 Island Park Ranger Station
 Island Park, Idaho

Dear Mr. Cole:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-32210 shows the well(s) is (are) capable of conveying 1.25 miner's inches, or 0.025 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 5.00, we will issue the Certificate of Completion of Works for 0.025 c.f.s. and the License and Certificate of Water Right for 0.025 c.f.s. confirming the right, with priority of Janua 8, 1965, to the use of subterranean water with the point of diversion SW 1/4, Sec. 34, T. 14 N, R. 43 E, B.M., for domestic use.
