Dear Mr. Ferguson:

Re: Permit No. 21-7385

This office acknowledges receipt of the proof of beneficial use form along with the \$15 fee. Since for the diversion rate of 0.04 cfs, no fee is required, I have requested the Fiscal Section to prepare a refund. This refund will be sent to you in a few weeks.

Enclosed is an order reinstating the permit since the proof was received after the proof due date.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Eastern Region office will conduct the exam, but he will try to contact you prior to being in the area.

If you have questions concerning the field inspection, contact the regional office at 525-7161.

The department provided the proper forms to you in our proof due notice dated December 31, 1989. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 21-07385

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: PERMIT NO. 21-07385

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

HERE'S ANOTHER PROBLEM FOR YOU TO SOLVE SINCE I KNOW YOU DON'T HAVE ENOUGH TO DO... (HA, HA)

WE RECEIVED THE ABOVE REFERENCED APPLICATION FOR PERMIT FOR APPROVAL AND IN IT WE HAD AN UNAPPROVED DRILLING PERMIT (NO. 21-88-E-039) AND A WELL LOG WHICH DESCRIBED A WELL WHICH WAS DRILLED FOR GOLDEN EAGLE PRODUCE, C/O ROGER FERGUSON. WE ALSO HAVE IN OUR RECORDS A COPY OF AN APPROVED DRILLING PERMIT (NO. 21-88-E-002) WHICH APPEARS TO BE A DRILLING PERMIT IN CONNECTION WITH THE WELL LOG. ARE WE SUPPOSE TO IGNORE THE DRILLING PERMIT WHICH WAS LOCATED IN THE WATER RIGHT FILE OR ARE WE SUPPOSE TO PROCESS IT?

I HAVE ATTACHED COPIES OF DRILLING PERMIT NO. 21-88-E-039, WATER RIGHT APP. 21-7385, DRILLING PERMIT NO. 21-88-E-002, AND THE WELL LOG FOR GOLDEN EAGLE PRODUCE.

IT APPEARS TO ME THAT FERGUSON APPLIED FOR THE FIRST DRILLING PERMIT AFTER HE HAD DUG THE WELL SHOWN ON WELL LOG; THEN HE SUBMITTED THE WATER RIGHT APPLICATION AND THE SECOND DRILLING PERMIT. PLEASE ALSO NOTE THAT GOLDEN EAGLE DOES NOT HAVE ANY WATER RIGHT FILINGS ON RECORD AT THIS TIME.

WE NEED TO FIND OUT IF MR. FERGUSON IS GOING TO DRILL TWO WELLS OR JUST ONE. WE MAY NEED TO REFUND \$10.00 TO HIM AND VOID OUT THE SECOND DRILLING PERMIT. WE WILL NOT TAKE ANY FURTHER ACTION ON THE WATER RIGHT APPLICATION UNTIL WE HEAR FROM YOU. KAY
