Dave,

Based on our inventories of diversions upstream of Mackay Reservoir, we have identified four physical diversions for the water rights you reference. To my knowledge, only three of them are currently being used by Mountain Springs Ranch.

The three active diversions are located as follows:

Mountain Springs Ranch 4: SE NW Sec. 11 (from Parsons Creek a.k.a. "The Back Channel")
Mountain Springs Ranch 3: NW NE SE Sec. 11 (from Big Lost River)
Mountain Springs Ranch 2: NW NE Sec. 14 (from Parsons Creek a.k.a. "The Back Channel")

The inactive diversion is located as follows:

Mountain Springs Ranch 1: SE SE Sec. 3 (from Parsons Creek a.k.a. "The Back Channel")

Diversions MSR 1 and MSR 3 are described on the water rights. As for the other three PODs on the water rights:

The POD at NE NE SE Section 11 is used by Dennie Donahue who bought part of the property and now owns the other split of water right 34-10553. It appears to me that this POD should have been removed from MSR's water rights when the POU's were transferred, but for some reason was not.

The POD at SW NE NW Section 13 is where Bret and Jolene Zollinger divert some of their water rights. I do not know why the POD is listed on MSR's water rights. I have been told by the watermaster and the ranch manager that MSR does not divert water here.

To my knowledge, there is not a physical diversion located in the SW NW SW Section 12.

I am not aware of the reason that MSR has applied to add two PODs, rather than move some of the PODs that they aren't using.

Hope that helps, please let me know if you have further questions.

Jennifer

jennifer

I have a transfer for mountain springs-- 34-142, 611b, 612b, 613b, 10553b to add 2 PODs to the existing 5 PODs already on their water rights.

You are listed as the person that GPSed these PODs.

One document makes it look like 2 of the 5 POD need to have the legal description corrected.

But the transfer indicates they use 7 PODs--- they need to add 2 to the original 5.

I hoping you know which is correct 5 PODs or 7 PODs.

thanks

dave c- eastern
