Mr. T. T. Hopkins
C/o Rogers Bros. Seed Co.
Idaho Falls, Idaho

Dear Mr. Hopkins:

We enclose Certificate of Completion of Works also License and Certificate of Water Right issued on Permit No. 22072 confirming the right of yourself and K. D. Rose Estate to the use of 3.76 second feet of water from your wells in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34, Township 6 North, Range 38 East, B. M., with priority of May 7, 1951, for irrigation, domestic and stock uses on the NW $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section 34.

We also enclose departmental receipt No. 27605 for the \$21.00 fees paid for Certificate of Completion of Works and Beneficial Use.

Since Certificate of Completion of Works is for 6.8 second feet, if more land is brought under irrigation you may make a supplemental proof of Beneficial Use and obtain a License for an additional amount over and above the 3.76 second feet licensed up to the maximum of 6.8 second feet.

Idaho Falls, Idaho

Dear Mr. Hopkins:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. 22072 in the name of K. D. Rose Estate and yourself is now on file and shows that the four wells in the SW¹/₄ NE¹/₄ (two), SW¹/₄ S¹/₂ and SE¹/₄ SE¹/₄ Section 34, Township 6 North, Range 38 East, B.M. will deliver 375 inches of water which has been used to irrigate 188 acres in the NW¹/₄ NE¹/₄, SW¹/₄ NE¹/₄, SE¹/₄ NE¹/₄, SW¹/₄ NW¹/₄, SE¹/₄ NW¹/₄, NE¹/₄ SE¹/₄, N¹/₂ SE¹/₄ and E¹/₂ SE¹/₄ of said Section.

A Certificate of Completion of Works can be issued for 6.8 second feet of water as applied for but the License can only be issued for an inch to the acre irrigated or 188 inches.

The Certificate of Completion of Works fee is \$5.00 and the License fee will be \$16.00 which is at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Dear Mr. Hopkins:

A careful check from a map in the P. M. A. Office by Mr. Norton and me shows 188 acres irrigated. Since state law allows one inch per acre irrigated, your license cannot exceed 188 inches.

However, the full amount of the permit is recommended for completion of works certificate. That in turn will allow you to get a supplemental license later when more land is irrigated.

Sorry you had to attend Rotary and could not be with me for the full check-up.

RE: Permit No. 22072

Mr. T. T. Hopkins
C/o Rogers Brothers Seed Company
Idaho Falls, Idaho

Dear Mr. Hopkins:

We still have not received the affidavit of publication from the Rexburg Standard which is necessary to complete your proof of Completion of Works and Beneficial Use on Permit No. 22072, although we note that you wrote the paper in regard to this matter on August 1.

The affidavit is a necessary part of the proof and we suggest that you again take the matter up with the newspaper in order to obtain the affidavit.

Very truly yours,

Dear Mr. Hopkins:

We have your letter of August 24, 1953, enclosing depositions of yourself and two witnesses offered in proof of completion of works and beneficial use under Permit No. 22072.

These depositions are incomplete in several particulars and we return them for correction as follows:

1. Question 4 of all the depositions should give the location of the wells to a 40 acre subdivision.

2. Question 5 of your deposition and Question 4 of the depositions of the witnesses should definitely state (if such is the case) that the works were completed prior to November 12, 1951, the date proof of completion of works was due.

3. Question 6 of your own deposition and Question 7 of the depositions of your witnesses should describe the land upon which the water has been applied by 40 acre subdivisions.

We have not received the affidavit of publication from the Rexburg Standard as they were instructed to send same to you. However, we are writing them today as per copy enclosed.

As you know, these proofs were to be made June 15, 1953, and
if they were so made, they should be sent to this Department at
once and then affidavit of publication could follow later.

Probably, however, you have the affidavit ere this, but it is

Gentlemen:

We are this morning in receipt of a copy of your issue of May 20, 1953, containing notice on Permit No. 22072 in the name of T. T. Hopkins.

It is indeed unfortunate that you did not furnish us a copy of this notice sooner as requested in our letter of May 4, when we sent you the notice, because there is an error in the description.

The third land description in Paragraph 4 should have been "SE¹₄SE¹₄" instead of only SE¹₄.

Of course it is now too late to make the correction and your affidavit of publication will have to show the notice as published and we hope it will not seriously affect the water right of the permit holder when license is issued.

Box No. 30
Idaho Falls, Idaho

Attention: Mr. T. T. Hopkins

Gentlemen:

We return the applications for amendment to the points of diversion (location of wells) and land list in Permit No. 22072 which have been approved by the State Reclamation Engineer and recorded in this department.

We note that you are prepared to make proofs of completion of works and beneficial use on this permit. Before this is done, the law requires publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. The time should be set sufficiently far ahead to allow for four weeks publication and the proofs may be made at any place convenient for your and two disinterested witnesses.

Both copies of Form 36 are to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the necessary forms for deposition to be used in making the proofs.

Very truly yours,

MARK R. KULP

ATT: Mr. T. T. Hopkins

Dear Mr. Hopkins:

Reference is made to your letter of April 9, 1953, in regard to the above numbered permit in the name of K. D. Rose and T. T. Hopkins.

If we understand your letter correctly, you have completed two wells in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 34, one in the Northeast corner of the SW $\frac{1}{4}$ SW $\frac{1}{4}$, and one in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34 (originally in the Arnold Millard Permit No. 21698); also that you have irrigated all the land described in the permit as well as the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 34, more fully described as the NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34, Township 6 North, Range 38 East, B.M.

If this is correct, you may proceed to make proof of completion of works and beneficial use, after the necessary amendments have been made in Permit No. 22072 to include the wells in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$, which are not included in the permit at present, and also to include the additional 40 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of the section.

If our understanding of the situation as outlined above is correct, we shall send you the necessary forms of application for amendment, and also notice for publication in connection with the proofs.

Dear Miss Anderson:

It appears that the best way to handle the original permit to appropriate water granted under Permit No. 21698 to Arnold Millard is to forget that that permit ever existed. It has since, according to your instructions, been cancelled for lack of completion.

Our original application under the name of K. D. Rose and T. T. Hopkins, operating as the R & H Ranch, Application No. 29806 and Permit No. 22072, was made out originally for three wells completed and one proposed. Two wells are in the SW $\frac{1}{4}$, NE $\frac{1}{4}$, Section 34, Township 6, North Range 38 BM, and were completed in 1950 by a previous owner. Our application for these was set up for our protection.

The third well in question was on the Millard property when we acquired it, but was never developed into a water producing well. This well is located in the SE $\frac{1}{4}$, of the SE $\frac{1}{4}$, Section 34, Township 6, North Range 38 BM. We completed this well in May, 1951.

The original application also mentioned a fourth proposed well, if necessary, and it was deemed necessary. This fourth well was drilled and test pumped for completion in the NE corner of the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of the same section, September, 1952.

The well mentioned above, completed in May, 1951, was the same well that existed on the Millard property at the time we acquired it.

The original approval, 22072, stated that the beneficial use of water appropriated in accordance herewith to be made on or before November 12, 1952, which has been accomplished.

With this above information, do you not feel that whatever information needs to be forwarded to us by you, as to our having completed under this permit, should be forthcoming. The work is complete, and if we understand the terms of the approval correctly, we have complied in full.

Should you feel that it is necessary for us to file an application for extension

22072

of time for completion of works, we will gladly do so upon instructions from you. If not, we will greatly appreciate whatever information needs to come from you, indicating your final approval of this completed program.

Thanking you very kindly to give this your close attention, we remain

Yours very truly,
ROGERS BROS SEED CO., Inc.

Our application should include SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 34 as location of well but too rocky to farm.

The NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 34 should be added to total area as this 40A. was subsequently added by Desert Land Entry No. 02599.

RE: Permit No. 21698

Rogers Brothers Seed Company, Inc.
Box 30
Idaho Falls, Idaho

ATT: Mr. T. T. Hopkins

Dear Mr. Hopkins:

Reference is made to your letter of April 6, 1953, in reply to registered notice addressed to Arnold Millard, stating that Permit No. 21698 was subject to cancellation for failure to make proof of completion of works on or before September 21, 1952.

We note your statement that you have been in control of the property since issuance of the permit on September 21, 1950, but there is no record in this department of any assignment of Permit No. 21698 from Mr. Millard to you.

A check of this permit, together with Permit No. 22072 in the name of K. D. Rose and T. T. Hopkins shows the following: Permit No. 21698 calls for 4.8 second feet of water from a well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 34, Township 6 North, Range 38 East, B.M., for use on the N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$ of said Section 34.

Permit No. 22072 is for 6.8 second feet of water from 3 wells, two in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, and one (Proposed) on the East line of the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34, Township 6 North, Range 38 East, B.M., for use on the NE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ of said section. You will note that this includes all the land described in Permit No. 21698 except the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34.

However, Permit No. 22072 is also subject to cancellation as completion of works proof was due on this permit on November 12, 1951. If the works were completed prior to that date we could still accept proofs, after proper publication, or we could probably accept an application for extension of time, application for which is enclosed.

We shall await your further advice.

Very truly yours,

MARK R. KULP

Dear Mr. Kulp:

Notice has been forwarded to us today through the L. A. Hartert Realty Company regarding well permit 21698 in the name of Mr. Arnold Millard, Shelley, Idaho. This well was approved September 21, 1950, and since that time we have been in control of that property for two years and as near as we can determine the one well drilled on the place but not operating at the time of our purchase has since been developed as well as the land under it and has been under operation for two complete farming season.

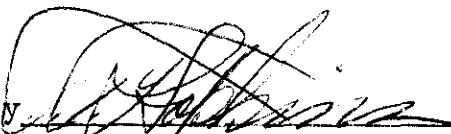

It is quite possible that the transfer of title to this property has caused you to send the notice that the permit has not been complied with. If it is necessary for us to apply for another permit, please advise promptly.

We will gladly at any time take the man from the local Reclamation office up to the point of the well and show the whole development to him along with the accurate survey maps, etc.

Thanking you for a prompt reply, we are,
