Re: Permit No. 21-07405

Dear Permit Holder:

Returned is the proof of beneficial use you submitted in connection with the above referenced permit.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a groundwater source.
2. The rate of diversion must be .04 cfs or less.

As you can see, you do not meet requirement #1 since you use a spring for your source. Therefore, a license examination fee of \$50 applies to your permit.

Please return the proof of beneficial use and the \$50 license exam fee within 30 days of the date of this mailing.

If you have any questions or if I can be of any further assistance, please feel to contact me.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 21-07405

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of Idaho for the use and benefit of the people within the state. Conditions pertaining to a term review, annual use fee and jurisdiction of the permit are trust water conditions.

RE: APP. NO. 2107405/Trust Water Processing

DATE: ~~7-18-91~~ 8-1-91

The above application is a new trust water filing which has been advertised by the region and forwarded to the state office for final review.

The source of water under this application is Quayles Lake, a closed surface water lake (i.e.; nontributary to any stream or river in Upper Snake basin). I have assumed here that Quayles Lake is tributary to the deep regional aquifer, or the Snake River Plain Aquifer. Although we have maps that show this area as being within a perched aquifer that is not tributary to the deep regional aquifer, the department has considered all new groundwater diversions within the perched areas as trust water diversions. Appropriations from this source therefore should be considered trust water.

I recommend continued processing of the application and attaching trust conditions to any approval.

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in Herald Chronicle on June 6 & 13, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your application for water right permit. The application has been assigned the identification number listed above. Please refer to this number in all future correspondence.

The Department can not proceed with the processing of your application at this time. It seeks the appropriation of water within the area covered by the civil suit of Idaho Power Company vs. Idaho Department of Water Resources, et al., Ada County Civil No. 81375 (Swan Falls Suit). Until there has been a final resolution to this suit and rules and regulations promulgated for considering new appropriations, the processing of applications in this area has been suspended. During the interim, your application will be held in this office.

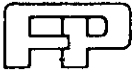

The staff in our office will be glad to answer any questions you have concerning the above matter.
