will be submitted of the application to beneficial use of twelve cubic feet per second of the waters of subterranean flow (Well) in accordance with the terms and conditions of Permit No. 21060 heretofore issued by the Dept. of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Village of Driggs (A municipal corporation) Driggs, Idaho.

The use to which said water has been applied is Village water supply as supplemental to present supply.

The amount applied to beneficial use is twelve cubic feet per second.

The place where said water is used: The water is intended as a supplemental supply to that now existing for the inhabitants of the Village of Driggs and is intended for domestic and culinary use.

The name of the canal or ditch or other works by which said water is conducted to such place of use is pump with laterals.

The right to take water from such works is based upon Permit No. 21060.

The source of supply from which such water is diverted is subterranean well— Lot 1, Block, Driggs Townsite.

The date of priority which said water is prepared to establish is March 13, 1949.

MARK R. KULP, *MRH*
State Reclamation Engineer *25*
