SUBJECT Transfer App. on Rt. No. 21-2081

A close review of the license on this right shows an addition error on a number of acres irrigated. The total areas should be 245 instead of 240. Someone at one time penciled 4.0 cfs at the top of the license because they apparently thought that the 240 acres was correct.

In addition, the license has another error in the area above the place at the use discription i.e. 4.0 cfs rather than 4.9 cfs.

Our records are being corrected.

Now for the transfer, we could simply correct the front page and item C.1. however, we do not know where the additional 5 acres should be on item C.2?

A copy of the corrected license is attached.

Item 3C of Section C now reflects 245 AC. Emil
