Re: Z. N. Egbert - Permit No. 29957

Dear Mrs. Rule:

Thank you for your letter of September 29, 1965, addressed to Mr. Egbert. Enclosed is the \$20 check required for issuance of the final License and Certificate of Water Rights. Please let us know if there is any further information that is required.

My last correspondence on this matter is dated September 16, 1963, in a letter addressed to Ralph W. Thomas. Since I had heard nothing further, I had assumed that everything was in order and that the Certificate had already been issued to Mr. Egbert.

Thank you for your consideration on this matter.

Sincerely,

Re: Permit No.

29957

Z. N. Egbert
Ashton, Idaho

Dear Mr. Egbert:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Ashton Herald, all submitted in ~~proof of completion of works~~ ~~and~~ beneficial use on Permit No. 29957.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

CARL E. TAPPAN

Dear Mr. Jergensen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 29957, in the name of Z. M. Robert. Final Proof is to be made before you, as Notary on the 11th day of September, 19 63, at 10:00 o'clock A.M., at 33 West Main St., St. Anthony, Idaho.

As of this date we have mailed the Notice to the Ashton Herald, Ashton, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Jergensen:

Under the terms of your Permit No. 29957 you are required to complete your diversion works on or before July 25, 1963. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

GEO. W. CARTER

RE: Application No. 37966
Z. N. Egbert

Keith Jorgensen
Attorney at Law
St. Anthony, Idaho

Dear Mr. Jorgensen:

Returned herewith is the application for permit to divert 2.0 cubic feet per second of water from springs on premises, and waste water with receipt No. 30651 attached.

The land shown under 12 for Section 13 has been shifted to agree with the map.

When source of supply is from more than one source, the amount of water from each source should be shown. The waste water is not explained. There is a line going past the point of diversion which might be a canal, a dug drain ditch or a natural waterway, unnamed stream. The explanation of the waste water may be in a letter or short, concise statement in remarks. Permission to divert should be obtained from the owner of a dug drain, if such is the case.

Return the application within 60 days with correction and addition, for processing.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
