AFFIDAVIT OF PUBLICATION

State of Idaho, }
County of Teton, } ss.

I, V. E. Lansberry
being first duly sworn, depose and say.

That I am the Publisher
of the Teton Valley News, a newspaper
as defined by Idaho Codes Annotated,
Section 58-106, as amended, and that
said newspaper is a weekly newspaper,
printed and published at Driggs, in Te-
ton County, Idaho, having a general
circulation in said county, and that said
newspaper has been printed in said
county for more than 78 consecutive
weeks prior to the first publication of
the attached notice, advertisement or
publication of

Proof Application of Water to Beneficial Use

And affiant further says that said at-
tached notice, advertisement or publica-
tion, as per clipping attached, was pub-
lished in said newspaper, in the regular
and entire issue thereof, and not in any
supplement issue thereof, for Four

consecutive issues thereof; first publica-
tion having been made on the 24th
day of January, 1952,
and last publication on the 14th
day of February, 1952.

And affiant further says that at the
times herein mentioned said newspaper
was made up of at least four pages of at
least five columns each, printed from
type matter, of at least seventeen and
three-fourths inches deep.

V. E. Lansberry

Subscribed in my presence and sworn
to before me this 16 day of

February, 1952

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICA- TION OF WATER TO BENE- FICIAL USE

Notice is hereby given that at
10 A. M. on the 29th day of Febru-
ary, 1952, at Driggs, County of Te-
ton, State of Idaho, before H. S.
Forbush, Notary Public, proof will
be submitted of the application to
beneficial use of .28 cubic foot per
second of the waters of a well (sub-
terranean) in accordance with the
terms and conditions of Permit
No. 20642 heretofore issued by the
Department of Reclamation of the
State of Idaho.

The name and postoffice address
of the person or corporation hold-
ing said permit are: Hilda D. Wes-
ton, Driggs, Idaho (Route 1).

The use to which said water has
been applied is Domestic and some
irrigation.

The amount applied to beneficial
use is approximately .28 cubic foot
per second.

The place where said water is
used: Beginning at the Southeast
Corner of Lot Four (4), Section
Twenty-nine (29), Township Five
(5) North, Range Forty-six (46),
E. B. M., and running thence West
1230 feet, thence North 480 feet,
thence East 1230 feet, thence South
480 feet, to the point of beginning,
containing 13.77 acres.

The right to take water from
such works is based upon Permit
No. 20642.

The source of supply from which
such water is diverted is a well in
the SW $\frac{1}{4}$ SE $\frac{1}{4}$ (or Lot 4) Section
29, Twp. 5 North, Range 46 E., B.
M.

The date of priority which said
user is prepared to establish is:
September 4, 1948

RE: Permit No. 20642

Mr. H. S. Forbush
Attorney at Law
Driggs, Idaho

Dear Mr. Forbush:

The report of our field engineer on re-examination for beneficial use under Permit No. 20642 in the name of Mrs. Hilda D. Weston, shows that she has irrigated 2 acres of garden from her well in Lot 4, or the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 29, Township 5 North, Range 46 East, B.M.

Therefore, upon receipt of the statutory fee of \$2.00, a license will be issued for 2 inches, or 0.04 of a second foot of water.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

DRIGGS, IDAHO

RECEIVED
NOV 7 1952
Department of Reclamation

November 6, 1952

Mr. Mark R. Kulp
State Engineer
Department of Reclamation
Boise, Idaho

Dear Mr. Humphrey:

RE: permit 20642 in the name of Hilda D. Weston

The above named permit holder has requested that I reply to your letter dated October 27th, wherein you specifically referred to the granting of but one inch of water under the above permit, and suggested that there should be no reason for having the water divided for irrigation and house use.

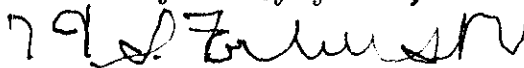

When the field agent examined the premises, he was informed that the water to be used was for irrigation of a large gardening area, about an acre, and also an unusually large house yard, whereon was growing shrubs, trees and other plant life, requiring constant water during the summer months. These were in addition to culinary or home useages.

Mrs. Weston wonders if the water useage on the yard would necessarily be included in that commonly designated as domestic use? If the yard needs should not be included in the domestic needs, there would be more than the one acre, which would be the basis of permitting more than one inch, as there would be more than one acre of land area.

I do not question your reasoning in your letter and hasten to agree with it. However, if it is possible, and without stretching the point to absurdity, could the license so be increased to designate one inch for the irrigation of cultivated crops, and one inch for a yard and domestic useage?

Thanking you sincerely for your cooperation and assistance in this matter,

I am very truly yours,

H. S. Forbush

20642

October 27, 1958

RE: Permit No. 20642

Mr. H. S. Forbush
Attorney at Law
Briggs, Idaho

Dear Mr. Forbush:

This is in reply to your letter of September 15, 1958, regarding the amount of water that can be licensed under Permit No. 20642.

It is probable that Mrs. Weston does not realize the amount of water received under delivery of one inch. One inch of water is equivalent to a continuous flow of approximately 13,000 gallons every 24 hour period. It is fully as much, and probably more, water than Mrs. Weston has ever pumped with her system, and therefore used.

One inch per acre is the full amount that a person is allowed by law in the State of Idaho except under very extraordinary circumstances. In the high, cool region of Briggs, I am quite sure that a flow of one inch per acre for the full season is more water than is ever needed.

Normally the amount of water for household use does not average more than 40 gallons per person per day. It would seem that there is no advantage and little use in issuing a license that divides the amount of water used in the household from the whole sum issued under the permit, because by considering it as a whole, it can be used in amounts at the discretion of the owner of the license, and as such might prove more advantageous.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

DRIGGS, IDAHO

RECEIVED
SEP 16 1952
Department of Reclamation

September 15th, 1952

Mr. Mark R. Kulp
State Engineer
Department of Reclamation
Boise, Idaho

Dear Sir:

RE: permit number 20642 in the name of Hilda D. Weston

I am making this reply to your recent letter directed to the above named permit holder.

The original application called for the appropriation of 0.28 second feet of water to irrigate approximately 13 acres of property, besides domestic useage. However, subsequent to the filing of the application, the permit holder has been unable to carry out her original intentions, and has actually used the water from said subterranean source on but one full acre, as indicated by the field man from your office.

However, Mrs. Weston uses water for domestic purposes in the home and also to furnish sufficient water for a large yard, which amounts to almost an acre in area.

Hence, she is somewhat concerned about the allowance of only one inch of water under her permit, for she feels that her domestic useage would require some five or six inches.

Before the license, therefore, is issued, would you please indicate by return mail, as to whether such license will specify so much appropriation for domestic useage, besides the one inch for irrigation?

I am sure that Mrs. Weston would like such a specification, should such be in harmony with the appropriation.

Very truly yours,

H. S. Forbush

RE: Permit No. 20642

Mrs. Hilda D. Weston
Route 1
Driggs, Idaho

Dear Mrs. Weston:

The report of our field engineer on examination for beneficial use under your Permit No. 20642, shows that you have irrigated one acre of land from your well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, or Lot 4, Section 29, Township 5 North, Range 46 East, B.M.

Therefore, upon receipt of the statutory fee of \$2.00, a license will be issued for 0.02 second foot, or one inch of water from said well.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

REPORT OF ENGINEER

Permit No. 20642This proof is for Beneficial use In Water District No. _____

1. Name of applicant Mrs. Hilda D. Weston, Route 1, Driggs, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ (or Lot 4) of Section 29
T. 5 N. R. 46 E. County of Teton
4. Describe works as they exist, giving dimensions and capacities of same: Dug well 26' deep plus 4' of driven pipe with sand point. Well is 4' square, boxed with boards. Water level varies from a few feet to nearly dry.
Pressure system- Meyers pump. G.E. motor # MOD 5 KC 47 AB 403 DX, $\frac{1}{2}$ HP., 1725 rpm., 110-V., 1-phase. Connected to house electric circuit.
20"x 60" steel pressure tank. Used for sink, bathroom, lawn, and garden.

5. Water is used for: Irrigation and domestic purposes.6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

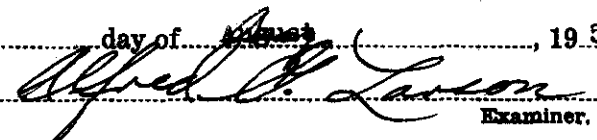

In the Southeast corner Lot 4, Section 29, Township 5 North, Range 46 East, B. M.See Map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Crops: vegetables and berries.This examination was made on the 27th day of August, 19 52

(Signed)

Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. 20642

Hilda D. Weston
Route 1
Driggs, Idaho

Dear Mrs. Weston:

We are now in receipt of the affidavit of publication in the Teton Valley News which completes your proof of beneficial use under Permit No. 20642.

Before final action is taken in the matter, the law requires that an examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

We return your receipted bill for this publication which you will doubtless wish to keep in your own files.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

AFFIDAVIT OF PUBLICATION 1

State of Idaho, }
County of Teton, } ss.

I, V. E. Lansberry
being first duly sworn, depose and say.

That I am the Publisher
of the Teton Valley News, a newspaper
as defined by Idaho Codes Annotated,
Section 58-106, as amended, and that
said newspaper is a weekly newspaper,
printed and published at Driggs, in Te-
ton County, Idaho, having a general
circulation in said county, and that said
newspaper has been printed in said
county for more than 78 consecutive
weeks prior to the first publication of
the attached notice, advertisement or
publication of

Proof Application of

Water to Beneficial Use

And affiant further says that said at-
tached notice, advertisement or publica-
tion, as per clipping attached, was pub-
lished in said newspaper, in the regular
and entire issue thereof, and not in any

supplement issue thereof, for Four

consecutive issues thereof; first publica-

tion having been made on the 24th

day of January, 19 52

and last publication on the 14th

day of February, 1952

And affiant further says that at the
times herein mentioned said newspaper
was made up of at least four pages of at
least five columns each, printed from
type matter, of at least seventeen and
three-fourths inches deep.

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICA- TION OF WATER TO BENE- FICIAL USE

Notice is hereby given that at
10 A. M. on the 29th day of Febru-
ary, 1952, at Driggs, County of Te-
ton, State of Idaho, before H. S.
Forbush, Notary Public, proof will
be submitted of the application to
beneficial use of .28 cubic foot per
second of the waters of a well (sub-
terranean) in accordance with the
terms and conditions of Permit
No. 20642 heretofore issued by the
Department of Reclamation of the
State of Idaho.

The name and postoffice address
of the person or corporation hold-
ing said permit are: Hilda D. Wes-
ton, Driggs, Idaho (Route 1).

The use to which said water has
been applied is Domestic and some
irrigation.

The amount applied to beneficial
use is approximately .28 cubic foot
per second.

The place where said water is
used: Beginning at the Southeast
Corner of Lot Four (4), Section
Twenty-nine (29), Township Five
(5) North, Range Forty-six (46),
E. B. M., and running thence West
1230 feet, thence North 480 feet,
thence East 1230 feet, thence South
480 feet, to the point of beginning,
containing 13.77 acres.

The right to take water from
such works is based upon Permit
No. 20642.

The source of supply from which
such water is diverted is a well in
the SW 1/4 SE 1/4 (or Lot 4) Section
29, Twp. 5 North, Range 46 E., B.
M.

The date of priority which said
user is prepared to establish is:
September 4, 1948

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20642

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Hilda D. Weston, Driggs, Teton Co., Idaho, housewife

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 20642 Sept. 4, 1948,

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean (well, SW $\frac{1}{4}$ SE $\frac{1}{4}$, or (Lot 4) Sec. 29, Twp. 5 N. R. 46 E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Myer's Elec. Suction Pump, with a inch outlet, and the water is conveyed to the place of use by pipes or hose. Depth 25 ft. well, with a pipe extended in the well, surrounded by a six inch casing, and the surrounding area filled in with rock and soil. The opening of said pump is approximately one inch in diameter.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes; improvements made as result of the water, consist of berry patch and garden amounting to an acre more or less. 400 ft. distant from SE corner of Lot 4, of Sec. 29, T. 5, N. R. 46, E. B. M. and is in the SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 29, T. 5, N. R. 46, Teton Co.

20642

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ---

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. ---

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. -----

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. ~~The water is used constantly for culinary and domestic use, and during the summer of 1950 was used for some extent for irrigation, but to appreciable amount in 1951 as the natural supply of water was adequate.~~

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. ~~some water rights exist in the SouthSide Canal Co. which benefit the property in the early part of the season.~~

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 29th day of February, 1952,
at Driggs, County of Teton, State of Idaho, before
H. S. Forbush, Notary Public, proof will be submitted of the
application to beneficial use of .28 ^{foot} cubic ~~feet~~ per second of the waters of a well
(subterranean) in accordance with the terms and conditions of Permit No. 20642
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____

Hilda D. Weston, Driggs, Idaho (Route # 1)

The use to which said water has been applied is Domestic and some irrigation

The amount applied to beneficial use is approximately .28 cubic feet per second

The place where said water is used ~~for irrigation, give full and accurate description of the lands irrigated~~

Beginning at the Southeast Corner of Lot Four (4), Section Twenty-
nine (29), Township Five (5) North, Range Forty-six (46),
E. B. M., and running thence West 1230 feet, thence North 480
feet, thence East 1230 feet, thence South 480 feet, to the
point of beginning, containing 13.77 acres.

~~The name of the canal or ditch or other works by which said water is conducted to each place of use is _____~~

The right to take water from such works is based upon Permit No. 20642

The source of supply from which such water is diverted is a well (subterranean) ~~in the SW 1/4 Sec 4~~
(or Lot 4) Section 29, Twp. 5 North, Range 46 E., B.M.

The date of priority which said user is prepared to establish is Sept. 4, 1948.

MARK R. KULP

State Reclamation Engineer.

Briggs, Idaho

Dear Mrs. Weston:

We enclose Certificate of Completion of Works issued under Permit No. 20642 for the diversion of 0.28 second foot of water from a well located on the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 29, Township 5 North, Range 46 East, B.M. for irrigation and domestic use on the same subdivision.

We also enclose Departmental Receipt No. 21506 for the \$5.00 fee paid by you in connection with this Proof.

Very truly yours,

MARK R. KOLP
State Reclamation Engineer

Permit No.

STATE OF IDAHO
Department of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of TETON

ss.

Hilda D. Weston, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 20642, and that his postoffice address is Driggs,

State of Idaho

Second: That the name of the stream which said water is to be ~~directed~~ ^{DIRECTED} is subterranean (Well)

Third: That the point of diversion of said water is in SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 29-5-46

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by March 11, 1949

Fifth: That the use for which said water is intended is domestic & for irrigation

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: well, pipe-line and ditches

(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work: well 23 feet deep;

(a) Height of dam 0 feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

well with steel casing.

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width feet, height feet.

(d) Conduit ditch width at bottom 1 feet, width at water line 2

(State whether ditch, flume or pipe)

feet, depth of water 1 $\frac{1}{2}$ feet; diameter of pipe inches, average grade per mile is feet. Length of conduit is 1213 ft. miles.

Seventh: That said works are capable of conducting to the place of intended use 1 second feet of water.

Eighth: That water appropriated under said permit is available for acres of land described as follows: 13.77 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 29-5-46

Ninth: Remarks: That

Mrs. Hilda D. Weston

Driggs, Idaho

Dear Mrs. Weston:

In checking our records we note that Proof of Completion of Works which was due under your Permit No. 20642 on or before March 11, 1949, has not been made.

This proof should be made by executing Form 6 enclosed, before a Notary Public and returning to this Department with the statutory fee of \$5.00, upon receipt and approval of which, a Certificate of Completion of Works will be issued.

This should be given your prompt attention as it is already considerably past due.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Briggs, Idaho

Dear Mrs. Weston:

We enclose Permit No. 20642 together with Departmental Receipt No. 20862 for the \$5.00 filing fee.

As noted in our letter of September 16 we have limited your permit to 14 miner's inches as a result of statutory limitations, although we realize that 14 inches is a rather small stream to handle efficiently. The difference between the 13.77 inches which we allow for irrigation and the 14 inches amounts to over 3,000 gallons per day which is more that you could use for stock and domestic purposes, exclusive of garden and barns.

Although we can not issue a permit or a license for more than one inch per acre, there is no reason why you can not appropriate and use additional water, provided you put it to beneficial use and do not interfere with other prior rights.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Application No. 28275

Dear Mr. Kulp:

In your letter of September 16 in relation to the foregoing application, you state that there is a discrepancy in the description; that in one place the Range is given as 46 and in another it is numbered 44. The correct number is 46.

The reason more than 14 miner's inches was asked for is that we need culinary or domestic water. We have a good deal of livestock, for example. We run about 10 head of dairy cows on an average, feed about 25 head of grade cattle, have horses and usually a few hogs. We also grow berries along with our garden. All told, we feel that a cubic foot would not be too much. However, if it is impossible to get that amount, we shall be willing to accept the amount your department will allow us. We are aware of the fact that one inch to the acre is the amount allowed for irrigation purposes, but we feel that we should have some additional amount for livestock and gardening.

Very truly yours,

Hilda D. Weston

Briggs, Idaho

Dear Madam:

In checking your application for permit to appropriate water from a well we find a discrepancy in the description as given in the application itself and on the sketch map which accompanied same.

The application describes Section 29, Twp. 5 N., Range 46 E., whereas the sketch map gives it as Range 44 E. Please advise which is correct.

Since the land to be irrigated only includes 13.77 acres the permit can only be issued for 14 inches as the statutes set a maximum of one inch per acre for irrigation purposes.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

August 30, 1948

Mr. B. Fred Weston
Route #1
Driggs, Idaho

Dear Mr. Weston:

In reply to your letter of August 28, 1948, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

This form is used for filing on subterranean water from a well the same as from any other source. The point of diversion called for under Question 4 should be the legal subdivision in which the well is located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,

MARK R. KULP

NOTICE FOR PUBLICATION /
NOTICE OF PROOF APPLICA-
TION OF WATER TO BENE-
FICIAL USE

Notice is hereby given that at 10 A. M. on the 29th day of February, 1952, at Driggs, County of Teton, State of Idaho, before H. S. Forbush, Notary Public, proof will be submitted of the application to beneficial use of .28 cubic foot per second of the waters of a well (subterranean) in accordance with the terms and conditions of Permit No. 20642 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are: Hilda D. Weston, Driggs, Idaho (Route 1).

The use to which said water has been applied is Domestic and some irrigation.

The amount applied to beneficial

use is approximately .28 cubic foot per second.

The place where said water is used: Beginning at the Southeast Corner of Lot Four (4), Section Twenty-nine (29), Township Five (5) North, Range Forty-six (46), E. B. M., and running thence West 1230 feet, thence North 480 feet, thence East 1230 feet, thence South 480 feet, to the point of beginning, containing 13.77 acres.

The right to take water from such works is based upon Permit No. 20642.

The source of supply from which such water is diverted is a well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ (or Lot 4) Section 29, Twp. 5 North, Range 46 E., B. M.

The date of priority which said user is prepared to establish is: September 4, 1948

1-24-52 MARK R. KULP

State Reclamation Engineer.
