RE: Water Right Permit No. 51-07276

Dear Permit Holders:

The Department is reviewing the above referenced permit prior to issuing a water right license. We find that this right has been partially decreed in the Snake River Basin Adjudication (SRBA), however, pursuant to Section 42-1421, Idaho Code, we must complete the statutory licensing procedure in accordance with Section 42-219, Idaho Code. Once the license has been issued the Department will reflect the completion of the licensing process in its water rights database. By issuing a license on this permit, the Department confirms that a water right has been established in compliance with the terms of the permit. The examiner who verified your water use reported that the place of use is in locations other than what was described on your permit. Therefore, before a license can be issued, your permit must be amended to depict this water right as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 60 days.

If you have any questions, please call me at 208-327-7944.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
