Provided, there is any additional un-appropriated water in Split Creek, you may file on same.

We are enclosing a form of Application for Permit to appropriate the Public Waters of the State of Idaho together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a Use Permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First: proof of Completion of Works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by you and two witnesses in proof of such Beneficial Use. The additional time required for making this proof should be stated under Question 13 of the Application.

STATE ENGINEER'S OFFICE

*Regulations as to Change of
Point of Diversion.*

Section 3247 of the Revised Codes provides that a person entitled to the use of water, may change the place of diversion if others are not injured by such change. The Board of Irrigation has adopted the following regulations as to procedure under said section.

The person desiring to change point of diversion must file with the State Engineer an affidavit describing his water right, setting forth his intent to change point of diversion and the reasons for such change, together with an averment that no one will be injured thereby and that deponent will make such change at his own risk.

The point to which it is desired to change the place of diversion must be described as follows:

When the amount claimed does not exceed 25 cubic feet per second and point of diversion will be on surveyed land, locate same by giving the legal description of the 40 acre tract in which it will be situated. If upon unsurveyed land, give approximate distance to mouth of stream from which water is claimed or to the mouth of some creek flowing into said stream. Where there is more than one point of diversion, describe each separately and specify the amount claimed from each.

Where the water claimed exceeds 25 cubic feet per second, locate the point to which it is desired to change the place of diversion as follows:

If upon or near surveyed land, tie point of diversion by course and distance to section or quarter section corner. If said point will be more than two miles from the corner of a public survey, the tie may be made to the mouth of the stream from which the water is claimed or to the mouth of some creek flowing into said stream.

The affidavit must be accompanied by maps in duplicate, showing the following details:

1. If for irrigation and domestic use:
 - (a) Name of applicant.
 - (b) Section, town and range numbers, where public survey has been made.
 - (c) Source or sources of supply.
 - (d) Point or points of diversion.
 - (e) Route of ditch or ditches, including laterals delivering water within one mile of each 160 acre tract of the land to be irrigated.
 - (f) Lands to be irrigated to be shown by cross-hatching, outlining, or coloring.
2. If for other than irrigation and domestic purposes:
 - (a) Name of applicant.
 - (b) Section, town and range numbers, where public survey has been made.
 - (c) Source or sources of supply.
 - (d) Point or points of diversion.
 - (e) Route of ditch or ditches.
 - (f) Point or points of use.
 - (g) Point or points of return to stream after use.

If application is for more than 25 cubic feet per second, the maps must be prepared from actual survey and must be certified to by the engineer in charge of survey, in the following form:

I hereby certify that this map was prepared from an actual survey made by me.....191..., and correctly shows position of points indicated thereon.

Re Permit 10422.

Ernest F. Clark,
Ashton, Idaho.

Dear Sir:--

The report of the examining engineer on proof of use of water under your above permit shows the point of diversion to be in the SE $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 4, instead of SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 8, as given in the permit. To correct this discrepancy you should file an affidavit of change of point of diversion upon the enclosed blank. As the map filed with your application for amendment of lands shows the point in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 4, it is not necessary to file duplicate maps with this affidavit.

Very truly yours,

AFFIDAVIT OF PUBLICATION

I, WM. F. GIBSON, publisher of THE FREMONT COUNTY NEWS, a newspaper of general circulation published weekly at St. Anthony, Fremont County, Idaho, do solemnly swear that

NOTICE FOR PUBLICATION

Notice of Proof of Application of Water to Beneficial Use

Notice is hereby given that at 10 a. m. on the 8th day of August, 1918, at St. Anthony, County of Fremont, State of Idaho, before Probate Judge of Fremont County, Idaho, proof will be submitted of the application to beneficial use of two and four fifths cubic feet per second of the waters of Split Creek, in accordance with the terms and conditions of Permit No 10422 heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Ernest R. Clark, Ashton, Idaho.

2. The use to which said water has been applied is irrigation and domestic.

3. The amount applied to beneficial use is two and four-tenths cubic feet.

4. The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated). N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ section 10, and E $\frac{1}{2}$ NE $\frac{1}{4}$ of section 9, Tp. 12 N., R. 44 East Boise Meridian containing 140 acres.

5. The date of the priority which

a copy of the notice, a printed copy of which is hereto attached and made a part of this affidavit, was published weekly in the regular and entire issue of said newspaper, and not in any supplement thereof, for four consecutive weeks, commencing with the issue dated July 3 1918, and ending with the issue dated July 24 1918.

Permit No. 10422

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Fred W. Rising. 51 years. St Anthony, Idaho. Veterinarian.

St Anthony, Idaho.

Ques. 2. Are you acquainted with Ernest R. Clark, the

holder of Permit No. 10422? How long have you known him and where does he reside?

Ans. Yes. four years.

Ques. 3. Have you read or heard read said Permit No. 10422, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Split Creek. About three hundred feet north of the north west corner of section 10, Tp 12 N.R. 44 E.B.M., Dam and ditches. Dam about two feet high and two feet wide. Ditch about two feet deep and two feet wide, and laterals to the various subdivisions.

Ques. 5. How many second-feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Three and one fifth second feet. I have seen the ditch full.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Domestic and irrigation. N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ section 10, and E $\frac{1}{2}$ NE $\frac{1}{4}$ NE $\frac{1}{4}$ of section 9, Tp 12 N.R. 44 E.B.M.,. I have seen water running on the tract, to my judgment about 35 acres in the north portion of the entry. Chiefly cultivated, it has been plowed and cleared from sage brush.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation and domestic.,

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. It was sage brush land principally, has been cleared, and brought under cultivation. I presume one inch to the acre would be what is required for its reclamation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen it irrigated the last four years. Seen water running on the land. I have seen crops of oats, alfalfa, and timothy growing on the tract.

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Joseph F. Long. 65 years, St. Anthony, Idaho. Harness Maker.
St. Anthony, Fremont County, Idaho.

Ques. 2. Are you acquainted with Ernest R. Clark, the holder of Permit No. 10422? How long have you known him and where does he reside?

Ans. Yes. About four years. At Island Park, with Post Office at
Ashton, Idaho.

Ques. 3. Have you read or heard read said Permit No. 10422, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Split Creek. About three hundred feet north of the north-west
corner of section 10, Tp 12 N.R. 44 E.B.M., Dam, and ditches. Dam about
two feet high and two feet wide. Ditch about two feet wide and about
one and one half feet wide at the bottom.

Ques. 5. How many second-feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Three and one fifth second feet. I have seen the ditch running
full.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

possibly described as N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, section 10, and E $\frac{1}{2}$ NE $\frac{1}{4}$ NE $\frac{1}{4}$ of section
9, Tp 12 N.R. 44 East of Boise Meridian. I have seen 45 acres irrigated
as follows: 20 acres in NE $\frac{1}{4}$ NW $\frac{1}{4}$, 15 acres on NW $\frac{1}{4}$ NW $\frac{1}{4}$ of section 10,
Tp 12 N.R. 44 E.B.M. It was cultivated, he having raised, oats, alfalfa,
timothy and garden truck.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation and domestic use.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. It was originally covered with sage brush and is now raising
crops. The land requires all the water he has appropriated, as it is
arid or dry farm land.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I saw water on the land about four years ago. I have seen him irrigate the land every year for the last four years. I have gone up there and visited for two or three weeks every year. I have seen his crops and his irrigation at those times.

APPLICATION TO AMEND DESCRIPTION OF LAND IN

PERMIT 10422 FREMONT COUNTY, IDAHO

Ernest R. Clark being first duly sworn deposes and says, that he is the identical person who was granted permit No 10422 on the 8th day of July 1914 for the appropriation of three and one fifth cubic feet of the waters of Split Creek situate in Fremont County, Idaho.

That the said application describes the land to be irrigated as the $W\frac{1}{2}SW\frac{1}{4}$ section 9, $E\frac{1}{2}SE\frac{1}{4}$ of section 8, in Tp 12 N. R. 44 E. B.M., and that the above description was made while the said land was unsurveyed.

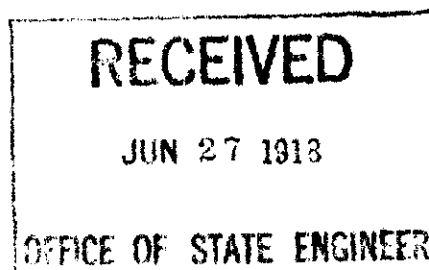

Affiant now finds that the land he now claims and has irrigated according to the survey made by Interior Department is $N\frac{1}{2}NW\frac{1}{4}$, $SE\frac{1}{4}NW\frac{1}{4}$ section 10, $E\frac{1}{2}NE\frac{1}{4}$ of section 9, Tp 12 N. R. 44 East of Boise Meridian and now prays that the record in the State Engineer's Office in Boise be corrected to read as such.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Ernest R. Clark,
Ashton, Idaho.

Boise, Idaho, May 17, 1915.

Dear Sir:

Under the terms of your permit No. 10422, you are required to complete your diversion works on or before July 8, 1915. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
