BOISE, IDAHO, January 19, 1918.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under your Permit No. **13132**.

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of your rights:

1. On ~~February 1, 1918~~, the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at ~~Thornton, before Niels A. Anderson, N. P.~~

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice and fee of \$2.00 for each 40-acre tract, or fraction, to which water has been applied. When these have been received together with report of examining engineer, if everything is properly executed, License will issue.

Yours truly,

J. H. Smith,

State Engineer.

Re Permit 15132.

Mr. O. O. Corey,
Rexburg, Idaho.

Dear Sir:--

Am today in receipt of your affidavit, with fees, for proof of completion of works under above permit, together with notices for final proof. The certificate of completion will be mailed to you soon, with receipt for fees.

In the matter of the proof of use would say that the date for making this proof must be set far enough ahead to allow for the required four full weeks publication of the notice. January 4th will not allow for this publication. If you will advise us as to a later date for this proof, the same will be inserted in the notice. The proof must be taken before some notary public, or other officer authorized to administer oaths within the State of Idaho. There are a number of notaries at Rexburg and, if you will send the name of the one before whom you desire to make proof, deposition blanks will be mailed to him later for your proof.

Your date of priority will be the date of the receipt of the application in this office, or June 29, 1917. This correction has been made in the notice.

Very truly yours,

J. H. SMITH,

State Engineer.

By _____

P.S.--You will not be required to appear in person to make proof, if there is some one who knows the facts about your use of the water whom you can authorize to act for you in the matter.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Orson O. Corey,
Rexburg, Idaho.

Boise, Idaho,
Nov. 1, 1917.

Dear Sir:—

Under the terms of your Permit No. 13132, you are required to complete your diversion works on or before Feb. 25, 1918. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. SMITH,
State Engineer.
