Dear Mr. Blanchard:

In response to your inquiries, I researched our records for water rights appurtenant to the lands and/or named owners identified in your letter of December 21, 1982.

A. S. Farnsworth was awarded a water right in the case of "Rexburg Irrigation Co., et al., vs. Teton Irrigation Canal Co., et al." Lands identified for irrigation are 130 acres under A. S. Farnsworth's decreed right No. 21-0051 for 260 inches (5.2 cfs) from Fall River with a priority date of June 1, 1890. The lands are located in Lots 1, 2, 3, 4, 5, and ~~SE1/4~~, Sec. 13, T. 8 N., R. (31 E.) 41 E. (Range 31 E. identified in the decree appears to be in error.)

Lot 6 is identified on our government plat as being within the NW1/4SE1/4. Decreed right No. 21-0051, therefore, does not include Lot 6. Your letter states, however, that you are receiving water for Lot 6 in the amount of 5 shares from Marysville Irrigation Co. You should also be receiving a proportionate share of the water (0.04 cfs per acre allotted to 21-0051) for the portion of your lands described in the decree.

We show on record your partial transfer, No. 2269, of right No. 21-0106, originally decreed to Henry Smith. The transfer allots 0.57 cfs from Falls River to 20 acres in Lot 7 (NW1/4SE1/4), Sec. 13, T. 8 N., R. 41 E.

Claim No. 21-4028, on record in your name, shows a priority date of October 16, 1888, for 1.5 cfs from unnamed springs for irrigation of 49 acres in Sec. 13, T. 8 N., R. 41 E. Also in file is your pending application for exchange of water (21-4028) in the amount of 0.8 cfs from unnamed springs to be diverted from Falls River.

No further action on your part is required in the way of filing if your lands are receiving water under the above mentioned rights. Regarding

your shares in Marysville Irrigation Co., the representatives of the company should insure that all water rights in the name of the company are properly recorded.

With regard to the domestic well cited in your letter, I did not locate a water right on record with this department in the name of A. M. Blanchard. Although wells being used strictly for domestic use is excepted from filing, you may file a claim if you wish to do so. I am enclosing our packet containing our leaflet entitled "Keep Your Water" which explains the exceptions for filing a water right. Included in the packet are forms and instructions for filing.

Also enclosed are copies of the water rights that have been identified in this letter. If you have any questions or need further assistance, please feel free to contact us.

Dear Mr. Blanchard:

The Department of Water Resources has completed the processing of your claim to a Water right and no further action is authorized under Sections 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.
