Re: Transfer No. 71220

Dear Mr. and Mrs. Osgood

I have recently had the opportunity to communicate with Ms. Roxanne Brown of the adjudication Bureau of IDWR. Ms. Brown has prepared favorable recommendations of your water rights and suggests that since the purpose is to consolidate the point of diversion for both rights, then both rights 75-4107A and 75-14169 should be included on the transfer. As such, I have prepared an amended front page copy of the transfer that was submitted earlier and have updated the information based upon the adjudication recommendations and have included water right 75-14169.

I require you to review this information for accuracy and to sign your initials on the page (preferable adjacent to the listed water rights) and return to my attention. For your convenience, I have included copies of the water right recommendation reports that Ms. Brown has prepared. They are for you to keep. As soon as you return the initialed cover page to me, I can continue to process.

If you have any questions, please feel free to call me at (208) 525-7161.

Sincerely,

W. Roger Warner
Water Right Supervisor – Eastern Region
