sion in the SW 1/4 of Section 17, Township 7 North, Range 40 East, B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Consists of dam of earthwork with cement facing and steel pipe
permitting a 12" flow and two other dams for the purpose of stor-
ing water and permitting the overflow to be diverted from injur-
ing lands bordering on my property; these dams form a ditch on the
edge of my property and thereby allows the accumulated water to
seep and soak into my land.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used to irrigate about 28 acres of my land in the
South half of Section 17, T. 7 N., R. 40 E., B.M. The land irri-
gated by this diversion is cultivated, agricultural land and has
the yeild on same has been increased by the use of this water., and
the value of the land approximately 40%.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. The water is used only for irrigation purposes.

14832

Re: Permit Number 14832

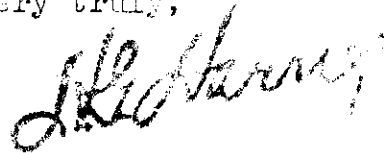

Dear Sir:

Referring to your letter of May 28, addressed to Mr. W. H. Rhodehouse of St. Anthony, applicant in above permit, I beg to advise you that I could not take the proof in this matter on May 18, because publication was never made. It seems that you sent the notice to the Fremont County News at St. Anthony, but it was misplaced and never published.

It would appear necessary that you send another notice for publication at once, so that proof may be made without further delay.

Yours very truly,

HGH/LH.

Dear Sir:-

In looking through the file of the above numbered permit we find that the depositions in the matter of proof of beneficial use of water have not yet been received at this office. The proof was advertised to be on May 12, before H. G. Harris, Notary Public. These depositions should be sent in as soon as possible.

The report of our examining Engineer is now on file and is satisfactory. Upon receipt, therefore, of the depositions of yourself and two witnesses, together with affidavit of publication and fees in the sum of \$8.00, license will be issued to you.

Dear Sir:—

Boise, Idaho, **May 6, 1925**

Under the terms of your permit No. **14832** you are required to complete your diversion works on or before . . . **Aug. 2, 1925** enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Re: Permit 14832.

Mr. Wm. H. Rhodehouse,
St. Anthony, Idaho.

Dear Sir:

Replying to yours of the 12th regarding the cost of proving up under the permit which you have taken out, will say that two proofs are required to be made under a permit.

The fee for certificate of completion of works is \$5.00.

Before license issues, notice of your intention to submit proof of beneficial use must be published four weeks in a newspaper of general circulation. We do not know the exact cost of this publication, but it would probably run from \$8.00 to \$10.00. The fee required by this office for the license is \$2 for each forty-acre tract under cultivation. If you irrigate all four forties that you have designated in your permit, the fee will be \$8.00.

If you desire, you may secure an extension of time to August 2, 1925 within which to submit proof of completion of works and six additional years within which to submit proof of beneficial use of water. I would suggest that you ask for this extension of time and perhaps by that time you would be better able to meet the fees required.

We enclose herewith application blanks upon which to request extension of time for both completion of works and beneficial use proof. These should be filed in this office before August 2, 1921, the date set in the permit for the submitting of both these proofs.

To Wm. Swendson, Commissioner

My Dear Mr. Swendson.

I am writing you a special letter of inquiry in regard to my application for Water Permit No. 14832, as to the future, and Total Costs, to perfect my claim, to said water. When at Boise, a year ago Nov. I made my formal application, and paid \$1.20 my Proof, which I shall forward to you soon. must have with it \$5.00 more, as you stated in yours of May 9th 1921. I will yet have to send you another Proof, and I am anxious to find out, what other costs, there will be, before going further in the matter, of course Mr. Swendson this may seem funny to you, but the question of costs is a very serious matter with me. the case is just this. We have completed the work needed, to accomplish our object, (i.e.) to drain one piece of our land, and to conduct said claim water, to another piece, and use to Sub Irrigate with, it is a success, and we have been turning the water for our Benefit, (over)

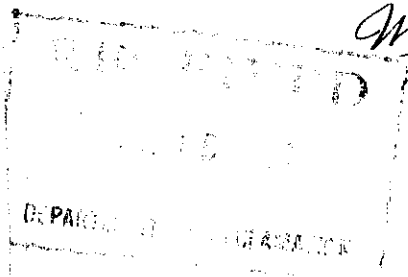

now for months, and the point is this
had I never mentioned my intentions to any
one, we could go on using the water.
forever, without any interference or
objections from anyone.

as it does no one any harm, and is
doing us good. yet I wanted to do it
in accordance to law providing
the costs are not too high.

if you are pleased to answer this,
I would thank you. Information,
in regards to this last Prof.

Of course I understand. Why all this
a formality, that it is to prevent anyone
in the future, from trying to take the
water away from us. But as I said before
there is no fear, of any such thing occurring
