Re: Application for Transfer No. 69649
Water Right No. 43-13067

Dear Applicants:

Idaho Department of Water Resources (IDWR) is currently reviewing your application for transfer of a water right. Additional information regarding crop history will be required to support or clarify your application. IDWR needs to have information on the last 5 consecutive years of crop history of the land associated with Water Right 43-13067. IDWR's records show that Mark Baker currently owns the land. You should be able to attain the information directly through Mr. Baker or from the local Farm Service Agency (FSA).

The Department will hold further processing of this application for 30 days to allow submittal of the required information. Additional time may be granted by the Department upon receipt of a written request and sufficient justification for an extension. After that time, if adequate information is not received, the Department will issue a preliminary order to reject or deny the application.

If you have questions, please feel free to contact me at (208) 327-5452

Sincerely,

James F. Zokan
Sr. Water Resource Agent
